

LAST VOTE  
REGISTER TODAYWARN OF DEATH  
IN HEALING RAYS  
USED BY QUACKSDoctors at Congress  
Tell of Peril.

The treatment of disease with light and electricity—a steadily advancing branch of medical science—should be conducted only by specialists in the use of such methods. This warning was the dominant note at the opening sessions of the third annual congress of the American College of Physical Therapy which opened yesterday in the Stevens hotel.

Attending the sessions are 1,500 doctors. The convention continues all week and clinics will be held at several of the city's hospitals.

Among the leaders in the discussions during the day were Dr. Carl Lund of Copenhagen, Denmark; and Dr. Alfred R. Friel of London. Other prominent physicians who are expected to lecture are Prof. Donato de Francescantonio, Italy, and Dr. Joseph N. Barnes of Montreal.

**Danger from Charlatans.**  
Dr. Sonne and Friel warned that a little knowledge about the uses of light and heat and electricity in the treatment of malignant diseases is a dangerous thing. They said those who speak so powerfully for healing and health when properly used, often in makeshift or charlatan hands, may become agencies of death.

Meetings and lectures were going on in three different rooms at the Stevens at the same time during yesterday's sessions. Thus while medicine, pediatrics, diagnosis, neurology, and endocrinology were being discussed in one room, in the second room, sessions on lectures on surgery, urology, gynecology, and orthopedics, while in the third room diseases of the eye, ear, nose, and throat and the treatment of them with the light-heat-electric methods were under discussion.

**Cure of Rickets Told.**  
Dr. Sonne, a successor of Dr. Finlay, who 25 years ago got the Nobel prize for his pioneer discoveries in the treatment of diseases with light, said his American colleagues that rickets, so common to childhood, and rickets tuberculosis are, in his experience, the two diseases most successfully treated with the artificial sunlight composed of infrared, luminous and ultra-violet rays. He added that asthma and bronchitis and diseases of the joints and bones also are treated with success.

"Treatment with light is yet in its infancy," Dr. Sonne said. "We know that certain applications of light heat and certain wave lengths of ultra-violet rays accomplish certain effects. But we do not yet know whether it is the luminous, the dark rays known as infrared, or the ultra-violet rays which accomplish certain ends. Nor do we know whether it may not be a combination of all three."

And he added: "The fact that we have been experimenting for years, for years cautiously feeling our way, is plain evidence that only specially skilled and trained hands should handle these agencies."

**Galvanism Is Explained.**  
Dr. Friel of London specializes in galvanism, which he explained as "a specially meant treatment by passing a continuous current of electricity through the patient's tissues."

"The dosage," continued Dr. Friel, "is regulated by graduating the strength of the current and increasing or diminishing the length of time it is applied. This form of treatment is of particular use in local rather than general affections."

He added that this electric treatment must be handled skillfully and used by experienced men. It is highly efficacious in curing stiff joints, rheumatism, and neuritis and other nerve troubles.

Dr. E. C. Henry of Omaha, Neb., spoke on light in surgery, between sessions said that the greatest need in the United States today is an institution where the \$2,500 a year men and their families may go for examination at a moderate price.

"These fairly well to do people are the victims of a peculiar situation," Henry said. "Take a Chicago man. If he is a pauper he goes to the city hospital, the finest equipped in the world. If he is a man of means and family in between these extremes does not go at all when he needs what a general examination and diagnosis costs."

ITALY REJECTS  
ANGLO-FRENCH  
DEAL; BACKS U. S.Asks Naval Cut by  
Global Tonnage.BY WILLIAM SHIRER.  
(Chicago Tribune Press Service.)

ROME, Oct. 8.—Italy stands squarely behind the United States thesis for naval limitation by global tonnage, it informed France and Great Britain in a note which virtually rejects the London-Paris pact. The communication of Premier Mussolini is along lines similar to Washington's reply. The Italian note was presented to the French and British foreign offices Saturday, and its contents were published here tonight.

Italy must be allowed naval parity with France, the reply points out, though it tacitly refrains from any mention of Italy's fleet or that the French-British naval accord in reality means French naval dominance in the Mediterranean.

**Ready to Limit Arms.**  
The note reaffirms Premier Mussolini's declaration in the Italian senate last June, when he said, "Italy is ready to accept as the limit of armaments any figure, even the lowest, provided it is not exceeded by any other continental European power," meaning, of course, France. It insists, however, of consideration of all branches of arms, land, naval, and air, in any discussion for disarmament.

The Fascist note launches into a lengthy explanation of why it favors limitation of global tonnage for navies instead of limitation by categories. The argument is identical with that advanced by the American delegation at the tripartite naval conference at Geneva a year ago, and repeated in the recent American reply to the French-British memorandum.

"Each state must be left free to use its tonnage quota the way it believes it best answers its particular needs, both as regards the type of ships and its armament," Sig. Mussolini explains.

**Would Benefit Weaker Nations.**  
"The system of limitation of total tonnage is the only system permitting weaker countries to find some compensation for the superior strength of the better armed powers," he points out.

Rome's answer also goes into detail on Italy's peculiar naval needs, because of its abnormally long coast line, numerous island possessions, and African colonies, but reiterates its willingness to go the limit on disarmament if the others will go too.

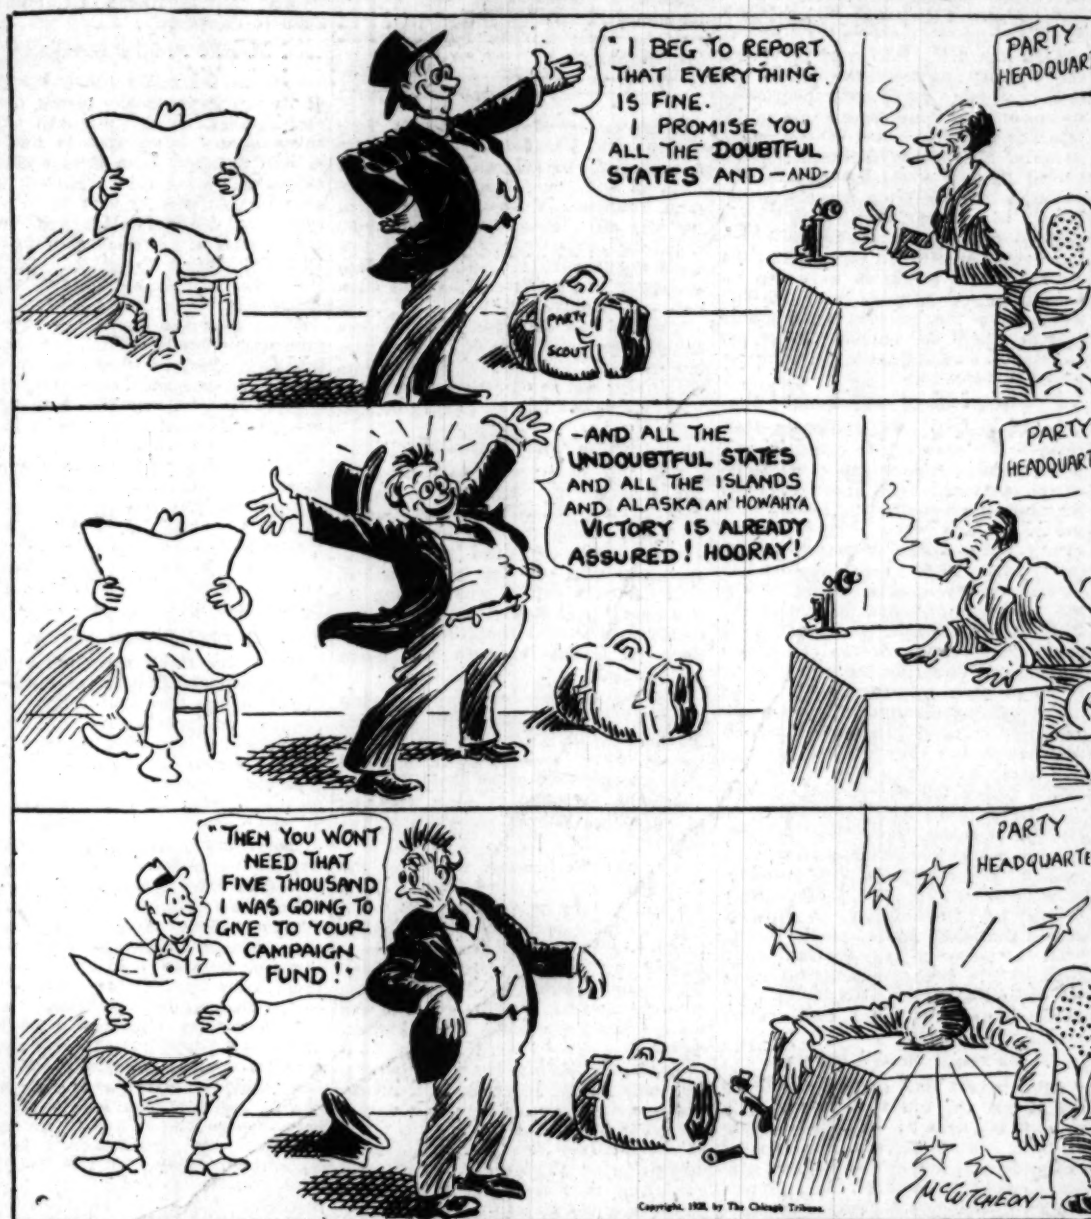

Premier Mussolini's reply is regarded here as the death knell of the Franco-British agreement in so far as there may have been any additional plan needed after the United States rejected it.

## BRITAIN MUM ON NOTE

BY JOHN STEELE.  
(Chicago Tribune Press Service.)  
LONDON, Oct. 8.—The British government today received the Italian reply to the Anglo-French naval agreement, but, following its settled policy of obfuscation, refuses to publish it. Meanwhile the public demand for enlightenment is growing daily, and when the British cabinet meets Wednesday it will have to consider the situation in the light of its public indignation. This likely will hurt seriously the chances of the Conservative party in next year's election. General opinion here now is that Great Britain has suffered the most severe diplomatic defeat in recent years. The public and press are blaming first the foreign office, which, owing to Foreign Secretary Sir Austen Chamberlain's illness and the transfer of Sir William Tyrrell from his post of permanent undersecretary for foreign affairs to the Paris embassy, is in a state of confusion and disorganization. Prime Minister Stanley Baldwin is also being criticized for allowing the most important department of the state to fall into such condition.

**See Only France Benefited.**  
The net result of Sir Austen's flirtation with France is that France has the clothes and John Bull has hardly even got the traditional barrel. France has obtained, and insists on keeping, the British agreement to recognize the conscription system and not to count, in reckoning its military strength, France's trained reserve forces. Great Britain thought it had the naval cooperation of France, but owing to the indignation of the United States, Italy, and other countries and the outburst of public opinion at home it finds it has not, and has irrevocably lost it.

## THE DANGER OF PROMISING TOO MUCH

LOS ANGELES STARTS  
BACK EAST TODAY; WILL  
FLY OVER CHICAGO

Port Worth, Tex., Oct. 8.—(AP)—The navy dirigible Los Angeles tonight was moored to the 160 foot mast at the government helium plant here. The ship was tied up at 6:45 p. m. The dirigible will take off at 9 a. m. tomorrow for Lakehurst, N. J.

The route will be as follows: Denton, Tex.; Ada and Tulsa, Okla.; Erie and Paola, Kas.; Kansas City; Burlington, Ia.; Chicago; South Bend, Ind.; Toledo and Cleveland, O.; Pittsburgh and Philadelphia.

The dirigible came here from San Antonio, passing over Dallas en route.

## Will Dodge Mail Lanes.

Washington, D. C., Oct. 8.—(AP)—Night flying lights on the dirigible Los Angeles conform to regulations Secretary Wilbur said today in answering charges that the dirigible flew recently with two county policemen and escaped serious injury. According to Miss Bridin she and Sabina were dragged into an automobile by the two youths as they were taking a walk Sunday night near 8th street and Commercial avenue. The youth in custody is John Pelky, 27 years old, 7355 Evans avenue.

Hunt Alleged Kidnap  
of Girl; One Youth Held

An alleged kidnaper of two young girls was being hunted last night by Chicago and Detroit authorities while his accomplice was lodged in a cell at the Willow Springs police station.

The two girls, Helen Brodin, 15 years old, and Sabina Drabza, 16 years old, both of 8452 Madison avenue, were rescued by two county policemen and escaped serious injury. According to Miss Bridin she and Sabina were dragged into an automobile by the two youths as they were taking a walk Sunday night near 8th street and Commercial avenue. The youth in custody is John Pelky, 27 years old, 7355 Evans avenue.

## Points Out Places Robbed.

Early in the evening McCormick was placed in a police car and taken for a tour of the loop. He pointed out several candy stores, several shoe stores and a few hosiery shops in which he had made good hauls. In an earlier stickup he had obtained \$80 in the United shop on Randolph street, he added, and it was so easy that he decided to try it again.

"Sure," he said, "I kept working regular at this racket. It was a good one. I made \$200 a week at it. I had a job, too. I collected bills all day for the Dale Furniture store at 4225 West Madison street, but it was too slow. What did I do with the stickup money, did somebody ask? I spent it. You see, I had a girl."

McCormick, who had a high school education, was wearing the same brown sweater he had on in all the other robberies. He hadn't tried to make any change because he believed he was immune to capture. He lived at 3555 West Madison street.

Call Litzinger Robber.  
The robbery of the Chicago theater on Sunday, the police announced, was partially solved yesterday when six

Loop Crowd  
Helps Police  
Catch Bandit

**CRIMINAL COURT.**  
William Corney, embezzlement, sentenced to 1 to 10 years in Pontiac reformatory; Arthur Hargrave, embezzlement, sentenced to 1 to 10 years in the penitentiary; William Hawkins, burglary (changed to larceny) sentenced to 1 to 10 years in Pontiac reformatory; John Mendez, larceny, sentenced to 1 to 10 years in Pontiac reformatory; Robert White, larceny, sentenced to 1 to 20 years in Pontiac reformatory by Judge John J. Sullivan.

Peter Barnes and Earl Ashley, robbery, sentenced to 1 year to life each in the penitentiary by Judge Ira Ryner.

Perry and John Tobin, robbery, sentenced to 1 to 20 years each in the penitentiary by Judge John P. McGoorty.

## (Picture on back page.)

George McCormick, 20 years old, who admits that he has committed seventy-five robberies in small shops in the past six months, was captured late yesterday in a thrilling chase through loop crowds.

A few minutes before McCormick had walked into the United Hosiery store at 159 West Randolph street. The manager, Miss Mabel Koch, 2738 Pine Grove avenue, and her assistant, Miss Bess Kelly, 4621 Lake Park avenue, whom he menaced with a pistol, gave him \$47 from the cash register.

McCormick left, Miss Koch followed. She called to Henry Callaway, colored, doorman at the Palace theater, that McCormick was a robber. Callaway followed him. McCormick ran to La Salle street and then south to an alley opposite the city hall entrance. Here Mounted Policeman George D. Perry joined in with numerous pedestrians and the fugitive was caught.

Charles Saxon, 21 years old, and George Read, 22 years old, both colored, were arrested last night at 5041 South Park way and were identified as the pair who took \$300 from the clerk of the Chelsea hotel, 920 Wilson avenue, on Sunday. Saxon was a former employe of the hotel.

PARIS GIGOLOS  
ARRESTED FOR  
ROBBING WOMEN

(Chicago Tribune Press Service.)  
PARIS, Oct. 6.—Six professional dancing men—all Spaniards—working at the most exclusive night clubs, were arrested this morning and charged with theft as the initial action of the police in cleaning up the gigolos, who are reaping a rich harvest from unaccompanied women visitors.

The six were accused of stealing jewelry, money, furs, robes, and even the lingerie and silk stockings of their victims.

"We encounter the most extreme difficulty in persuading the dupes of gigolos to complain or testify against them," said the prefecture of police. "They threaten and blackmail their victims. Naturally most of the victims are American women, as they are the richest and most naïve."

The robbery of the Chicago theater on Sunday, the police announced, was partially solved yesterday when six

EPISCOPAL CHURCH  
COMMITTEE PUTS O. K.  
ON HEALING BY FAITH

Washington, D. C., Oct. 8.—(Special.)—Formal recognition by the Protestant Episcopal church of healing by faith is recommended in a joint commission report, the result of three years' study, to be submitted to the forty-third triennial convention, which will be opened here tomorrow. A brief address of welcome will be delivered by President Coolidge at the Washington cathedral.

The faith healing recommendation was made by a commission appointed at the last convention in New Orleans in 1925 and seems destined to provoke a fervid controversy. The commission is to report the following resolution:

"It recommends to the church at large such efforts as are being made under Episcopal authority either through the personal ministrations of parish priests or through such organizations as the American Guild of Healing, the Society of the Nazarene, and the Grace Cathedral Mission of Healing, to awaken men to the truth that there is healing power in faith in Jesus Christ."

employees of the show house identified a picture of Virgil Litzinger as the bandit who took \$6,400 from them in the basement office. Litzinger has been sought for six months as one of the Evergreen Park mall bandits. The loot in that robbery was \$135,000. Litzinger is also wanted on a murder charge.

Charles Saxon, 21 years old, and George Read, 22 years old, both colored, were arrested last night at 5041 South Park way and were identified as the pair who took \$300 from the clerk of the Chelsea hotel, 920 Wilson avenue, on Sunday. Saxon was a former employe of the hotel.

New Zeppelin  
Ready for Its  
U. S. Flight

FRIEDRICHSHAFEN, Germany, Oct. 8.—(AP)—Good weather prospects over the Atlantic were awaited tonight by Dr. Hugo Eckener before he would announce the "sailing" hour of the Graf Zeppelin, the huge new dirigible which he is to pilot to the United States. He hoped the reports would be favorable for a departure Wednesday.

The final test of the airship, a flight of less than five hours, was given today. The dirigible first flew over Lake Constance while thousands of spectators, a large proportion of whom were tourists attracted here by the coming event, watched and cheered.

The airship then sailed over Switzerland and Württemberg, during which both direction finding apparatus and motors were submitted to final tests. A maximum speed was attained, 80 miles an hour, with an average speed of 62 miles.

**Landing Proves Difficult.**  
A westerly wind which was blowing when the ship returned to the hangar here made the landing difficult. Three unsuccessful attempts were made to enter the hangar before it was accomplished. At one time it seemed that the stern might hit the structure.

Capt. H. C. Flemming navigated the Graf Zeppelin on today's flight, while Dr. Hugo Eckener remained on the ground. The latter said that the route to be followed to America would be decided on the basis of weather.

Dr. Eckener said tonight that it is going to cost \$95,000 for the round trip to the United States. This figure, he said, covered allowances for depreciation, repairs, and insurance on the ship and its occupants. Each of the passengers has been insured for \$50,000 in case of death.

## How Expenses Will Be Paid.

Dr. Eckener revealed that the chief revenue for the trip will come from newspaper interests, who have been given rights to file dispatches from the ship. Two German publications will pay \$15,000 between them. More than four times that amount, \$67,400, will come from a chain of American newspapers. Four private passengers are being charged \$12,000 and the other \$1,000 needed to make up the total cost will come from the German postal department to pay for mail that is to be carried across the ocean.

It was emphasized that this total does not take into account the cost of the various trial flights, including the 1,800 mile trip over England and the North sea last week.

COUNTY ACTS TO  
FINISH KANKAKEE,  
CHICAGO ROUTE

Following the publication in THE TRIBUNE yesterday of a photograph showing the terminus of state highway 49 in a cornfield near Richton Park, the Cook county commissioners voted funds to acquire property to complete the road.

Started three years ago, the highway was intended to connect Kankakee with Chicago. Farmers along the surveyed right of way blocked completion of the road by refusing to yield their rights, it was said. On recommendation of the county highway department, the board voted \$15,045 to indemnify the owners for loss of their land and crops.

The board also voted \$200,000 to improve the Dixie highway from the Illinois Central tracks to 16th street in Chicago Heights, Hillside avenue in Barrington, and Madison street in Bellwood. All four projects are to be completed this year.

## THE WEATHER

TUESDAY, OCTOBER 9, 1928.  
Sunrise, 5:56; sunset, 5:19. Moon rises at 2:38 a. m. Wednesday. Mars and Jupiter are morning stars. Venus is the evening star.

Chicago and vicinity—Generally fair Tuesday and probably Wednesday; cooler Tuesday; mostly moderate northwest Tuesday; Tuesday and Wednesday; cooler Tuesday in west and north portions.

EXPECT 520,000  
NEW NAMES PUT  
ON POLL LISTSBoth Parties Work  
to Swell Total.

## Register Today!

Today is your last chance to register to vote in the November 6 election.  
All voters who did not enroll their names on the first day, Sept. 29, must register today if they want to vote for Hoover or Smith and for state and county officers. The old books have been destroyed.

The registration applies to Chicago, Cicero, Chicago Heights, and Summit, under election board jurisdiction.  
Regular polling places in all precincts will be open today for registration from 8 a. m. to 9 p. m.

Registration figures for Chicago:  
First day, Sept. 29... 886,682  
Today's estimated... 520,000  
1,406,682

The old record before last April primaries was 1,228,283.  
Don't forget to register.

## BY ARTHUR EVANS.

In the eyes of the politicians, today's registration of voters, the second and last call for enrollment, will determine whether Herbert Hoover or Al Smith will carry Chicago.

Republicans and Democrats, each with an army of 10,000 or more precinct workers, plan to comb and take the city as never before to get the voters on the books. The first day's registration, Sept. 29, saw all records broken with a registration saw 886,682 in the city, the avalanche of voters descending with little if any work from the political parties. Today the organizations of both parties are to concentrate on enrolling, and this, plus the popular urge, they estimate will land more than half a million more names on the lists.

## Forecast 1,400,000 on List.

Leaders on both sides are figuring that in Chicago around 1,400,000 voters will be registered for the election Nov. 6. This may be compared with the old registration on the books before the April primaries of 1,228,283, which had been accumulating for two years.

A great drive to register the women is to be made by both parties. The first day of registration saw 268,558 women and 518,124 men enrolled, swamping the election judges and clerks with a turnout that astounded the politicians. Today the parties figure about 220,000 women and 300,000 men will be registered, which will give a polling list of about 518,000 men and 588,000 women.

## Both Sides Make Claims.

From both Republican and Democratic camps last night, as the precinct workers gathered at their headquarters, the air was filled with rival claims. The Democratic Republican group said the interest in registration indicates Hoover will carry Cook county by over 100,000. David Shanahan, the Italian commissioner between the state and county tickets, also predicted Hoover would carry Chicago and Cook county by more than 100,000, and B. W. Snow, chairman of the Republican city committee, put out a similar figure.

Democratic leaders claimed Smith will go out of Chicago and Cook with a plurality ranging up to 200,000 and beyond.

**The Democratic Forecast.**  
"The registration Sept. 29 was largely a voluntary one, citizens flocking to the polls to enroll without urging," said Frank J. Wilson, chairman of the organization committee of the Democratic county committee. Today it will be somewhat different. Those who failed to register the first day are naturally less interested than those who came out on the first call.

"It will take work to get them out, and the Democrats alone are organized for this task. Naturally we are looking for all the best of it today and the larger the registration the more pleased we will be."  
"As a group, Democratic women are more reluctant to go to the polls than are Republican women, but they have been impressed with the need of offsetting the votes of persons who have been inflamed by the appeals to prejudice and bigotry. We figure that tonight when the polls close there will be fewer than 10,000 persons eligible to vote who are not registered. We estimate that of every 100 registrations above the 1,200,000 mark there

will be 45 votes for Al Smith and the Democratic state and county tickets."

Republican state candidates trooped into Chicago yesterday. Otto Glenn, nominee for U. S. senator, said Hoover would come up to the Cook county line 500,000 votes ahead of Smith. Senator Deneen predicted Hoover would carry the state by more than half a million plurality, while Mr. Shanahan said Illinois would go to Hoover by 450,000.

"Conditions downstate have shown great improvement in the last ten days, especially among the farmers," said Mr. Shanahan. "Dirt farmers who have made a canvass in the corn belt report the farmers are getting back into line for Hoover and Curtis."

Thomas F. Donovan, Democratic national committeeman, said the Republicans were whistling to keep their spirits up.

"I rather enjoy the predictions made by the Republicans," said Mr. Donovan. "It sounds like the usual simulated courage of the boys who realize they are passing a political graveyard. Let us analyze the situation. In 1924, in Illinois 2,457,000 voted. Of these Coolidge received 53 per cent, and Davis and La Follette 41 per cent. A loss of 10 per cent of the entire vote cast means Hoover will lose this state, because that would reduce him to 48 per cent."

**How He Figures It.**

"The vote of the agricultural districts downstate is about 600,000. Grouping these counties, the normal Republican majority is about 100,000. After a careful poll and check from three different sources, I assert there will be a swing of at least 17 per cent of the rural vote from the Republican to the Democratic party. On this calculation, the Republicans will lose 60,000 votes in the agricultural section."

"In the industrial centers downstate Coolidge received 212,000 and Davis 72,000, giving Coolidge a plurality of 140,000. There will be a net loss to the Republican ticket and a corresponding gain to the Democratic of 75,000."

"The Democratic candidates will come to the Cook county line on practically even terms. I have not attempted to analyze the vote in Cook county, but I now state with all the assurance that any one can make with the election four weeks away, that whatever the majority the Democrats will get in Cook county will represent their majority in the state of Illinois."

**Two Nominated for Bench.**

The Republican city committee, of which B. W. Snow is chairman, nominated two candidates for two vacancies on the municipal bench yesterday. Deneen committeemen were absent from the meeting. The nominations, which were unanimous, were: Judge Robert C. O'Connell for the vacancy caused by the death of Judge John R. Newcomer, whose term O'Connell now is filling by appointment. He is a nephew of State's Attorney Robert E. Crane.

C. Thomas Hanley, for the vacancy caused by the elevation of Judge Robert E. Gentzel to the Superior court last June. Mr. Hanley is in charge of the delinquent tax department of the state's attorney's office. He is a Sixth ward resident and a protégé of Mr. Snow.

As doubts exist whether the nomination for the Gentzel vacancy will be recognized by the election authorities, petitions were put into circulation last night for Mr. Hanley, so he has two ways of getting on the ballot.

**Rival Claims Made.**

There was the usual procession of Republicans yesterday passing through western headquarters, dropping interviews that Hoover would carry the doubtful states, and the usual procession of Democrats, pausing en route to remark that the doubtful states were headed for Al Smith. Waste baskets last night were bursting with the days output of the rival press agents, for every candidate has a publicity man as part of his office equipment, and all are screaming for a little bit of limelight.

The W. C. T. U. sent out a statement from national headquarters saying Hoover's speech at Elizabethton removed all doubts as to his stand on prohibition. He wishes prohibition to succeed," it said.

**Union Women Clash.**

Feminine labor circles likewise resounded with politics. Mary McEneaney, secretary of the Bindery Women's union, who heads the women's division of the Smith Union Labor league, made a reply to Miss Elizabeth Christman, secretary-treasurer of two national women's industrial organizations, who said she was for

## HOOPER DECLARES GOVERNMENT SHOULD KEEP MUSCLE SHOALS

Washington, D. C., Oct. 8.—[Special.]—Herbert Hoover, in a statement given out from his personal headquarters tonight definitely took a position in favor of the continued government ownership of the great Muscle Shoals power project in Alabama. He explained that he takes the same position as the administration which, he set forth, is the dedication of the famous waterpower resource to "agriculture, for research purposes and national defense."

If after these purposes are served any surplus power is left, Mr. Hoover takes the position that it should be disposed of "on such terms and conditions as will safeguard and protect all public interests."

The declaration came at the end of a day in the course of which it was several times asserted that a statement would be forthcoming and just as many times that none would be made.

The publication of a conversation which Edward J. Meeman, editor of the Knoxville News-Sentinel, had with Mr. Hoover at Elizabethton, Tenn., on Saturday led up to tonight's declaration by Mr. Hoover.

Hoover because he would "introduce a new technique in American politics." "I've heard that word 'technique' before," said Miss McEneaney, "but I'd like to know what it's going to do for union labor. I'd like to know what Mr. Hoover has done to recommend him to union labor. I know what Gov. Smith has done. She followed with a list of labor legislation in New York under Gov. Smith. Gov. Albert C. Ritchie of Maryland, champion of state rights on prohibition, arrives tomorrow in Chicago. He is to speak for Smith at the Second regiment armory tomorrow night under Ironclad club auspices.

The Republican state candidates now take a week off from their labors, and their campaign in Cook county opens two weeks hence with a noonday rally at the Great Northern theater and a night meeting at the Evanston Country club.

## THREE TELLERS ARE SENTENCED AS EMBEZZLERS

Three tellers employed by the Transportation Bank of Chicago, who embezzled sums ranging from \$2,122 to \$10,200, were refused probation yesterday by Chief Justice John J. Sullivan of the Criminal court and were sentenced to penal institutions for from 1 to 10 years each. William Cerney, 24 years old, Downers Grove, who took \$9,755 from the bank, was sent to Joliet reformatory, and Arthur Hargarten, 27 years old, 2324 South Lincoln street, who stole \$10,200 and Joseph Feindegren, 29 years old, 4300 South Whipple street, who embezzled \$2,122, were sentenced to the penitentiary.

The defendants attempted to justify their conduct by saying that they had lost the money through betting on the horse and dog races on tips obtained from a bookmaker customer of the bank.

## FOUGHT TO GIVE NEGRO FRANCHISE IN SOUTH IN 1890

House Passed Lodge Force Bill, 155 to 149.

BY ARTHUR SEARS HENNING.

[Chicago Tribune Press Service.]

Washington, D. C., Oct. 8.—[Special.]—The last attempt made in Congress to secure to the Negro in the south the right of suffrage which the fifteenth amendment was intended to guarantee was represented by the effort to pass the Lodge "force bill" in 1890.

After the first election of Cleveland the Republicans were convinced that if they were to perpetuate themselves in power they must take steps to obtain the electoral votes of the south. These practices were the result of which they believed themselves deprived by the exclusion of the Republican Negroes from the electorate. They calculated that they were cheated of 24 congressmen and 38 electoral votes by election practices in the south. These practices were the result of which they believed themselves deprived by the exclusion of the Republican Negroes from the electorate. They calculated that they were cheated of 24 congressmen and 38 electoral votes by election practices in the south.

**Majority of One Vote.**

In December, 1889, President Harrison in his message to Congress proposed federal supervision of congressional elections. With approval of the Republican caucus by the narrow majority of one vote, Representative Henry Cabot Lodge of Massachusetts introduced what was immediately dubbed by its opponents the "force bill."

It was designed to enforce the fifteenth amendment, not to carry out the second section of the fourteenth amendment directing the reduction of representation in Congress of states disfranchising citizens. The Republicans wanted the south to keep its representation but they wanted the representation.

The Lodge bill provided that upon petition of from 50 to 100 voters in election districts, according to size, federal judges should appoint election boards to supervise elections and canvass returns. As the judges were nearly all Republicans, it was assumed that they would appoint boards with a majority of Republicans on each. There were provisions for using troops and deputy United States marshals to preserve order and protect voters at the polls.

**Six Days' Heated Debate.**

After a six day heated debate in the house, the bill was passed by a vote of 155 yeas to 149 nays on July 2, 1890. Of those who participated in the debate, few are alive today and fewer still in public life. Representative Theodore E. Burton of Ohio, Republican, is the sole survivor of that day in either house of Congress. He voted for the bill. Another survivor on the Republican side is Henry Clay Hansbrough of North Dakota, later senator, who is now in Washington heading a committee organizing the farmer vote for Al Smith. Still

## CITY MUST ADVANCE AVIATION TO KEEP ITS PLACE, LEGION TOLD

Chicago's position as the transportation center of the continent will be lost unless the city capitalizes upon the possibilities offered by aviation, Russell L. Putnam, vice president of the A. H. Shaw Publishing company, declared yesterday in an address before members of the American Legion advertising men's post in the Hotel Sherman.

"Chicago," he said, "owes her present dominance to transportation of yesterday. She will maintain it only by keeping pace with the transportation of tomorrow, which will be air transportation with greater facilities, speed and comfort."

Mr. Putnam recently returned from an 8,000 mile airplane trip throughout the United States in the interests of commercial aviation.

John J. Mitchell of the Illinois Merchants Trust stated that aviation's worst enemies are the optimists and the pessimists.

another is Alfred A. Taylor of Tennessee, who was once beaten for the governorship by his brother, Bob, but lived to win the job in 1920 and defeat Tennessee from the solid south for the first time since reconstruction. Others who voted for the bill were Speaker Tom Reed, the late Robert M. La Follette, Uncle Joe Cannon, and Dolliver of Iowa.

Two of the few survivors of the Democratic opponents of the measure are Benton McMillin, who is Democratic national committeeman for Tennessee, and William H. Forney of Alabama.

**Senate Cool to Measure.**

The bill never was considered in the senate. The Republican leadership in the senate was cool to the measure. Senator Don Cameron of Pennsylvania explained that manufacturing was reviving in the south, that northern capital was pouring in, and that "the election law would produce ill feeling between the north and south."

Besides, six new states were being admitted to the Union, and all were Republican, or good Republican prospects. Their votes in Congress and their electoral votes would offset the votes the Republicans were deprived of by Negro disfranchisement in the south.

Still another reason was that the Democrats intended to filibuster the election bill by prolonging debate on the McKinley tariff bill. The Republicans were more interested in the protective tariff than in the Negro vote. They made a deal with the Democrats whereby debate on the tariff bill was limited and the election bill was abandoned.

Uncle Joe Cannon reported the special rule from the rules committee, under which the house debated and passed the bill. His remarks in favor of the measure were applauded by a delegation of Negroes in the gallery, according to references to that circumstance occurring in the debate. The Democrats were up in arms at once.

It is a bill to try to elect a Republican Congress this fall; but they can't do it," said Representative Flower of New York.

"Here is a proposition," said Representative McMillin, "the most far-

reaching and the most revolutionary that has ever been presented. It is centralization run mad. Despotism is sure to follow if it be enacted."

**What Lodge Declared.**

Mr. Lodge pointed out that the bill was an extension of the election supervision act, "made necessary by the gigantic frauds in the city of New York" in 1870, when in some instances more votes were cast than there were residents in the election district. He instanced election frauds in other northern states to prove that the bill was not aimed at the south exclusively. Then he went on to deal with the question of the purity of elections in the south.

"If, as I have heard it stated on this floor," said Mr. Lodge, "southern elections are perfectly fair and the black man goes caroling to the voting place by the side of his employer, seeking only to cast his vote for those whose interests are identical with his own; then, sir, it is the duty of the United States government to uncover this pleasing picture and display it to the country so that confidence may be restored, and no man may suspect longer that southern elections are open to criticism."

**Assails South's Elections.**

"If, on the other hand, the belief of farge masses of the people that in certain sections of the south such a thing as a fair election is unknown is well founded, then it is high time that the United States should put a stop to that evil, if they have to exercise to the very last point every power that the constitution has put into their hands."

Mr. Lodge said he did not wish to judge harshly of the southerners for dealing with the worst race question otherwise than he would, but the fact was that whether wisely or unwisely, the Negro had been enfranchised and that it had become the duty of the federal government to protect him in the exercise of that right.

"The government which made the black man a citizen of the United States," he said, "is bound to protect him in his rights as a citizen of the United States and it is a cowardly government if it does not do it. No people can afford to write anything into their constitution and not sustain it."

**Excluded from Voting.**

Mr. Lodge dwelt upon the inequality of representation in the house produced by the fact that Negroes were counted in apportioning congressmen to the south, but were excluded from voting, wherefore, each southern congressman represented but a fraction of the number of voters represented by the northern congressman.

Incidentally, Mr. Lodge pointed the way to the device the southern states soon thereafter began adopting to disenfranchise the Negro.

"If any state," he said, "thinks that class of citizens is unfit to vote through ignorance it can disqualify them from voting for state officers or for members of this house. It has but to put an educational qualification into its constitution. But the disqualification like the qualification cannot recognize color, and that is the reason that legal methods never have been tried. The Negro is not thrust out from his rights merely because he is ignorant and unfit to use them, as is constantly charged, but because his skin is black. It is this distinction which gives the lie to every principle of American liberty that is at the

bottom of the difficulty and of the problem which we all deplore."

**Those Democratic Bolters.**

One of the principal counts in the indictment of Al Smith by the southern Democratic bolters in this election is his affiliation with Tammany, arch symbol of corruption. And one of the principal arguments being put forward in defense of Tammany is that it saved the south from the Lodge force bill. This argument is based upon the activity of Tammany in fighting the measure. Although the bill passed the house, Tammany organized mass meetings of protest and to these is attributed in large part the crystallization of opposition which impelled the Republican leaders to pigeonhole the bill in the senate.

Ironical as it may seem in the light of the current southern anathematization of Tammany as the corrupter of government, the New York organization was opposed to the Lodge bill for the same reason as was the south: Because it would give the federal government the power to compel the holding of honest elections. Tammany controlled New York elections were notoriously dishonest, no less so than those in the south in which the Negroes were counted out. In those days Tammany and the south were political bedfellows.

**Federal Supervision.**

Representative Cummings of New York, Democrat, portrayed the operation of the proposed system in the case of New York. There would be federal supervisors of elections and canvassing boards appointed by Republican federal judges.

"After the election," said Mr. Cummings, "the board canvasses the vote for congressmen in all the districts of the state and declares what candidates are entitled to seats. Imagine these three gentlemen, appointed for life by a circuit judge sitting in Vermont, canvassing the vote of the great state of New York, with its thirty-four members of congress. The New York representative who votes for this bill ought to blush with shame. He will repent of it in sackcloth and ashes."

**Finds Body of Wife Hanging in Basement**

When Walter J. Kaehler, a wrecking contractor, returned to his home at 807 Chestnut avenue, Wilmette, last evening, he found his wife, Anna, 43 years old, hanging by a sash cord from a steam pipe in the basement. Kaehler telephoned the Wilmette police, who, after investigation, said she had been dead several hours. Mrs. Kaehler had returned Monday from a sanitarium where she went recently, suffering from a nervous breakdown.

## SMITH TO GIVE SOUTH EYEFUL OF PERSONALITY

Only One Speech, but Much Visiting.

JAMES O'DONNELL BENNETT.  
(Chicago Tribune Press Service.)  
Albany, N. Y., Oct. 8.—[Special.]—

Smith's going visiting in Dixie this "going visiting," is right. It won't be a campaign tour, except in the sense that it's Al's new idea of what a campaign tour ought to be. He says that in these days of the "radio," it doesn't win you any votes to give a fifteen minute speech at the station of every town where your train stops. He says that's "old stuff."

To Talk on Tariff. That one speech in three days will make in Louisville next Saturday and it will deal with the tariff. The session was reached this morning and now John Raskob, chairman of the Democratic national committee, is a sad man. He begged Mr. Smith to make a speech in Nashville, on Friday night.

He said the nominee, "I can't tell you that, fast, and I won't make three speeches. One speech on the third night or so is plenty." But though he won't make the speech in Nashville, he will make a speech there. He will ride out to the plantation home of the late John Raskob, on Friday night, to perform the duties of that shrine place of the late John Raskob.

Busy with Statistics. All this day he has been busy with his filing cabinets which were filled from his campaign train when he arrived in Albany last Tuesday. He eliminated ruthlessly, he said, and he said, "I'm going to make the speeches to be made on the next day in the hope that I can leave the southern cities in which the campaign will visit with party workers."

Richmond, Va.; Raleigh, N. C.; Salisbury, N. C.; Chattanooga, Tenn.; Nashville, Tenn.; Louisville, Ky.; St. Louis, Mo.; and Cincinnati, Ohio. "Nothing has been definitely decided," he said.

In New York Today. The governor will leave Albany tomorrow for New York City and will give all of Wednesday to conference. At 11 o'clock Wednesday he will leave for Richmond. On this trip the political intelligence who will accompany him, are: Joseph P. Byrne of Tennessee, ranking Democratic member of the appropriations committee, and John H. Davis of Massachusetts, an assistant secretary of state in the Wilson administration. Asked whether he had read Hoover's Elizabeth speech, Smith replied: "I glanced through it, but I can't read it."

## HURL SUPPOSED BOMB AT YELLOW CAB; HELD JOKE

(Picture on back page.)

Raymond Paul, 27 years old, a Yellow cab driver of 4716 North Campbell avenue, strode into the Rogers Park police station, last night, carrying an iron missile resembling a bomb. Two men in a maroon sedan had hurled it and another of the same appearance at his cab, he explained.

The first missile was thrown as the sedan passed his cab at Touhy and Western avenues, Paul said. At Rogers avenue and Robey street, the same car again sped past and the second missile was hurled.

Paul brought it to the station, where Sgt. Eugene Lee hastily immersed it in water. A general order was issued for the seizure of the maroon sedan. Lieut. Make Mills of the bomb squad will examine the missile today.

After hearing Paul's report officials of the cab company were of the belief that the supposed "bomb" throwing was the work of some joker.

Chief Justice John J. Sullivan of the Criminal court announced yesterday that he would probably charge the October grand jury today to make an investigation of the disputes between the Yellow and Checker cab companies. State's Attorney Robert E. Crowe said he was ready to go into the charges that a taxicab war exists.

## UPHOLDS RIGHT OF CANADIANS TO WORK IN DETROIT

(Picture on back page.)

The right of 5,000 foreign born Canadian citizens to work in Detroit and cross the border daily on business was upheld today by the United States Supreme court, at Washington, D. C.

The decision, Federal Judge John S. Simons explained, renders invalid that part of the much discussed general order number 88 which requires the ferry commuters to have immigration visas.

The order has been enforced in Detroit since Dec. 1, despite much protest and rulings from Federal courts here and at Buffalo that in specific cases it did not hold.

Visas required of aliens residing in Canada were not affected by the decision. Judge Simons has extended the privilege of commuting from Windsor to Detroit to this class.

The Supreme court's decision was in the form of a refusal to review the cases of Mary Cook, a native of Scotland residing in Niagara Falls, Ontario, and Antonio Danelon, an Italian, now a British subject.

Both crossed daily to Buffalo and Niagara Falls, N. Y., to work.

## HOOVER IS TOLD OHIO'S NO LONGER COOL TOWARD HIM

Bitterness Over Willis Campaign Forgotten.

BY ARTHUR CRAWFORD.  
(Chicago Tribune Press Service.)

Washington, D. C., Oct. 8.—[Special.]—Elimination of the bitterness of the Hoover-Willis pre-convention contest was reported to Herbert Hoover today by a delegation of Ohio Republicans.

In the group were Myers Y. Cooper, Republican gubernatorial nominee in Ohio; Col. Carmi A. Thompson, who was the Willis manager and organized the pre-convention fight against Hoover; Judge Orville Smith, Arthur Fenton, collector of internal revenue; and Charles A. Jones, who was Senator Willis secretary at the time of the latter's sudden death.

The report on present conditions in Ohio was in marked contrast to pessimistic predictions made by Willis supporters at the Kansas City convention. Instead of a split in the party, it was asserted harmony had been brought about and overwhelming majorities for the Republican national and state tickets were assured.

Both National and State Tickets.

While Ohio has usually been considered fighting ground in presidential campaigns, Mr. Hoover was told the Democrats this time seem to have abandoned all hope of carrying the state. Not only will Hoover sweep Ohio by a big margin, it was declared, but the two Republican senatorial nominees, Senator Fessenden and Representative Burton, the latter seeking the Willis seat, are certain of election. Mr. Cooper also expressed confidence in his own election as governor over Representative Davey, the Democratic nominee.

Mr. Cooper and Col. Thompson were luncheon guests of President Coolidge at the White House and also conferred with Chairman Hubert Work of the Republican national committee.

Nye's Report Cheerless. Mr. Hoover received reports on conditions in the agricultural states of the northwest from Senator Borah (Idaho) and Nye (N. D.). Senator Nye reported a somewhat unsatisfactory situation.

Favorable comments on Mr. Hoover's reference to immigration in his Elizabeth speech, were made today by William Green, president of the American Federation of Labor. "Mr. Hoover's statement is in accord with the declared policy of the American Federation of Labor," said Mr. Green.

## A. J. O'Connell, Concrete Breaking Contractor, Dies

Andrew J. O'Connell, concrete breaking contractor, died of heart disease last night at his home, 4506 West Washington boulevard. Mr. O'Connell was 59 years old and was a native of Chicago. He is survived by a widow, one Miss Thelma O'Connell, a sister, Mrs. Joseph G. Murphy, and four brothers, T. Frank, Daniel G., Robert M., and Albert E. O'Connell.

STREET CAR PASSENGER HURT. A man believed to be John Sikorski was injured last evening when a truck was caught between two Clark street cars near West Randolph street. The injured man was a passenger on the front platform of one of the cars.

## C. S. DOUGHERTY, PROSECUTOR, IS FREED IN COURT

Assistant State's Attorney Charles S. Dougherty was discharged yesterday by Municipal Judge Samuel H. Trude in the Grand Crossing court when he was arraigned on a charge of disorderly conduct. Ted Prange, 27 years old, 1302 North Clark street, a Checker cab driver, was also discharged. Both were accused of seeking a fight with a group of Yellow cab drivers at 67th street and Stony Island avenue Saturday night.

Police told the judge that the two were taken into custody for safe keeping and the judge dismissed the charges against the two men. Informed later that it was an assistant state's attorney who had been before him, Judge Trude evinced surprise.

"Why the complaint read Charles Dougherty, alias Douglas," he said. "And the age was given as 21 years. I did not recognize Mr. Dougherty and I'm sure the information on the complaint is incorrect."

## ANOTHER DAY PASSES, BUT NO SALTIS IN SIGHT

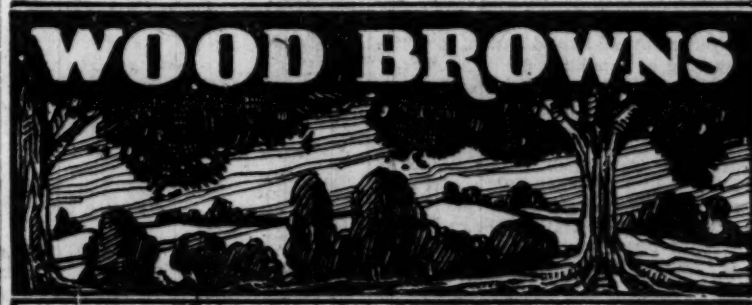

One hundred and forty-one days ago Joe Saltis, south side beer baron, became a fugitive from Chicago police following refusal of the United States Supreme court to review his gun toting conviction in the Chicago municipal courts, and though a capias was issued immediately for his arrest Saltis, who always has boasted of his immunity from punishment, was still a fugitive yesterday.

Thirteen days ago federal detectives also took up the trail, but to date the efforts of Chicago deputy marshals also have proved unsuccessful. The federal capias was issued by Judge James H. Wilkerson after Saltis failed to appear and renew his bonds in an old liquor indictment.

## HOOVER HOLDS BIG MARGIN IN INDIANA POLL

New Straws Fail to  
Change Trend.

Indiana Straw Vote			
	Prev. Year.	Total	Pct.
Candidate—reported, totals, to date, to date.			
Hoover, Rep.	1,015	1,009	58.23
Smith, Dem.	680	1,119	49.06
Thomas, Soc.	30	36	1.47
Totals	1,725	2,164	100.00

BY OSCAR HEWITT.

Returns from the straw vote in more than two dozen cities and villages in Indiana show Herbert Hoover still leading his Democratic opponent by a wide margin. The figures for yesterday are as follows:

Candidate.	Straws.	Pct.
Herbert C. Hoover, Rep.	1,009	58.23
Alfred E. Smith, Dem.	1,119	49.06
Norman M. Thomas, Soc.	36	1.39
Totals	2,164	99.99

These straws were collected all the way from Gary on Lake Michigan to the site of the state university at Bloomington, more than fifty miles south of Indianapolis. Perhaps the figures place Al Smith in a more unfavorable position than the election on Nov. 6 will determine for him, because in the poll to date no samples have been collected in the Democratic territory bordering the Ohio river.

On a percentage basis, Smith showed a gain yesterday over previously reported figures, but it was not sufficient to indicate any change in the trend of political feeling toward the New York governor. There is nothing in the poll to date upon which to place any reasonable hope that Smith will win Indiana, although there are spots where too many straws have been collected in relation to the number garnered in other localities.

Of course it is possible that in later polls a decided change in sentiment may be encountered, but the poll yesterday gave a fairly typical cross section of the state, if the results of previous presidential elections can be taken as a gauge of normalcy. Below are listed the places canvassed and the straws obtained in each for the Republican, Democratic, and Socialist candidates:

City.	Hoover, Smith, Thomas, To.
East Chicago	74 48 1 131
Indiana Harbor	91 48 0 139
Delphi	89 59 0 148
Marion	33 35 12 80
Wabash	41 34 7 82
Marion Mt.	14 28 6 48
Elkhart	149 41 3 193
Kendallville	53 41 1 94
Bloomington	69 32 1 102
Nashville	33 36 0 69
Muncie	17 19 0 36
Monticello	32 14 0 46
Bentonville	3 4 0 7
Frankfort	96 94 0 190
Fort Wayne	128 131 0 259
Lebanon	86 57 9 142
Logansport	139 63 2 204
Ellettsburg	48 23 0 71
Gary	203 140 0 343
Kewanna	22 14 0 36
Monticello	33 18 0 51
Peru	11 94 0 105
Huntington	43 17 1 61
Decatur	58 47 0 105
Waterloo	27 12 0 39
Oxford	57 24 0 81
Zionsville	25 7 0 32
Totals	1,009 1,119 36 2,164

The chief significance of this table lies in its probable explanation of Democratic claims. It is frequently asserted that many Republicans will

## QUIZZES GERARD ON ELECTION FUND FOR FARM CHIEFS

(Chicago Tribune Press Service.) Washington, D. C., Oct. 8.—[Special.]—Investigation of the campaign activities of George N. Peek, Chester C. Davis, Walton Peet, a former secretary of the American Farm Bureau federation, and other McNary-Haugenites who bolted the Republican party to espouse the presidential candidacy of Gov. Al Smith, is to be made by the special house election expenditures committee.

Representatives Lehigh (Rep., N. J.), chairman of the committee, has made a formal demand, it became known today, upon James W. Gerard, treasurer of the Democratic national committee, for a statement.

He desires to know what, if any, funds have been advanced by Gerard to the Smith Independent Agriculture league, with headquarters in the Transportation building in Chicago, the agriculture service headed by Davis and Peet, or the Smith Independent organization, of which Peek is chairman.

"If the above organizations are functioning under the direction of the Democratic national committee," the letter to Gerard concluded, "the committee also requests a statement of respective expenditures."

The financial report filed with the house committee by the Democratic national committee, showing receipts of \$375,420.63 and disbursements aggregating \$333,036.93 during September, lists only five Chicagoans among the hundreds of contributors. Jacob M. Leeb, former member of the Chicago board of education, is credited with a gift of \$5,000. Four others, John O'Rourke, 1731 Carmen avenue; Charles V. McEneaney, 39 South La Salle street; Douglas W. Hutchinson, 2109 West Walnut street, and T. L. Chapman, 329 North Oak Park avenue, contributed \$100 each.

vote for Al Smith because he is a wet. That is indicated by the returns from a number of cities listed above, of which Gary, the steel center, is a good illustration. The poll indicates that Smith will get twice the vote in Gary which Lake county gave Davis four years ago; but at that Smith will get a little more than two votes every time Hoover gets three.

## NASH CHIEF FOR HOOVER, LIGHT WINES AND BEER

(Chicago Tribune Press Service.) PARIS, Oct. 8.—Another Hoover booster reached Paris today when Charles W. Nash, head of the Nash Motors company of Kenosha, arrived to visit the automobile salon.

Saying the automotive industry is quite strong, despite the presidential year which usually means a slump, Mr. Nash gave the Republican administration credit for the prosperity.

Mr. Nash said he would like to see the country express its opinion on prohibition, but he does not think the issue ought to cloud the task of selecting the best President. Mr. Nash favors a later referendum. He believes the saloon is gone forever, but that a change back to light wines and beer would effectively end bootlegging evils.

F. Edson White of Armour & Co., Chicago, also visiting here, said he was sailing for America Oct. 17 to vote for Mr. Hoover.

## REILLY QUILTS RACE IN FAVOR OF LA FOLLETTE

Democrat Says "Young  
Bob" for Al's Program.

(Milwaukee, Wis., Oct. 8.—[Special.]—Reports circulated throughout Wisconsin recently that Robert M. La Follette Jr., nominee for reelection to the United States senate, would stump the middle west in behalf of pro-Smith candidates for congress, were substantiated partly today with the withdrawal of Miles K. Reilly of Fond du Lac, La Follette's Democratic opponent, from the senate race.

While La Follette followers and Democrats alike insist there is no collusion in Mr. Reilly's withdrawal, political wisecracks point to phraseology of the withdrawal letter as evidence that radical support is being solicited.

The letter also gives strength to the rumor that Democrats will throw their strength to La Follette.

La Follette Free to Stump.

This would release La Follette from the necessity of making a campaign in this state and permit him full time for a tour of Minnesota, the Dakotas, and Montana, where the main strength of his late father's presidential vote is expected to be cast in favor of Gov. Al Smith.

In his letter addressed to Otto La Follette, chairman of the Democratic state central committee, Mr. Reilly says:

"I accepted the draft of the Democratic state conference to run as a candidate for the office of United States senator because I believed I could thereby render some service to my party and the principles for which it stands. I now have reached the conclusion that I can best serve my party and the cause of progressive government, state and nation, by withdrawing as candidate for such office."

Senator Robert M. La Follette, the Republican nominee for United States senator, is, I believe, just as much in favor of the legislative program for which Gov. Smith stands as I am, and I also believe he will support the program in the senate.

"In my senatorial campaign I have covered twenty counties in the state to date, having made speeches in about sixty different cities, and I have yet to find a supporter of Senator La Follette who is not also a supporter of Gov. Smith. Leading followers of Senator La Follette recently have launched a statewide campaign in the interest of Gov. Smith's candidacy.

State's Votes May Decline.

"The great issue in his campaign is the old issue of progressive government—I can best serve my party and the cause of progressive government by withdrawing as candidate for such office."

Both Gov. Smith and Senator Robinson are able, courageous, and aggressive.

sive champions of all the political principles upon which the progressive elements of both parties are in accord.

"Wisconsin's electoral votes may be the deciding factor in determining the political principles that will control in Washington during the next four years. It is my judgment the success of the progressive cause in this election should not be jeopardized in Wisconsin by an irritating, useless contest, as regards national issues, between two candidates for United States senator who are in substantial agreement on the issues of the campaign.

"I desire to be free, without any thoughts as regards my own political

fortune, to give all my time and energy to the support and advocacy of the election of Gov. Smith and Senator Robinson."

It is believed here that the entry into the senatorial contest of State Senator W. H. Markham of Horicon, a conservative Republican, will cause young Bob no great worry. Mr. Markham did not file his papers until last Friday to run as an independent, and his late move is considered too great a handicap.

BOY'S DEATH CALLED ACCIDENT.

A coroner's jury yesterday returned a verdict of accidental death in the case of David Johnson, 15 years old, 1415 East 50th street. Evidence showed the boy fell from a roof.

## "Arrest 'Em Politely," South Park Cops Told

President Edward J. Kelly of the South Park board yesterday launched a campaign of courtesy among the park policemen. Arrests should be made with a smile, he told both day and night policemen in two meetings held yesterday afternoon and last night. "If you arrest a motorist, do it politely," he said. "Don't abuse people you have no intention of arresting. You are servants of the public and they are entitled to courteous treatment from you." Any policeman found to be discourteous will be discharged, Mr. Kelly said.

A LOVELY SKIN THAT MAKE-UP CANNOT HARM

If you use powder and rouge make sure you remove it. Specialists urge this oil of palm-and-olive soap method.

BEAUTY experts warn, not against rouge and make-up, but against the way most women are removing them. Powder, dust and rouge enter the skin pores and with the natural oils harden into tiny masses. When left they cause blackheads and blemishes. Now you may employ rare olive oil combined with the finest oil of palm in a true complexion soap—a soap made for one purpose only: to safeguard that schoolgirl complexion. This famous soap is called Palmolive.

To retain natural loveliness—make skin bloom with radiant freshness—do this each morning and night. For two minutes massage Palmolive lather gently into the skin with your two hands. Let it penetrate and cleanse each pore. Then rinse thoroughly, first with warm water, then with cold. Dry by patting with a soft towel.

Get genuine Palmolive, the important thing—10c. Colgate-Palmolive-Peet Co., Chicago, Illinois.

## WITH FRAUD JURY STARTS INQUIRY; BROKER FOREMAN

Witness Tells of Seeing  
Fallot Changed.

(Picture on back page.)

The fifth special grand jury to investigate the alliance between crime and politics under the leadership of Captain J. Loesch was impaneled yesterday afternoon by Chief Justice John J. Sullivan of the Criminal Court. Captain J. Loesch, 2529 W. Chapman & Co. La Salle street, was named as the broker in the alleged fraud case.

Other prominent business men on the new jury, which may be the last called, are Albert C. Koch, 1412 Madison avenue, Evanston, vice president of the Union Trust company, and Charles Hamilton, 9419 Pleasant avenue, real estate broker at 7000 Clyde boulevard, Glencoe, banker, was called for service, but was excused because the new Foreman bank building, now under construction, requires his constant attention.

**Starts Inquiry at Once.**  
The new jury started immediately to delve into charges of numerous frauds committed at the April 19 inquiry in behalf of the Thompson-Galpin America First ticket. Prosecutor Loesch said that the impaneling was to be returned by the new jury may not be as spectacular as the returned by the previous juries, but he considers the ballot thieves' investigation of as much importance as the clean up of the Eller gang and the such side vice and crime syndicates.

"These things strike at the heart of government," he said in a speech before the Junior Association of Commerce.

**Watched Ballot Changed.**  
Assistant Prosecutors Thomas H. Miller and William Haynes will have in charge of the presentation of evidence to the new jury. Nicholas J. Jurek, 544 Milwaukee avenue, who is a watcher appointed by County Judge Jurek, told of short penciling in the 24th precinct of the city-fourth ward. He watched Rose Hecht, a judge of election, under arrest erase the cross between Judge John A. Swanson's name and the name of Attorney Crowe, according to testimony.

Miss Sounya Forthall, 1108 South Maryland avenue, a University of Chicago co-ed, is to be a corroborating witness today of the goings on in this district, the home of Chief Deputy Mayor Paul Rothenberg.

Miss Forthall was served with a subpoena last night by Sheridan A. Stussler, chief jury investigator. Prosecutors Stussler and Haynes said they expect to be able in some instances to trace the vote frauds committed in various wards to the so-called boss of the organization. If they are able to do this, several politicians may find themselves under indictment, it was said.

The task of jury selection in Judge M. O'Connor's court where the

## HURT IN HUNT

MRS. HOWELL HOWARD.  
(Steffens Photo.)

Mrs. Howell Howard, daughter of Mr. and Mrs. Edward Hines of Evanston, was at the Evanston hospital last night recovering from shock sustained when she fell and broke her arm during the Onwentsia hunt a week ago. Mrs. Howard and her husband were riding side by side across the fields when her horse stepped into a chuck hole and stumbled. Mrs. Howard was thrown under her mount's hoofs. Other hunters left the chase while first aid was administered by Dr. B. N. Parmenter. When it was learned that Mrs. Howard's injuries were not grave, the hunt went on while her husband drove her to the hospital.

17 henchmen of Morris Eller, city collector, are on trial, is beginning to lag and the judge indicated that he would take a hand in speeding up the proceedings.

Attorneys Benedict Short and George Guenther, two of the battery representing the Eller's, who are not on trial at this time because they took a change of venue from the judge of their own selection, seem anxious to string out the proceedings. They have excused 109 men peremptorily while the state has used only 57 challenges. Both sides have 170 challenges.

## N. Y. WOMAN SUES THORNE'S ESTATE FOR \$3,000 LOAN

Says She Lent Cash When  
He Lost on Races.

(Picture on back page.)

Miss Pearl Baremore, 25 years old, now living in New York, but formerly of Chicago, yesterday filed in the Probate court a claim for \$3,000 against the estate of George A. Thorne, son of the late co-founder of Montgomery Ward & Co., who died last May at the age of 57 years.

Miss Baremore, whose photographs depict her as beautiful, claims to have been a close acquaintance of the late broker for several years preceding his death. Her claim sets up that she lent him \$3,000 in Havana, Cuba, in 1927 when he became temporarily embarrassed after playing the races. He never repaid this loan, she declares, and she asks for the money from the estate left by Thorne.

**Has No Written Record.**  
The young woman has no written memorandum of the loan, she stated, but the manager of the hotel in Havana witnessed the transfer of her money to Thorne and will testify in her behalf. Thorne left only \$75,000 in his will, it being explained that he created a trust of most of his assets a few years before his death.

Thorne was reported a victim of apoplexy last May while playing golf at the Flossmoor Country club. He died at the Presbyterian hospital, where he was said to have been taken immediately after being stricken on the links.

Miss Baremore, through her attorney, V. E. Adams, told a different story regarding the broker's death, producing a death certificate showing that death was not due to apoplexy but to suppurative mediastinitis with bilateral acute pleuritis a contributory cause. She declared that after being taken ill at the golf course Thorne went to her apartment, where he became worse, and that she sent for an ambulance which took him to the hospital.

**Says Daughter Present.**  
One of Thorne's daughters was called to the apartment and was pres-

ent. Miss Baremore stated, when the dying man declared he wished he could amend his will to take care of Miss Baremore.

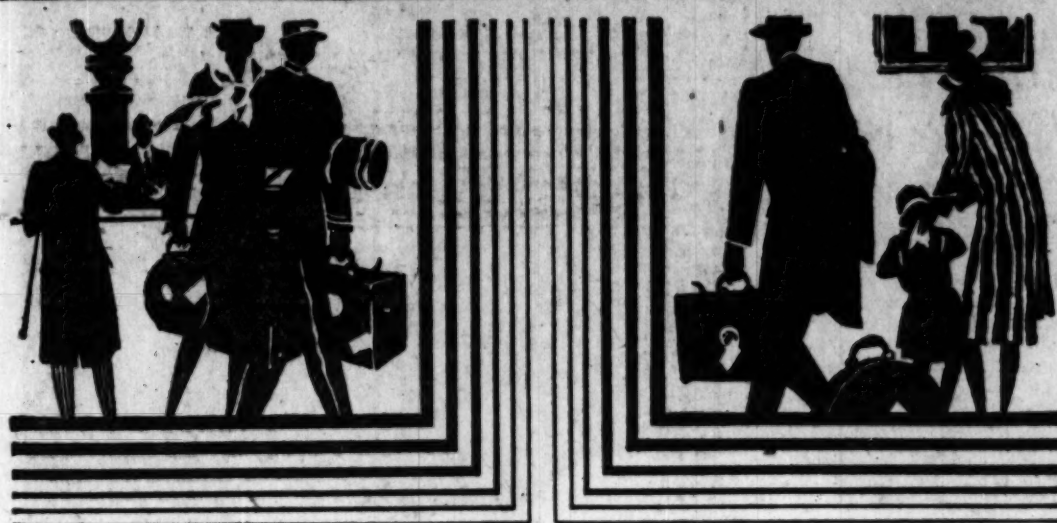

Thorne's will provided that the summer home in Winnetka should be given to the widow, Mrs. Louise E. Thorne, whose winter residence is at 1130 Lake Shore drive. The rest of the estate was placed in trust, one-third of the income to be given to the widow and two-thirds to be shared by six children.

## WOMAN LAWYER SEEKS GENTZEL'S PLACE ON BENCH

Women lawyers of the city are circulating petitions in an effort to have the name of Pearl M. Hart, one of their number, placed on the ballot to fill the unexpired Municipal court term of Judge Robert E. Gentzel, who was elected to the Superior bench last

June. Miss Hart has been in practice in Chicago for the last eleven years, and is known for her interest in civic affairs. Before entering the practice of law she was a school teacher and an adult probation officer for Cook county. The women lawyers sponsoring Miss Hart say that she would serve efficiently and conscientiously.

## ITALY BACKS U. S. STAND ON NAVAL REDUCTION AIDS

### Rejects Anglo-French Scheme to Rule Sea.

(Continued from first page.)

tated the United States, with whom it is desperately anxious to keep on good terms.

Meanwhile Sir Austen is recuperating in California. Sir William is doing his job in Paris. Prime Minister Baldwin is rusticated at Chequers, and the foreign office is left in the hands of minor officials, who haven't the authority, even if they had the experience, to deal with the situation in the drastic manner required.

#### Britons Feel Humiliated.

British opinion is particularly annoyed at the humiliating position the British public is placed in by having to learn the details of the agreement, the most important to the empire in years, first from the United States, and second from the French press, while its own foreign office first tried to deceive it as to the nature of the accord and then stubbornly refused to say anything.

The latest rumor is that Premier Eleutherios Venizelos, the Greek statesman, who has been visiting Paris and London to explain his treaty with Italy, has been asked to act as intermediary and explain to Italy that nothing hostile to that country was meant by the pact, and suggest that it might come into this or some future arrangement.

The rumor even names the terms on which an agreement might be reached, suggesting that France turn over the Syrian mandate to Italy, and if this is done France and Great Britain would try to get Italy to restore the Dodecanese islands to Greece.

#### France Objects to Naval Equality.

(Chicago Tribune Press Service.) PARIS, Oct. 8.—Italy's answer to the Anglo-French naval treaty was received here, and although the text has not yet been published the contents are sufficiently known to give the French press a chance to take issue with Italy on its demand for naval equality with France.

Ferlita, in Echo de Paris, insists equality with Italy means France's inferiority in the Mediterranean, since Italy's forces are concentrated there, and France's are diffused. Thus, in event of war, Italy could prevent France from mobilizing African troops for use on the continent.

#### READY FOR SENATE

(Chicago Tribune Press Service.) Washington, D. C., Oct. 8.—(Special.)—The Kellogg anti-war treaty is ready for submission to the senate and will be forwarded to that body by the President shortly after his annual message.

## Now is the Time to buy PEARLS

Genuine Pearls are steadily increasing in value, and now, just before the holidays, there is bound to be a rapid increase. . . The supply is limited and the demand is increasing. . . We now have a number of exceptional values that are worthy of your immediate inspection.

The place to buy pearls is from Chicago's largest Pearl Importers, who eliminate middleman's profits, which results in a great saving to you. We invite you to see our quality and prices.

## FRENCH JAIL HEARST REPORTER FOR 'LEAK' ON BRITISH NAVY DEAL

(Copyright, 1928, by the New York Times.)

PARIS, Oct. 8.—Harold J. T. Horan of New York, Paris correspondent for the Universal Service and Hearst newspapers, was arrested at 1:30 this afternoon by agents of the secret service. They have been engaged in investigating a diplomatic "leak" leading to the publication on Sept. 20 last, in the Hearst owned newspapers, of the text of the secret memorandum of instructions sent to the French embassy in Washington in connection with the Anglo-French naval accord.

The story appeared in the New York American under Horan's name, and it is the contention of the secret police that the document was stolen from the foreign office. Horan was questioned for many hours. It is understood he insisted the document came to him from a very high official in his organization and that he merely acted as a forwarding agency. An order expelling Horan from France was to have taken effect next Thursday, but through the influence of the Hearst newspapers and other interested agencies, the order is reported to have been withdrawn. The arrest occurred during the lunch hour when the Rue de la Paix was crowded with people and the event attracted wide attention.

#### Hearst Wonders Why.

New York, Oct. 8.—(AP)—William Randolph Hearst tonight said he did not see why the French government should make such a ridiculous fuss over publication of the Anglo-French naval pact unless there was something in the "agreement which they are ashamed of and do not want the people of the United States to know."

sage is read to both houses of congress, Secretary of State Kellogg stated today.

It has been reported that President Coolidge might not submit the treaty until the senate had acted on the pending sixteen ship naval construction bill.

It is considered, unlikely, however, that the Kellogg treaty will be up for action in the senate before the first of the year and it may be still longer delayed. Immediately upon its receipt at the Capitol the treaty will be turned over to the foreign relations committee, of which Senator Borah [Rep., Idaho] is chairman.

Controversy over the question of

whether reservations should be added to the pact to safeguard American interests is certain to develop in the committee. It is possible the treaty may not come up in the senate before the cruiser and aircraft carrier bill is acted upon.

President Coolidge is considered certain to urge passage of the naval bill which provides fifteen 10,000 ton eight inch gun cruisers and one 13,500 ton aircraft carrier.

#### Hungary Accepts Pact.

(Chicago Tribune Press Service.) BUDAPEST, Hungary, Oct. 8.—Smashing under treaty restrictions, Hungary today imparted the sting to its adherence to the Kellogg anti-war pact. In the notification sent to the American minister, Butler Wright, the Hungarian ministry of foreign affairs

said the royal government accepted the pact with the hope that America and other treaty signatories would take immediate steps to wipe out the "injustices" of the treaty of Trianon, which with the treaties of Versailles and St. Germain contains seeds of wars, Hungarians think.

## Stop "radiator smudge" before it begins!

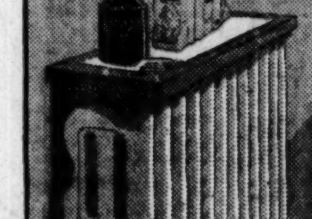

That silent, persistent shadow around your radiators begins the minute heat is turned on. The heated air rising from the uncovered coils lodges particles of dust on walls, ceilings, draperies and curtains . . . and then bakes it there so you can't ever wipe it off.

• That's one reason why women have turned so joyously to Mullins Enclosures. At last they can stop radiator smudge before it begins! Their homes look nicer. They stay clean months longer. Housework is surprisingly easier. And decorating bills are reduced as much as 50%.

But they must be Mullins Enclosures! It is the scientific Mullins design (created by heating engineers) that permanently eliminates radiator smudge!

Beautiful as your furniture Mullins Enclosures do more than eliminate an annoyance—they actually dress up your home. They are things of beauty . . . possessions to be proud of. Made of finest furniture steel for strength, with all the beauty of wood. Mahogany, Walnut and Old Ivory finishes.

And under the hinged top you'll find a humidifier. Fill it occasionally with a pitcher of water . . . it will maintain sufficient humidity in the room to prevent colds, coughs and throat ailments caused by dry, overheated air. Doctors recommend them!

The Mullins Shield assures protection from radiator smudge . . . improves the appearance of the radiator . . . and affords unusual convenience in any room

You can't wipe away "radiator smudge" no matter how you try—it's BAKED IN! But a Mullins Enclosure stops it before it starts

See them Today—Enjoy them Tomorrow

Mullins Enclosures are on display at the stores listed here. See them for yourself. They are made in standard radiator sizes and can be delivered soon after your radiators are measured. No fuss . . . no bother . . .

no delay. And because of the great Mullins plant, with its tremendous volume, prices are low . . . You'll want Enclosures and Shields for every room.

## Can You Suggest a Last Line for this Presidential Rhyme?

NO. 26. CHICAGO TRIBUNE PRESIDENTIAL RHYME-LINES

The issue is easy to see  
It's "wet" or it's "dry" you must be.  
The popular vote  
Will clearly denote

Write Your Rhyme-Line Here

Name of Sender \_\_\_\_\_  
Street Address \_\_\_\_\_ City \_\_\_\_\_ State \_\_\_\_\_

## The Chicago Tribune Will Pay \$5,000,000 IN CASH FOR PRESIDENTIAL RHYME-LINES!

CAN you suggest a last line to the Presidential Rhyme printed above?

Every week-day for 42 consecutive days the Chicago Tribune will print a rhyme about the Presidential election, leaving the last line blank. You are invited to fill in the last line. It must rhyme with the first two lines.

The Chicago Tribune will pay \$5,000.00 in Cash Prizes to the persons who send in the best last lines to these 42 Rhymes.

This offer is open to everyone, everywhere—men, women, boys and girls—except employees of the Chicago Tribune and their families. You pay nothing. Just try your skill. Be clever and original.

Rhyme-Lines are to be submitted only in complete sets. Hold

all Rhymes until you have the full set of 42. Then mail them to "Rhyme-Lines," The Chicago Tribune, Post Office Box 1539, Chicago, Illinois.

All entries must be in by midnight 15 days after the last Presidential Rhyme is printed. Rhymes must be sent by First Class Mail, postage prepaid. Entries with insufficient postage will be returned by the Post Office Department.

You need not purchase the Chicago Tribune to compete. You may write your Rhyme-Lines on a separate sheet of paper. The Chicago Tribune may be examined at any of its Offices or at Public Libraries free of charge.

The judges will be a committee appointed by the Chicago Tribune. Their decision will be final. In case of ties a duplicate award will be paid to each tying contestant.

DRY LAW  
U. S. DRY  
SURGE

Foreign Sc  
Water Po

Boston, Mass., Oct. 8.—Prohibition is ruled the American people of noted foreign the convention of lege of Surgeons today.

"Americans eat carbohydrates, as water with them they are general for lack them up," declared Schlink of Sydney, "Prohibition was state, New South ago by four to on vote and we think the good sense of Schlink continued, by the difference Australians and ye folks look so my vigorous.

Indigestion "Americans as a indigestion because not burned up by of wines and beer trolled drinking, wartime measure that time I have no person in our city. Sir George Syme Australian Collegebourne, Australia, league, declaring, "I always have."

## DRY LAW GIVES U. S. DYSPEPSIA, SURGEONS FIND

Foreign Scientists Say  
Water Poisons Us.

Boston, Mass., Oct. 8.—[Special.]—Prohibition is ruining the health of the American people, in the opinion of noted foreign surgeons attending the convention of the American College of Surgeons which opened here today.

"Americans eat too much fats and carbohydrates, and drink so much water with them that systemic poisons are general for lack of alcohol to burn them up," declared Dr. Herbert Schlink of Sydney, Australia.

"Prohibition was defeated in our state, New South Wales, three weeks ago by four to one on a referendum vote and we think the result proves the good sense of the people," Dr. Schlink continued. "I am impressed by the difference in the looks of Australians and you Americans. Our folks look so much healthier and vigorous."

**Indigestion Is Result.**  
"Americans as a nation suffer from indigestion because body poisons are not burned up by the moderate use of wines and beer. We have controlled drinking, inaugurated as a wartime measure in 1915, and since that time I have never seen a drunken person in our city."

Sir George Syme, president of the Australian College of Surgeons at Melbourne, Australia, agreed with his colleague, declaring:

"I always have noticed the healthy

look of my countrymen after a visit to America. The secret drinking in this country is far worse than moderate open drinking."

**Boston Area Shocks Mabel.**

Now glance at the other side of the question:  
Charges that Charlestown is reeking with liquor have been sent to Boston in a secret communication by Mrs. Mabel Willebrandt, assistant attorney general in charge of prohibition. Mrs. Willebrandt declared that recently she sent her flying squadron of "undercover" agents to Boston and they reported that in a two and one-quarter mile stretch through Maine and Bedford streets they found 130 liquor selling establishments in operation.

Police Commissioner Wilson refuted her statement, declaring that he has made several personal tours of the district and has never found more than a dozen places in operation.

**SALESMAN DIES OF WOUND.**  
Jack King, a salesman, 28 years old, died yesterday of a bullet wound inflicted accidentally in his home at 713 Rush street when a pistol was discharged by his guest, Harold Freese, 607 South Cumberland avenue.

## POISON ALCOHOL KILLS 30 IN N. Y.; HUNT ITS SOURCE

Raid 25 Speakeasies to  
Stop Deadly Flood.

New York, Oct. 8.—[Special.]—With thirty deaths from poison alcohol reported since Saturday night, a squad of forty plain clothes policemen to-night commenced to sweep the lower east side section, where it is believed the liquor which caused most of the deaths was obtained.

By midnight 25 speakeasies had been raided, samples of liquor obtained, and the owners or bartenders placed under arrest. The liquor was sent to the city toxicologist at Bellevue hospital for analysis. Inspector D. I. McAuliffe said that if any poison is found in the booze the proprietor of the place where it was seized will be charged with homicide.

Mayor Walker and Police Commissioner Warren took prompt steps to deal with the situation after the number of deaths from alcoholism, most of them along the water front and the Bowery, had reached the proportions of an epidemic. Dr. Charles Norris, chief medical examiner, announced that ten autopsies had shown that death was due to undiluted wood alcohol.

According to City Toxicologist Dr. Alexander Goettler, the federal government's policy of poisoning commercial alcohol to make it unfit for beverage purposes is responsible for some of the deaths. He further explained that ordinary commercial alcohol is now treated with alcohol, pyridine, benzene, diethylphthalate, nicotine, mercury, aniline, phenols, and nitrobenzene. Removal of these poisons, he suggested, would decrease alcoholic deaths.

## Speakers Ask Women's Vote for Straight G. O. P. Ticket

"Head and tail go with the hide. Let's win this election!"

Unofficially and informally but none the less surely the keynote at the candidates' dinner given by the Woman's Republican club last night at the Hamilton club, Alexander Fyfe, a past president of the latter organization, closed a brief talk with the sentiment that echoed and reechoed in speech after speech.

Harmony in the ranks of the G. O. P. and the necessity for voting the Republican ticket straight on Nov. 6 formed the topic of most of the addresses by state candidates, headed by Louis L. Emmerson, nominee for governor. They were presented to the club by Dr. Irene Behnke, president. More than 200 women attended.

Mrs. Bertha Baur, scheduled as one of the two principal speakers, was enthusiastically applauded when she augmented a rousing talk on the necessity for concerted action with the statement that prosperity is the great talking point for Republican workers in this campaign.

"All you have to talk about," she told them, "is that great issue of prosperity which you have all enjoyed. If we win in this election the men say we will win because of the women's votes. Louis J. Emmerson is the greatest candidate for governor that was ever presented to Illinois. Herbert Hoover is the finest candidate ever offered to the nation. We are going to win, but I want to warn you that it isn't going to be as easy as it looks."

Being obliged to leave early to fill a radio engagement, Emmerson devoted his few minutes to the candidacy of Hoover rather than of himself. "As never before in the history of Illinois," he said, "women are going to be active in the November election. We note that at our early afternoon meetings they amount to about 20 percent of the crowd, and at the evening meetings 50 percent."

"I want to leave this thought with

## KAY WOOD KILLED WHEN HIS AUTO HITS ABUTMENT

Kay Wood, attorney and member of the live stock commission firm of Wood Bros., was killed yesterday morning when his automobile swerved and crashed into a concrete abutment under the Chicago Junction railroad tracks at 47th street.

A verdict of accidental death was returned in the afternoon by a coroner's jury. There were no witnesses to the crash, but it was assumed that a rut in the road caused the accident. At the time Mr. Wood was on his way from his home in Hinsdale to his office in the stockyards.

Mr. Wood was 37 years old and a native of Chicago. He was a graduate of Harvard, the University of Berlin, and the Northwestern university law school. For several years he practiced law and from 1903 to 1908 was attorney for the National Packing company. He became one of the Wood Bros. firm in 1906. A widow and two children survive.

Five other deaths in Cook county during the day increased the toll since Jan. 1 to 722. James Doyle, 52 years old, 6914 Morton street, was fatally injured at Pratt boulevard and Morse avenue when hit by an automobile driven by Adolph Schmidt, 2283 Launt avenue. He died a short time later at St. Francis hospital, Evanston.

Herbert Ratz, 4 years old, 2515 West 23d street, was killed when he was struck in front of his home by a car driven by George Meyer, 2214 West 21st place.

Edward Klundt, 3838 Cottage Grove avenue, died of injuries suffered Thursday when he was struck by an automobile with Jean Frost, 4625 Wallace street, at the steering wheel.

Louis Reid, 24 years old, 6339 Kenwood avenue, who received a skull fracture Sunday in a collision between a street car and an automobile at Cottage Grove avenue and 57th street, died yesterday.

Andrew Marcinowski, 71 years old, 2458 North Troy street, died last night at the Martha Washington hospital of injuries suffered Saturday when he was struck at Elston avenue and Troy street by a truck driven by Irvin Denlinger, 1826 West Grand avenue.

## COLDS MAY DEVELOP INTO PNEUMONIA

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (Adv.)

## STATE ATTACKS APPEAL OF LIFE FOR PINT VICTIM

O. K.'s Habitual Criminal  
Act as Valid.

Lansing, Mich., Oct. 8.—[Special.]—Conviction of Fred Palm, Michigan's "pint of gin life," as an habitual criminal and an imposition on him of the mandatory sentence, provided in the state's new criminal code, does not violate the constitution in any of the three instances advanced by his counsel, according to the state's brief in support of the code provision, filed with the Michigan Supreme court today.

The state's brief was prepared by Wilbur M. Brucker, attorney general; Harold J. Waples and Charles R. Binner, assistant attorneys general, and Bernard Pierce, prosecuting attorney of Ingham county, in whose court Palm pleaded guilty.

An Array of Decisions. In endeavoring to dispose of the points advanced in behalf of Palm, which were, briefly, that the law was broader than its title and actually created a new crime without giving notice in the title of this fact; that it constituted an "ex-post facto law," and that it unwarrantably deprived the judiciary of proper authority, the state's attorneys marshaled an array of decisions and legal pronouncements.

In regard to the inadequacy of the act's title, the state's brief set out that Palm's counsel, in their citations indulged in a fallacious view in holding that the habitual criminal act makes acts criminal which "per se" were innocent, and contained no element of wrong doing.

"It is our position," states the brief, "that said provisions do not create a new offense or make any theretofore innocent a crime, but merely increase and change the penalty to be inflicted for the commission of crimes in certain cases."

Precedents Are Cited. Several precedents then are cited as relied upon by Palm's counsel, and it is stated: "All of the foregoing authorities, cited in appellant's brief, seem to be cases where the acts in question dealt with substantive law rather than procedure. Of course, where a statute creates a new offense, the title should be broad enough to inform one of what the offense generally consists."

Relative to the contention that the act is ex post facto, the brief points out that similar laws have been upheld in innumerable occasions, that a similar act providing for increased punishment for repeated offenders has been on Michigan statute book since 1897, and that the arguments of Palm's attorneys fundamentally are wrong in that they contend that the penalties for past crimes are altered by the new act. Cooley is cited as follows:

Palm's record is reviewed in the brief, indicating that he was convicted of six felonies, only one of which, however, the possession of a pint of gin, antedated the passage of the habitual criminal act.

## TWO JEWEL THEFTS IN NEW YORK REACH A TOTAL OF \$290,000

New York, Oct. 8.—[Special.]—Holdup men observed today as diamond day, and in two robberies they stole diamonds valued at about \$315,000. Four armed and masked men obtained between \$275,000 and \$300,000 in unset diamonds and precious metal from two dealers in the office of one of them on the twelfth floor of a West 46th street building. The second holdup was by two unarmed men. They cornered a Nassau gem merchant in a hallway at Canal street and escaped with more than \$15,000 in stones and platinum pins.

The holdup in the office of the A. S. K. Jewelry Manufacturing company on West 46th street was carried through with time table precision and evident knowledge of the loot. The company is operated by Solomon B. Stein, who early today telephoned to Joseph Goldmuntz and made an appointment to show diamonds in Stein's office at noon.

Goldmuntz brought two wallets crammed with stones—\$100,000 worth in one wallet and the same amount in the other, both covered by insurance placed with a French company.

While the jewels were being examined, four masked holdup men appeared, tied up Stein and Goldmuntz, raked in all the diamonds in sight, drew forth others out of a safe and withdrew with their loot.

Child Strangled by Own  
Clothing in Cab Mishap

Logansport, Ind., Oct. 8.—[Special.]—Catherine, the six months old child of Mr. and Mrs. Lewis Lucas, was strangled to death at the farm home near here today. The baby's clothing caught as it fell from a cab, causing strangulation.

## PRIEST AND HIS FRIEND SLAIN IN PARISH HOUSE

Case Believed Murder  
and Suicide.

Beaumont, Tex., Oct. 8.—[AP]—The Rev. Anthony De Simone, rector of St. Joseph's Catholic church, and John Rossi, statuary and candle dealer, were shot to death here today in the study of the priest's home in what police tonight believed was a case of murder and suicide.

After examining a letter written by Rossi two days ago, police expressed the theory that the man, a Catholic, had contemplated suicide, and then either shot Father de Simone intentionally or in a suicide when the pastor attempted to dissuade him.

Father de Simone died with a bullet wound through his heart and another through his head. He was found slumped against the chair of his desk, one hand clutching a birth certificate which authorities thought might throw some light on the case.

Rossi, with a bullet hole in his right temple, was found on the floor nearby with a pistol under his arm. Three shots had been fired from the weapon. It was learned that Rossi had been carrying a pistol since Saturday.

Mystery Woman in Case. Absence of powder burns on the bodies and reports that two men and a

woman had been seen entering the house shortly before the shots were heard led investigators to weigh the possibility that the men had been slain by a third person, but the finding of Rossi's note strengthened the belief that he had shot the priest and then ended his own life.

The letter, scribbled on cheap paper and unintelligible, in part read:

"Dear friend and all white people [all by myself] prebush what you all don for me in Beaumont. x x x That is faith to find me in this place today. Ben all over U. S. Carry the flag every place I go. Beaumont I fall down for them x x x. Put this in paper two months. My insurance all paid up. John Rossi."

Birth Certificate of 1898.

The birth certificate in the dead priest's hand was issued at the Church of Our Lady, Mount Carmel, N. Y., in 1898, certifying to the birth of Benjamin Ernesto Mario Federico D'Uro, and was signed by the Rev. V. Marino.

At a corner's inquest today the case was left open for further developments.

Chris Eckers, the priest's gardener, and Louis Insirillo, who said he visited the garden to pick some flowers, testified they heard the priest and another man talking loudly in the study before the shots were fired.

Rossi attended mass at St. Anthony's Catholic church before going to the rectory of St. Joseph's church. Several persons who saw him said he appeared to be in good spirits.

The priest and Rossi, who could speak little English, were known to be friendly. Rossi sold candles and statuary to the Catholic churches here.

## Rumor King Zogu Turns Catholic to Wed Princess

VIENNA, Oct. 8.—[AP]—A rumor has reached the Jugo-Slavian capital to the effect that King Zogu I. of Albania had secretly embraced the Roman Catholic religion in anticipation of his possible marriage to a Christian princess. The dispatch added that the conversion ceremony was performed by the papal nuncio to Albania.

We have been preparing for this great event for months. You can depend on the quality of every item offered... all canned goods are THIS YEAR'S PACK. Every department is completely stocked. The MONEY SAVING of this sale should appeal to every purchaser of food.

(Write, phone or wire for  
circular containing moving  
sale items at special prices)

**Don't Miss  
This Sale!**

Today Is a Good Day to Shop  
at This Store

**When Pain  
Comes**

Two hours after eating

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been overstimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless, tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. 25c and 50c a bottle—any drug store. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor, Charles H. Phillips, since 1875.

**TWENTY-FIVE YEARS OF  
GOOD PUBLIC SERVICE**

Quarter century ago the Reliance Life Insurance Company of Pittsburgh was founded. Today, this Company takes pride in a record of growth unsurpassed in the experience of life insurance companies.

Notable among its achievements during this period are the acquisition of four hundred mil-

lion dollars of life insurance in force; assets exceeding fifty-two million dollars and more than one hundred sixty thousand policy-holders the nation over!

Reliance Life, today, rededicates itself to the ideal of good service with gratitude for the public confidence its performance of the past has inspired.

The Perfect Protection Policy, introduced by Reliance Life in 1913, is the accepted criterion of good insurance service, an important influence in the substantial growth of the Company.

## FUGITIVE BLAMED FOR HIGH SCHOOL GIRL'S SUICIDE

Coroner's Jury Returns  
Verdict on Tragedy.

"We are of the opinion that this tragedy was brought about by the selfish motives of Charles Tennis, who is married and mature and who easily dominated the deceased, who was only a school girl in her teens," declared a coroner's jury in a suicide verdict returned yesterday in the death of Dolores Malcher, 16 year old student at Walker High school.

Dolores had known Tennis eight months. Last Wednesday noon on her way from school to her home at 302 Goethe street she learned that Tennis was married. Instead of going on to school she went to the home of her friend, Audrey Helm, at 153 West Schiller street, wrote a note telling Tennis of her love, and killed herself with gas.

Tennis' Record Disclosed.  
Yesterday before the inquest closed the Hudson avenue police read into the record something of Tennis' past history. Born in Minnesota, at the age of 16 he was sentenced to the reformatory at St. Cloud to serve from one to ten years for assault with intent to kill. He had previously served a term in the Red Wing (Minn.) reformatory for burglary. Following his release on the assault charge Tennis went to Canada and became a pugilist. During this period he was known under the name of Charles T. Frye, according to police records.

Tennis first came under police notice here in December, 1923, when four men were arrested as promoters of an alleged "movie star mill" by the operations of which scores of persons were fleeced. Tennis was described as the "bouncer," whose job it was to eject complaining victims from the concern's studio at 742 South Michigan avenue. He was sought, but not arrested.

Escapes in Gun Fight.  
Two years later, Tennis was again sought, this time for passing worthless checks. Sergt. Leo Carr was sent to arrest him at the Hayes hotel, 64th street and University avenue, but he shot his way to freedom. Next day when he fulfilled an appointment to meet a Miss Mary Smith at the Randolph street station of the Illinois Central railroad, he was captured.

On Oct. 1, 1925, he pleaded guilty to assault with a deadly weapon and was sentenced to serve a year in the house of correction. A charge of operating a confidence game was stricken off the record.  
When Dolores' brother, Norman, 20 years old, informed Tennis of her death, he is alleged to have dared Norman to "come out here and start something if you want trouble." Police went to Tennis' apartment at 921 Crescent place but he had fled. The search is being continued, however, the coroner's jury having recommended he be taken in custody and questioned by the state's attorney.

## OLD RESIDENTS TO RE-LIVE DAYS OF CHICAGO FIRE

Tales of the destruction, the perils, and the freaks of the flames that destroyed Chicago fifty-seven years ago will be recalled and retold today as the older generation tears another leaf off the calendar and finds that this is the anniversary of the most momentous date in the city's history. As usual there will be plenty of listeners to the stories that usually begin with the account of the O'Leary cow.

Survivors of the fire will be guests at this afternoon at the annual reception at the Chicago Historical society, where old and new accounts of the adventures of that day and night will be heard. Tea will be served by girls dressed in costumes worn by prominent Chicago women of the period, and many relics of the fire will be placed on exhibit. Charles R. Pike, president of the Historical society, will preside.

## Honolulu Boy Slayer Is Sentenced to Hang

HONOLULU, T. H., Oct. 8.—(AP)—Myles Yutaka Fukunaga, 19 year old kidnaper and slayer of Gill Jamieson, 10, today was sentenced to hang by Judge Alva E. Steadman. Gov. Wallace F. Farrington will fix the date for the execution.

## FIRST MARRIAGE BY TELEVISION, RADIO PLANNED

(Picture on back page.)  
Chicago radio fans may witness the world's first marriage by radio and television if the management of the Chicago Radio show, which opened yesterday, can find a couple willing to be married and a minister to perform the ceremony.

According to the plan, the couple to be married will be stationed in the Coliseum, the minister in the transmitting station of WIBC, while the music will come from the studio of WENR. By means of radio, telephone and television, all will be brought together so that the bride and groom in the Coliseum will be able to hear and see the minister, and hear the music.

## Rockefeller Doctor Dies in Freak Gas Accident

Tarrytown, N. Y., Oct. 8.—Dr. John W. Robertson, who was personal physician to the late John D. Archibald and to William Rockefeller, was found dead today in his office here. Apparently he had been brewing a pot of tea when he suffered a fainting spell and opened the jet of a small gas stove as he fell.

# Pushman's ANNOUNCE THEIR Fall Opening and Exhibition of ORIENTAL RUGS

FOR months we searched the markets of the world, selecting the best creations from the hand looms of the Orient, and have assembled a truly marvelous collection of all the larger size rugs. There are luxurious carpets from Persia, India, Turkey and China—"silky" Kashans, Laveres, Ispahans and Saruks; beautiful, thick Mandarins, Kandahars and Anatolians—each one the result of many years of patient artistry on the part of the skilled natives of the far-off lands.

Do not fail to see these unusual values. We invite you whether you intend to purchase now or not. And if you will make careful comparisons of qualities and prices, you will quickly realize that in spite of Pushman's reputation for handling only the finest Oriental Rugs, prices are never high, considering the character of the merchandise.

## COUNCIL ADVISED TO SCRATCH OFF ALL BOND ISSUES

City Hall Untrustworthy,  
Says Civic Federation.

Charging that "the present city administration has proved itself to be untrustworthy," the Civic Federation of Chicago asked the city council yesterday to put on the November ballot nine of the ten bond issues, totalling \$45,000,000, recommended by Michael J. Faherty.

The statement, signed by Douglas Sutherland, secretary, says the federation sympathizes with property owners unable to collect judgments in connection with uncompleted street improvements and is anxious to see them relieved.

**Casts Doubt on Estimates.**  
"Unfortunately, however, these people, in common with all citizens of Chicago, are the victims of a deplorable condition," the statement declared. "The estimates of the cost of completing these improvements have been frequently shifted and are so uncertain that we regard them as unreliable."

"We believe even if the bonds of the estimated amount were to be authorized, either further demands for funds to complete these same improvements might soon be made or the amount voted might prove to be excessive and subject to waste."

"Moreover, we believe that the present city administration has proved itself to be untrustworthy."

"Accordingly, we are convinced that it would be uneconomical and unsafe to proceed with these projects under existing conditions. We therefore, recommend that no city of Chicago bond issues be submitted to the voters at the present time."

**Faherty Makes Defense.**  
The Civic federation statement, with those of several other groups, was presented at a conference held by Al J. Clark's subcommittee of the council finance committee. Its presentation brought a retort from

## GEMS UNTOUCHED; WOMAN'S BATTERED BODY IS FOUND

Fort Wayne, Ind., Oct. 8.—(AP)—The body of Marion Durbin, 30, her skull crushed, was found today in her apartment here by a maid. Valuable diamond rings on the woman's fingers had not been stolen, but a telephone had been torn from the wall of the apartment and drawers to tables and dressers had been ransacked.

**Admits Slaying Uncle.**  
Attica, Ind., Oct. 8.—(Special.)—Clarence Bruce Briggs, age 34, arrested at Danville, Ill., and brought to the Warren county jail at Williamsport in connection with the murder of his uncle, Victor H. Briggs, wealthy farmer, whose bullet riddled body was found on the front porch of his home last Wednesday, today confessed the killing. Briggs asserts he shot his uncle in self-defense.

Kenneth Ratcliffe, who Briggs said drove him to his uncle's home, is also being held in the Warren county jail.

Mr. Faherty, who defended the Thompson administration.  
"We're going to be here for three more years," he asserted. "Does the

**Do YOU  
know your  
Candy?**

**Mason's  
Black  
Crows  
Candy Drops**

Civic federation want all improvements stopped for the time being. If anybody thinks I'll resign they're mistaken. I won't be chased away." Mr. Faherty added that he would "challenge any one to show that the board of local improvements ever spent a dollar wrongfully."

Two other organizations, the Chicago Association of Commerce and the Chicago Real Estate board, recommended against submission of the bond issues in November, while four groups, the City club, Cook County Real Estate board, Greater South Side and West Town chambers of commerce, favored them. The subcommittee will report the recommendations today at a meeting of the full finance committee.

**Game Bond Issue Opposed.**  
Added opposition to the proposed twenty million dollar bond issue for the establishment of a state-wide system of fishing and hunting preserves appeared yesterday when the Chicago Association of Commerce issued a recommendation to voters to defeat the project at the polls Nov. 6.

The directors of the association say

the proposed game preserves would not be self-supporting, and that a large additional tax burden would be inflicted upon the taxpayers for their operation.

"The act makes no provision for a plan of sites of land purchases, or for any coordination of such sites, but leaves the whole project in an indefinite condition," the statement reads. "The Association of Commerce endorsed the proposed bond issue of \$500,000 for the improvement of the present municipal airport."

**Mrs. E. P. Ripley, Widow  
of Rail Man, Seriously Ill**  
Santa Barbara, Cal., Oct. 8.—(Special.)—Mrs. E. P. Ripley, widow of the late president of the Santa Fe railroad, is seriously ill at her home here. Mrs. Ripley formerly made her home in Chicago.

**PARACHUTE JUMPER KILLED.**  
Champaign, Ill., Oct. 8.—(Special.)—Oscar Culler, 23, died in a local hospital today from injuries suffered Sunday afternoon while attempting a parachute jump at the Champaign airport. Within 500 feet of the ground his parachute collapsed. He crashed to earth.

## LINDSAY ATTACKS RACKETS IN TALK TO NEGRO VOTERS

Judge William J. Lindsay, Democratic candidate for state's attorney, spoke last night at a luncheon of the Smith for President Colored league, women's division, and promised to make a clean sweep of the state's attorney's office if he is elected on Nov. 3.

Judge Lindsay said if elected he intends to drive the policy wheels from the colored belt, together with other forms of racketeering which operate on a 1,000 per cent profit basis.

"But I don't believe in the interference with a friendly game of craps, commonly called African golf," he asserted.

"Prohibition is a matter for federal enforcement. There are other classes of crime that merit the attention of a state's attorney."

*is first in Chicago to present*

## the Magnificent New SONORA MELODON!

*(in combination with the New Sonora All-Electric Radio  
or by its own perfect self)*

**F**OR these magnificent modern instruments unlock strangely beautiful new realms of music—they utter the song, the dance with new clarity and warmer brilliance.

The magnificent Sonora Melodion... the Sonora Melodion with Radio... Sonora Radio alone... Sonora Acoustic Phonographs, offer such splendid advancements... such epochal refinements that Lyon & Healy presents them at the same moment they are being unveiled at the Radio Show!

### *The Glorious Music of the Melodion*

The Sonora Melodion is an almost magical musical instrument which reproduces electrically the sweetness of every instrument, the true timbre of the human voice.

There is no limit to the range... no shading that is slighted. Superb rendition of every nuance, every tone is magnificently achieved.

Picture to yourself the first audition of these instruments held by the Sonora makers. Notables from all the town gathered—names high in the social register—captains of industry—artists and musicians—critics all.

A hush... and then the first notes of the glorious Melodion. A rustle of surprise... a still period of rapt attention... a deep silence as the last notes died away—and the acclaim which greeted a new king.

Sonora radio is a new conception! Sonora built a radio that, first of all, was a musical instrument... Sonora designed first the receiver and then, and then only engineered out of the way those compromises with musical perfection by which radio in the past has been handicapped.

Specifically, Sonora employ their own design long-life tubes of 15 volts. They do not use the low voltage tubes familiar to the public. Through Melodionic reproduction sweetness and musical virtuosity appear in a radio set.

None dare say, in this age of wonders, what the ultimate may be... but it can truthfully be said that Sonora has achieved the superb.

You need only your eyes and ears to see the beauty of the cabinets, to drink in the perfection of Sonora music. But the many new features hidden from the eye... the engineering marvels that filter only pure music to your ears, will tell you for the first time what beauty is hidden in a record—what musical loveliness you can have by air!

True to our reputation for leadership, Lyon & Healy welcomes this opportunity better to serve all music lovers by offering first in Chicago these lovely Sonoras—instruments as beautiful in design as in the glorious quality of their musical reproduction. Come. Come soon to our Radio Section—and hear for yourself what no words can adequately describe.

Model A-44. A Sonora Melodion with Radio. This instrument is designed to sell at a popular price and will quickly establish itself as a favorite. It establishes new standards in performance regardless of price. Contains a "six tube" radio set which actually employs nine tubes. Operates entirely from the electric light socket. Employs the long-life, 15 volt Sonora tubes. Automatic start and stop device for all records without pre-set. Decorated record albums. Cabinet of Hepplewhite design. Combining East India, Satinwood, Australian Walnut and Zebra Wood, ornamented with carving creating a cabinet in extremely good taste.

**SEE Sonora at the Radio Show,**  
in the Coliseum, all this week.  
As no instruments are permitted  
to be played at the show, you are  
invited to hear these new Sonoras  
at Lyon & Healy's, Wabash Ave.  
and Jackson Boulevard

THE WORLD'S GREATEST NEWSPAPER

FOUNDED JUNE 16, 1847

PRINTED AT SECOND CLASS MATTER JUNE 5, 1895, AT THE POSTOFFICE AT CHICAGO, ILL., UNDER ACT OF MARCH 3, 1879.

All copyrighted articles, illustrations, letters and other material appearing in this paper are the property of the Chicago Daily Tribune and are loaned to subscribers for their use only.

TUESDAY, OCTOBER 9, 1928.

## THE TRIBUNE OFFICES.

CHICAGO—TRIBUNE SQUARE.  
NEW YORK—312 FIFTH AVENUE.  
WASHINGTON—315 ALBANY BUILDING.  
BOSTON—718 CHAMBER OF COMMERCE BUILDING.  
ATLANTA—1333 BUREAU BUILDING.  
LONDON—75-76 FLEET STREET, E. C. 4.  
PARIS—1 RUE SCRIBE.  
BERLIN—1 UNTER DEN LINDEN.  
RIGA—ELIZABETHS IELA, 13/3.  
ROME—GALLERIA COLONNA (SCALA A).  
VIENNA—8 ROSENBERGSTRASSE.  
WARSAW—PLAC KRASINSKA 6.  
GIBRALTAR—HOTEL CECIL.  
PERKINS—GRAND HOTEL DES WAGON-LITS.  
SHANGHAI—4 AVENUE EDWARD VII.  
TOKYO—IMPERIAL HOTEL.  
MEXICO CITY—HOTEL REGIA.  
PANAMA—CANAL HOTEL TIVOLI.  
SPECIAL REPRESENTATION.  
SAN FRANCISCO—743 MARKET STREET.  
LOS ANGELES—TIMES BUILDING.  
SEATTLE—WHITE HENRY STUART BUILDING.

## THE TRIBUNE'S PLATFORM FOR CHICAGOLAND

1. Make Chicago the First City in the World.
2. Start the Subway.
3. Electrify the Railroads.
4. Abolish the Smoke Pail.
5. Grade Separation on Through Streets and Boulevards.

## MR. HOOVER ON POWER.

At Elizabethton, Tenn., in the new south which has been revived by power generated from the rivers by private enterprise, Mr. Hoover proclaimed again his opposition to government ownership and operation of water power generators. On this issue he is directly opposed to Gov. Smith, who wants the government to go into the business of producing power. Mr. Hoover said:

"I do not favor any general extension of the federal government into the operation of business in competition with its citizens. . . . At the government can assure the conservation of our governmentally controlled natural resources in the interest of the people. It has demonstrated that by the power of regulation it can prevent abuse; it can and must control natural monopolies in the full public interest. It can do so without abdication of the very principles upon which our nation has been founded and through which we have achieved a standard of living and comfort unparalleled in the world. Violations of public interest by individuals or corporations should be followed by the condemnation and punishment they deserve, but this should not induce us to abandon progressive principles and substitute in their place deadly and destructive doctrines. . . . At Denver Gov. Smith said he favored development of all the nation's water power resources by government. He wanted the government to own the power sites and the generating machinery.

Mr. Hoover spoke in Tennessee where private initiative has been at work with the result that power is cheap and plentiful. Private initiative saw an opportunity and the result has been the renaissance of the southeastern section of the country. Gov. Smith spoke at Denver, on the edge of the west with its vast spaces, its deserts, and its limited population. Private initiative has been less active in building power plants in that region for the reason that there is not now sufficient demand for electricity there, nor is there any likelihood that any use for the potential power will be found for many years to come. Gov. Smith at Denver was asking the people of the west to vote for him because he would pour the taxpayers' money, three-fourths of which comes from east of the mountains, into the west. Mr. Hoover stands firm against the creation of this new pork barrel.

Gov. Smith pretends that the government must own the power plants in order to protect the interest of the consumers. He said governmental regulation of rates is not sufficient. The government must own and run the plants to enable it to specify the price at which power is to be resold to the consumers by the distributing companies. Gov. Smith doubts the ability of state and national commissions to regulate power rates in the public interest, but he appears to have no doubt of the ability of the executive branch of the state and national governments to do the same thing. Mr. Hoover has no such illusions. He knows that an honest executive will appoint honest commissioners and vice versa. If the commissioners betray the public interest it is idle to hope for better results from the executive who placed the commissioners in power.

Every reason Gov. Smith has adduced for government ownership of power plants applies with equal force to the railroads, the telegraph and telephone lines, ships, and coal mines. Mr. Hoover is an individualist. He knows that the American standard of living was not achieved through collectivism but by adherence to the principle of individual initiative. He does not believe in placing the government in business in competition with its citizens. He has said so in unmistakable terms. Those who wish the American people to continue on the road which has made us the most prosperous nation on earth will vote for him.

## AMERICAN DIPLOMATS.

Precedent, at least, requires the holders of foreign diplomatic appointments to give their resignations to an incoming President. He has his own list of high hats who think they have done well in the service of party, generally with their check books, and who crave the distinction of a post abroad. This year some of the gentlemen enjoying the foreign scene are reported to be disturbed by the prospect of voluntarily giving up a life they regard as highly desirable and to be considering means of continuing in the pleasant tenure of office. The argument is their worth to the country as "career men," a sounding phrase dealing with futurity.

With a few distinguished exceptions the American diplomatic record is one of studied worthlessness to the country. The general rule of the men sent abroad is to trade their country's interests for experiences of a pleasant personal nature. Wasn't it Jefferson who would not have a minister abroad where he possibly could make a consular agent do? If he could close a diplomatic office he did so. He did not trust ministers as statesmen and he disliked them as social beings. His theory was perfectly sound. The fewer ambassadors and ministers the better; and the shorter

time they are abroad the more advantage to their country. The service does not contain a career except for legs which will tolerate court dress, an exception being where there is a man such as Dwight Morrow, who will take a field for its usefulness rather than for its court functions.

## THE NULLIFIED AMENDMENT.

The nullification of the fourteenth amendment in congress has given the United States a form of representative government for which the constitution does not provide. It also gives the nation a manner of electing a President for which the constitution does not provide. It is not a question of whether southern states have found legal ways of keeping Negro citizens from voting and thus preserving the white control of government.

It is recognized that some states may have and will have franchise restrictions. A person may be an American citizen and not a qualified voter in an American state. But if such persons are twenty-one years of age, are citizens and cannot qualify as voters they cannot be counted in the population of the state for purposes of representation either in congress or in the electoral college. If they cannot vote because they are unwilling or unable to pay a poll tax, because they cannot read or write or interpret a part of the constitution the state which requires such qualifications for voting is to have the number of these nonvoting citizens deducted from the total on which its representation is based.

The right to impose a qualifying test is recognized but it carries what may be called a penalty. It is not in reality that. It is an adjustment or compensation. The state which has free and unbridled voting rights available to all citizens of legal age is intended to have all its population, exclusive of untaxed Indians, counted as the basis of its representation in congress and in the election of President. A state which disqualifies some of its citizens cancels them out, under the constitution.

There is much passion and prejudice in the issue because the amendment was intended primarily to give the Negro freedmen the franchise and because the attempts of the radical Republicans to coerce the south after the civil war promoted as much bitterness as the war itself. The supporters of suffrage restrictions say that all have been made effective legally. If that is to be conceded it remains that the legal adjustment in representation has not been made and it has not been made because the members of congress do not obey the command of the constitution.

The restrictions are not all in southern states, but there are the conspicuous ones. If the southern states have the election laws they want and find necessary the attainment of their object requires them to give up a certain voting strength in the making of federal laws and in the election of a President. Arthur Hennings in his articles dealing with this subject points out that Hughes and not Wilson would have been elected if the electoral college had been properly constituted. The person who thinks that this nullification of the constitution is a matter of no importance hasn't must regard for the working of his form of government. If it is of so little consequence there is nothing to prevent other holes being shot in it.

The fourteenth amendment has not been repealed. It does not require machinery of enforcement. A little work by the census bureau would give congress the figures and thereupon the adjustment of representation to suffrage laws becomes automatic. All congress need do, and that it is commanded to do, is to pass an apportionment bill complying with the constitution and recognizing the facts.

This question will not quiet itself. It is presented to congress. Submit that amendment for repeal or obey it. If the people no longer want their government organized in that fashion and their laws passed under such a system of representative government they'll vote it out of the constitution. It is not dead wood in the body of organic law, although congress seems so to regard it. It is a most important part of the American system of representative democracy and of the republican form of government.

## GREAT POLO.

Argentina lost the third and deciding game for the polo title, but the South Americans played a game which needed the hardest riding polo to beat. The visitors lost nothing in the way of reputation. The spectators who saw any one of the three of the games saw the best polo in the world and the winning team may claim a title with only the losers as contenders for it. Another year may give Argentina better luck. The United States game has lost its notable old timers but the newer men carried on their tradition. The visitors take back home with them everything they could desire except the title, and they nearly got that.

## Editorial of the Day

## THE FACT AND THE PRESIDENCY.

[South Wales Daily Post, Swansea.]  
Not even America could pledge itself to an unreserved loyalty to the conception of enduring peace enforceable with all the moral and material strength of the nations subscribing to it. A reservation had to be made to preclude the possibility of any European or other power challenging the validity of the Monroe Doctrine.  
This reservation limited the scope of the pact and impaired its efficacy as a preventive of war.  
There is a peculiar irony in the circumstance that it is by no means certain that even in the land of the origin—the America—the pact will secure the necessary ratification of the senate. The late President Wilson fought at Versailles for a treaty that his own countrymen, by an overwhelming majority, subsequently repudiated. This conspicuous failure of a people to endorse the acts of their own official and accredited representatives surprised and shocked the world, to whom the explanation did not seem satisfactory or adequate that Wilson, and his principal supporters, had offended public opinion in claiming for a party the credit that belonged to an entire nation, and that the submission of the treaty to the American senate, on the eve of the presidential election, prejudiced its fate.  
History is capable of repeating itself in the case of the Kellogg pact against war. Various influences, some intentionally mischievous and others accidentally so, have tended to breed suspicion among the senators, who now, as at the end of the war, have to act with one eye on the document and the other on electors about to cast their votes at the polls. Mr. Kellogg himself foresees the danger ahead, and recently took the unusual course of wirelessly a message from midocean repudiating in the most definite terms the statement of Mr. Hoover, his own party's candidate for the presidency, that the pact could be regarded as the achievement of the American Republicans. Should the pact be thrown into the water of the real election, in which the parties are already engaged, for the polling takes place in November, anything might happen to it.

## How to Keep Well

To the limit of space questions pertaining to hygiene and prevention of disease will be answered in this column. Personal replies will be made to inquiries, under proper limitations, when return stamped envelope is enclosed. Dr. Lyons will not make diagnosis or prescribe for individual diseases.

(Copyright, 1928, By the Chicago Tribune.)

## CURING LEUCOPLAKIA.

D. R. HERMAN PRINZ says that leucoplakia can be prevented, and in most cases it can be cured without operation.

Before we get in deeper it is just as well to say that leucoplakia is a patch of white surface which develops in the inside of the mouth. It may become brown, or any other shade, as the result of tobacco stain. It is especially important because it so frequently lays a foundation for cancer. The favorite locations for leucoplakia, stiff, discolored patches are the inside of the cheeks near the mouth, or opposite the jaw teeth and the top of the tongue.

The disorder is very likely to develop in tobacco chewers, and when it does it appears near the place where the "chaw" is commonly held. In smokers it is likely to appear close to where the pipe stem touches or the cigar is held. If it is the result of irritation from jagged teeth or sharp bridge work, it is likely to appear on the inside of the rough teeth, or near where the plate rubs.

Dr. Prinz tells us that preceding the development of the leucoplakia patch there is a time in which the soon-to-be-affected part burns, or becomes discolored. This may be the meaning of some cases of that mysterious disorder, geographical tongue, or of some cases of burning and dryness of the mouth. The preventive measures are: discontinuance of the use of tobacco; having the teeth cleaned, smoothed and polished; grinding away all angles that irritate; removing any irritating bridge work; oral hygiene. The earlier this is done, the better. He recommends the use of the following mouth wash: a scant teaspoonful salt, a scant quarter teaspoonful potassium permanganate, a teaspoonful hydrogen peroxide dissolved fresh in a large glass of hot water.

He is strongly against the practice of scraping the tongue with a knife or metal scraper as a cleansing procedure, though he can see no harm in brushing that organ with a tooth brush. Above all, he insists on the discontinuance of all tobacco.

As a rule he is violently opposed to any kind of caustic or any other local application. The preventive methods detailed above will cure many cases.

## LIVING IN BASEMENT.

E. C. writes: Is living in a basement flat bad for the health? I live in one, and since we have been having so much rain I am afraid it is a little damp. When I enter a room I can detect a certain odor which I think is dampness. Is there anything to be done about dampness? I try to keep the windows open and air the bed clothes. There is an ordinary wool rug on the floor. I cleaned it off three times and it does not seem to be more sanitary. Would that get damp? There is a certain coldness about the bed clothes, too. Could you give me some advice on this matter?

REPLY.  
Basement living seems to get enough sunlight. They are objectionable from that standpoint.  
They are very likely to be damp, particularly when the heat is not on.  
The consensus of opinion is that living in a damp room is bad for the health.  
I cannot see where you would draw from an old cloth on the floor.

STATISTICAL LYMATICUS.  
R. H. writes: What is the cause of an ailment called lymaticus and what is the remedy?

REPLY.  
The rule is that the lymaticus is due to the persistence of the lymphatic gland. This gland is located behind the upper part of the breast bone. It is large in early childhood and decreases rapidly. Your physician will consider the advisability of treating this person with X-rays.

## FRIEND OF THE PEOPLE

Letters to this department must be signed with names and addresses of writers.

## DOMESTIC RELATIONS.

Chicago, Oct. 2.—[Legal Friend of the People.]—A daughter, aged eighteen, works and keeps her salary.

1. Is her father responsible for debts she may contract, using his name without his consent?  
2. Husband and wife live together. His credit is good and he allows her to get clothes, groceries, furniture, etc., on his name. But she cashes his checks and doesn't pay the bills and he is served with notice of nonpayment. Is there a remedy for this?  
3. Could he stop her credit by putting a notice in the paper?  
J. B.

1. Not unless he has had her out as having authority to bind him in such matters.  
2. If she is incurring unreasonable bills he might bring some pressure to bear on her by appealing to the Court of Domestic Relations in Chicago, but if the bills are for reasonable family expenses which the husband would have to pay anyway, then we can suggest no legal remedy.  
3. Such a notice might cut off her possible right to bind him as her agent but would not cut off her power to bind him for family expenses.  
M. T. M.

## TRIBUTE LAW DEPARTMENT.

## DOCKED FOR ABSENCE.

Chicago, Sept. 25.—[Legal Friend of the People.]—Under the law can an employer deduct \$2.50 from an employee's wages for not informing the company by phone or wire before 5 o'clock that he would not be present for that day?  
M. T. M.

If there was no agreement on this point, they could deduct a reasonable sum to cover the damages actually sustained. If the employer accepted the deduction knowing that this was one of the terms, then the \$2.50 figure would control.  
M. T. M.

## TRIBUTE LAW DEPARTMENT.

## IN CASE OF DEFAULT.

Chicago, Sept. 25.—[Legal Friend of the People.]—If one buys a home on contract with monthly payments down and so much per month how long can one hold after making payments for a year? 2. Can one's pay be garnished for payment? 3. Furniture? 4. Could garage be removed?  
M. T. M.

1. If the buyer has merely a contract then the seller could forfeit it for default without allowing the former month redemption period which is allowed in case of foreclosure of a mortgage.  
2. Yes, by appropriate court proceedings.  
3. Same.  
4. If you have built a garage that is so attached to the land as to be part of the real estate, then you are not entitled to remove it unless the owner is agreed.  
M. T. M.

## TRIBUTE LAW DEPARTMENT.

## A LINE O' TYPE OR TWO

How to the Line, let the quips fall where they may.

## WISDOM.

I tasted love and found it  
A very yeasty bread,  
Small comfort for the stomach,  
Much fever for the head.

I gathered wealth and thought it  
A harvest full of grief,  
I moldered in the winnow  
And shivered in the sheaf.

I nibbled fame and called it  
A far too bitter plum,  
So now I sit in corners  
Contented with my thumb.

JESSICA NELSON NORTH.

GALS, LISTEN: These snooty clerks in the registration booths today are going to trick you into telling your age if you don't outsmart 'em. Anton Czarnecki says you don't have to tell 'em, and Anton is the Exalted Grand Comp Pam of the election commissioner. If you go and blab your exact age to the registration clerks it's your own fault. Tell 'em to button their nose.

## Oh, Golf and Tennis and Polo.

R. H. L.: Just jumped this ad in Sunday's Tans. It says: "Man wants job. Hard worker; run freight elevator, wash windows, mop floors, help in factory. \$50 per month." But what the fellow is he going to do in his spare time? MISSOURI.

PETE AND BILL wired us yesterday as follows, to wit—namely: "How can secure tickets Navy-Note game? Navy-Note game? Oh, gosh, boys, you scared us to death. We thought you were going to ask us how you were going to get tickets for Al's speech. That would be a thousand times harder than getting tickets for the Navy-Note game, wouldn't it, Mr. O'Brien?"

## My Most Embarrassing Moment.

Dick: Oh, I was so surprised, and—well, it was just awful! It was last Saturday afternoon. I am a Republican and the women that pay the bills in our house is an old Al Smith. We were listening in at the radio and I was giving three cheers and a tiger every time Mr. Hoover told what wonderful things the Republican party had done. He said: "The south possesses vast resources of raw materials [Hoover for the Republicans!] and electric power [Hoover-ry!], easy access to the sea [Hoover-ry-ry-ry!], a great reserve of labor [Hoover-ry!], a wealth of soil [the Republicans did it!] and a moderate climate." (Oh, say, can you see—?) Oh, I was just chattering for the Republicans like I was crazy when Mr. Hoover went on and said: "Most of these factors have been here always." Honest, you could have knocked me down with a feather. Dearly, I could die! I was never so embarrassed in my life. RED DIAMOND.

MABEL FIREBRAND came up for air yesterday and spoke down at Hardsburg, Ky. She said Al was hiding behind his church. "Come out from there, you little rascal," said Mabel. "I know you're there. I see your brown Derby hat."

## Hey, Cannibals! What About Dry Agents?

[From The Trib via D. M.]

## FIND CANNIBALS ATE SQUAD OF TAX COLLECTORS

AN IMPORTANT ITEM IN THE TRIB yesterday from Quincy, commonwealth of Illinois, allowed as they were much more gathered in that section this fall than ever before. And further—more—mark you well—FURTHERMORE, "There are more nuts this year than ever before." True, true! And, too, they're running around and making more noise this year than ever before.

## Don't Work That Off On Us.

Oh, R. H. L.: When I went to Sunday school yesterday, you know I was thinking all the time of Dr. Work, the chairman of the Republican national committee, and how busy he is. Oh, a cat on a tin roof hasn't got anything at all on Dr. Work. And when we sang "Work, for the Night is Coming," I sang a little version of my own deed to good Dr. Work, you want to hear it? It goes this way: "Work, for the night is coming! It is coming next November sixth, when the night is coming, when Work—works no more."

ANGELINA THE VILLAGE PEER.

THE VOTES IN OUR HAY-STRAW-CORN ballot for President POURED in on us so fast yesterday that we were UNABLE to assemble them in such a way as to make an ACCURATE PREDICTION yesterday as to who will be ELECTED Nov. 6. From a ROUGH estimate we would say that EITHER Al or Mr. Hoover will carry ILLINOIS, but we are yet unable to DETERMINE as to what the WINNER'S majority will be. COL. STAGN SHRDLU will carry Iowa, according to the COIN we have received ALREADY from that great STATE. However, we were UNABLE to count it, as the BOTTLE broke and LEAKED all over our DESK.

## She's Repeating, Hank, Throw Her Out.

Dick: I'm Johnny-on-the-spot when it comes to voting HAY, Work, or again HAY. Does this make it three points for Mr. Hoover? AMY H.

## Here, Hank, Ring Up 2365 for Al

Dick: I am sending to you in this box the beloved straw hat I wore all summer. I know you are taking every occasion to have a fan, a hat, Straw, and Corn vote, so I counted the straws in the hat, 2,365. You might run over it again because I may have overlooked a few. Please cast them all for Al.  
IDA CLARK.

O. PARSON VAN NOSTRAND: Parson Van Nostrand: Your voice really needs a cork; You whispered in Indiana, And they heard you in New York.

## Oh, to Be in Michigan Now That Autumn's Here.

R. H. L.: Your reference the other day to witch burning in Michigan was rather timely. We are planning a witch burning in front of the Carnegie Library here in South Haven, Mich., for the annual autumn home coming week and have obtained three very fine witches, guaranteed to squirm beautifully when hot. I am, therefore, on behalf of the various local organizations, extending to you an invitation to visit us and witness this quaint custom.  
SOUTH HAVEN DAVE.

IF THEY could only fix a mechanical Robot to our loud speaker so that it could shake hands with us and hand us a nickel cigar after each speech, it would seem more like old times.

## All Aboard! Here Comes a Bruiser.

R. H. L.: Call 'em buses or busses—call 'em what you will—but ride the Ravenswood vehicle on Wilson avenue and you'll call 'em busses. Let's go for a bus ride now!  
SPECTACLED MART.

WE'VE GOT to do it. Old Art Brisbane overlooked the item to the effect that the big German Zeppelin that is going to fly to the U. S. is using five tons of water ballast. Notice, as Art would say, that the ship is flying from Germany, and yet it is not using five tons of beer for ballast. Not five tons of champagne, or whisky, or gin, or rum. No! The airship is using five tons of WATER. And if water is good for a GERMAN ZEPPELIN, it is plenty good for an American MAN!  
M. T. M.

ETOV ot snaw moy fi cnahc tsal.  
R. H. L.

## NAILING DOWN THE LID ON OUR TREASURE CHEST

## FROM THE TRIBUNE'S COLUMNS

## 65 YEARS AGO TODAY

OCTOBER 9, 1863.

LEAVENWORTH.—The rebels are moving on Fort Scott in force. A messenger has just arrived from Baxter's Spring saying all the staff and bodyguards of Gen. Blunt have been captured. It is not certain that the general has escaped. Every available man is leaving or has left this place to help in the defense. The rebels, under Quantrell, number 1,400.

ST. LOUIS.—Further news of the invasion of the southwest by Shelby's gang represents them making for Osceola and Warsaw in two parties. Our cavalry is already in pursuit and a gang of guerrillas has been intercepted with wagons of loot.

CHARLESTON.—An attack was made by us today on the frigate Ironsides, damaging it and alarming the fleet. Two of our men are missing.

NEW YORK.—The executive committee appointed by the national convention in Chicago in June adopted a memorial to the President and congress setting forth the necessity and practicability of opening navigation between the Mississippi river, the great lakes, and the Atlantic ocean.

## 30 YEARS AGO TODAY.

OCTOBER 9, 1898.

CHICAGO.—Reports collected by THE TRIBUNE from various towns and cities, both within and without the 250 mile circle established by the passenger association for the low rate limit, indicate that there will be a tremendous gathering of people at the Chicago peace jubilee, Oct. 18 to 21. The idea has struck a popular chord.

BERLIN.—According to the final arrangements for the German imperial visit to the Holy Land, their majesties will leave Potsdam on Oct. 12 and will embark at Venice on Oct. 13. No more picturesque event has occurred within recent years than the Emperor William's pilgrimage to the Holy Land. He is going in all the pomp and splendor that marked the royal cruises of early England.

CHICAGO.—The most elaborate scheme for furnishing the people of Great Britain with American dressed meat that has ever been attempted has just been inaugurated by Armour & Co. in the form of a daily service of dressed beef shipments from New York to London.

WASHINGTON, D. C.—President McKinley left for Canton, where he will be met by a special train containing the cabinet officers, en route to the Omaha exposition.

## 10 YEARS AGO TODAY

OCTOBER 9, 1918.

WASHINGTON, D. C.—No armistice until Germany and Austria evacuate Belgium, France, and all other invaded territory. No peace discussion until the central powers accept the terms pronounced by President Wilson, and then only upon the details of their application. No compromise with the Prussian military autocracy. The foregoing is the attitude of the United States and its allies toward the Teutonic plea for peace, as indicated by President Wilson in a note dispatched today to Prince Maximilian, the imperial German chancellor. The note of President Wilson is partly a direct and conclusive reply and partly a request for further information concerning the meaning and authority of the German appeal for a cessation of hostilities. Among the diplomats here the President's communication is regarded as one of his master strokes.

## WITH THE AMERICAN ARMY.

In cold torrential rains, varied by heavy hail, the Americans today kept up the fight to wrest from the Germans that part of the Argonne forest remaining in the latter's hands. The severest fight of the day was for the possession of Hill 223, lying westward of Chatel Cherey, which was captured. More than 1,000 German dead were left on this position. Further south the Americans made good progress against bitter resistance towards the Lancelon-Chatel Cherey road, and to the northwest occupied Fleville.

LONDON.—British, American, and French troops delivered a grand assault over a front of more than twenty miles between Cambrai and St. Quentin. An advance of about three miles was made on the entire front and tonight the battle, one of the greatest of the war, is still raging.

## VOICE OF THE PEOPLE

Writers should confine themselves to 200 or 300 words. Give full name and address. No manuscripts can be returned. Address Voice of the People, The Tribune.

## THE NEGRO IN THE CAMPAIGN.

Chicago, Oct. 8.—Colored Republican leaders in the north regret that your Mr. Arthur Sears Henning felt compelled to use the presumptuous manner he did in his recent description of the activities of the Republican national committee in the south. Mr. Henning wrote that it is the intention of the Republican national committee to establish a white Republican party in the south and to give the Negro his hat. He endeavored to indicate that this program, which from his description has for its end the complete obliteration of the Negro from politics in the south, had the sanction of Herbert Hoover.

There are those of us in the north who understand something of the Republican party program in the south and we are not disposed to believe that it comprehends a closed door politically to the Negro in the south. Rather, we welcome the signs of a two party movement in the south, which under one party rule has become the most backward section of the nation. All of the ill-disfranchisement, peonage, lynching, and the various forms of Jim Crow—that the Negro suffers from in the south have been imposed upon him under this one party rule, a Democratic rule. Subsequent to the civil war, when there was some semblance of two party rule, the Negro enjoyed the franchise. We believe that the reestablishment of two party rule will result in a greater extension of the franchise to the Negro.

It is unfortunate that a new Republican party in the south should be described as a white Republican party. It will be neither black nor white, but both. Rich northerners have in recent years made extensive investments in many southern states and they have followed their investments by settling in the section. They are good, substantial citizens, most of them Republicans, who intend to play their political part as citizens. They are not willing to follow the rotten leadership which the Republican party has had in the south, whether it has been black or white. They want to build up a Republican party in the south which can serve as a check on the Democratic party in the south. They will be able to get nowhere unless they use the Negro vote in the south. They shall do so in inevitable. Thus the Negro stands to gain against his ancient enemy, the Democratic party, by the rehabilitation of the Republican party.

P. L. PRATTIE.

## PROHIBITION AS AN ISSUE.

Whiting, Ind., Oct. 4.—I am certainly surprised to see in your editorial today that Gov. Smith said prohibition is not an issue in this campaign. He did not say that. I heard him say prohibition is not the MAIN issue.

For a Republican paper you have been fair enough up to the present. Don't go and spoil it now.  
PAUL A. ANDERSON.

## THE MIDDLE OF THE ROAD.

Oak Park, Ill., Oct. 2.—Just a few words of commendation and congratulation on your excellent editorial in this morning's TRIBUNE on "Smith and the stadium." Every word is true, in the point, and straight from the shoulder. Surely something must be done; conditions are becoming more and more alarming. Let's find the middle of the road and return to sanity in this sad, sad, sad world.  
H. C. GARTNER.

## THE SOLID SOUTH.

Chicago, Oct. 6.—The head line of your paper this morning says "Hoover is leading the Solid South." Evidently your news editor does not know there are only ten states in the solid south and that Tennessee is not one of them.  
CARL ADAMS.

They are especially suitable for Draperies, Slip Covers for Furniture, Pillows and many other household accessories. Priced favorably from \$4.75 to \$7.75 a yard, 50 inches wide.

Ninth Floor, Middle, Wabash

## MOTHER KILLS SELF AND THREE CHILDREN BY GAS

Blame Temporary Insanity  
for Woman's Act.

(Pictures on back page.)

Temporary insanity led Mrs. Cecile Ryker, 30 years old, to turn on the gas in the kitchen of her home at 3135 Maple avenue, Berwyn, early yesterday and take the lives of herself and her three small daughters. Chief of Police Charles Levy declared following an inquiry.

Mrs. Ryker was the wife of Clyde Ryker, collection chief in the Chicago office of the Illinois Bell Telephone company, and information obtained by Chief Levy showed the couple lived a happy life.

Neighbor Finds Bodies.

At 7:30 o'clock yesterday Ryker kissed his wife and the little girls, Jean, 8, Phyllis, 6, and Helen, 5, and hurried away to work.

Two hours later Mrs. C. R. Carlson, a next door neighbor, noticed the shades of the Ryker kitchen were drawn and suspected that something was wrong, as she had not seen the two elder Ryker children leave for school. She opened the kitchen door and was met by a flood of gas from seven jets of the kitchen stove.

Resuscitation Fails.

Police and firemen with pulmotors were summoned. The mother and the little girls were found lying upon the floor, spread upon the kitchen floor. Wet towels were stuffed in the cracks of the doors and windows. Bowls of oatmeal, scarcely touched, were at the children's places at the table.

Firemen worked over the bodies with pulmotors for two hours in an attempt at resuscitation.

"I can't understand it," Ryker said. "Cecile had no troubles of any kind to my knowledge. We never had a serious quarrel. She seemed so happy when I left this morning."

## JANITOR BURNS SELF TO DEATH IN HIS FURNACE

Crawls In, Shuts Door  
and Starts Fire.

Elkhart, Ill., Oct. 8.—(Special.)—A janitor's life today decided Neal Lambert, janitor of the Elkhart grade school, killed himself.

The decision was based on a rambling note which Lambert left for his widow. Relatives said he had been ill for some time and frequently was "not himself."

Prepared His Death.

Except for the note, Lambert had prepared death in such a way as to make suicide seem impossible. His body was found, burned almost to a cinder, in the furnace of the school building.

The plan of Lambert to make it appear a murder was an elaborate one. The janitor had gone to the school building early today. First he

broke a window in the basement and pried open a basement door. Apparently cutting himself, he put blood and hairs on a crow bar to make it look as if he had been attacked.

Then apparently he placed material for a hot fire in the furnace, crawled in, and slammed the door, which locked automatically. He ignited the fire. When searchers found the body, it was lying face downward in a raging fire. So tightly was it wedged into the firebox that the furnace had to be partly dismantled before it could be removed.

Find Note in Lambert Home. Authorities believed the man had been murdered until later in the morning when the following note was found in his home:

"Dear (referring to Peter Stumpf who operates Lambert's blacksmith shop), pay to my wife (believed to mean rent) telling tales to men caused my downfall. Mom, I am through to you. Don't work on Sundays. Remember that I have been true to you."

Despite the suicide verdict, county authorities are investigating every phase of the death to discover if another crime may have caused Lambert's death.

Every mother wants these for her baby!

sound, uncrowded teeth  
a finely-shaped head  
a well-developed chest  
straight legs

These things mean much to the health and appearance of your child all through life!

To ensure these, physicians are telling mothers that their babies must have special protection. Even though your baby is breast-fed, even though he is plump and rosy; still he needs protection against the ever threatening danger of poor bones and teeth.

There are two common sources of the essential protective factor (Vitamin D). Sunshine and good cod-liver oil! But, because of clothing, clouds, fog and smoke, it is almost impossible to get enough sunshine on your baby's bare body. Even ordinary window glass filters out the protecting rays.

Physicians say that the one dependable protection is to give your baby Bottled Sunshine—good cod-liver oil—regularly every day. And thousands of them say, "Give Squibb's Cod-Liver Oil."

They prefer Squibb's because it is very rich in two essential vitamins—Vitamin D, the "sunshine vitamin" which helps to build good bones and teeth, and Vitamin A which promotes growth and increases resistance to infections.

Your physician knows how much Squibb's Cod-Liver Oil will help in correct formation of your baby's bones and teeth. For your protection, insist on Squibb's, the vitamin-tested, vitamin-protected oil. Plain and Mint-flavored.

## SUPREME COURT DENIES HICKMAN IN LAST APPEAL

Washington, D. C., Oct. 8.—(AP)—William Edward Hickman of Los Angeles, Cal., under sentence of death on Oct. 19 for the murder of Marion Parker, a 12 year old school girl, was today denied an appeal to the Supreme court by Justice Sutherland.

Slayer Appears Indifferent.

San Quentin, Cal., Oct. 8.—(U.P.)—Preparations for the execution of William Edward Hickman, slayer of Marion Parker, are proceeding on the theory that the youth will go to the gallows Oct. 19, Warden James Holohan said today when informed that the United States Supreme court had declined to review the case.

The warden said he did not know when Hickman would be informed of the court decision. The young slayer appeared unperturbed as the date of his death approached, the warden said.

## LIMITS ALIMONY TO WIFE; COURT MAKES IT 50-50

Los Angeles, Cal., Oct. 8.—(AP)—Although Emil W. Kruschke, as a director of motion pictures under the name of William Nigh, makes \$1,500 a week, his expenditures on himself were limited to \$75 a week by an order of the Superior court today.

The action was taken at the alimony hearing in connection with Mrs. Citta Kruschke's suit for separate maintenance. Kruschke declared on the witness stand that when he and his wife separated last May they entered into a property settlement by which he was to pay her \$75 a week alimony. So he said he would pay her that and no more.

Whereupon the court ruled that Mrs. Kruschke's alimony would be that amount, but that the director should limit his own expenditures to the same sum.

## Keep Skin Young, Coloring Beautiful

To insure a perfect skin and beautiful complexion, start now to use pure Mercolized Wax. Obtainable at any drug store, it is applied nightly to the face like a cream. In just a few days the skin is gently absorbed with such defects as freckles, blackheads, tan and pimples. The under skin when unveiled is clear, transparent and fairly radiant with fine, natural color. Mercolized Wax brings out the hidden beauty. To remove wrinkles and restore the color of youth, use as an astringent, 1 ounce powder, Sachette and 1 half pint witch hazel.

# 17 FELONS BURN TO DEATH IN OHIO PRISON PLANT

Locked Exits Hold Them Inside Blazing Walls.

JACKSON, O., Oct. 8.—(AP)—When men toiled to bring out the bodies of the victims, two of the cause of the fire which is believed to have caused the death of 17 felons when it destroyed the wooden dormitory at the state prison here early today. Locked exits barred the convicts' way to safety after the fire was discovered.

State Welfare Director John E. Warden launched an investigation immediately upon his arrival on the scene from Columbus and Gov. Donahoe ordered C. H. Sisson, his personal investigator, to the brick plant late today. Warden P. E. Thomas of the state penitentiary telephoned from Jackson City that he was returning at once to investigate the fire.

## Twenty Prisoners Missing.

Twenty prisoners were said by prison officials to be missing. Twenty others seriously burned or injured were taken to the penitentiary hospital at Columbus. Three of the twenty missing may have escaped, officials said.

The fire started in the commissary room where linen supplies were stored and is believed to have been caused by defective electric wiring. The work of removing the bodies from the ruins of the dormitory was begun late today. Most of the bodies were so badly burned that any attempt at identification was futile. Eleven bodies had been recovered tonight.

## Trampled in Panic.

The stories of guards and convicts told that in all probability many of those who were killed were trampled by their terrified fellow prisoners in the mad rush for the exits. The dormitory, a barnlike structure of frame and corrugated iron erected upon a 40 foot brick foundation, housed 275 prisoners, living in two tiers of bunks arranged in narrow aisles between.

The fire was discovered at midnight by two prisoners. The alarm was sounded, and as it echoed through the building the flames from the commissary began to spread through the sleeping room. Panic ensued in the dormitory. Many of the prisoners were awake at the time and all started for the nearest exit, only to find them, in most instances, barred and locked.

## Fire Hydrant Fails to Work.

The fire spread swiftly and leaped from bunk to bunk across the narrow aisle, while the prisoners cursed and screamed as they struggled toward exits and windows. Guard Val Brock opened a door to let the men out and then ran outside to a fire hydrant only to find it would not work.

At the first alarm, two men entered and quartered in the bakery at the opposite end of the building. In the commissary heard it and rushed to the partition that separated the kitchen and bakery from the dormitory. The door here was locked, but after several minutes they managed to break it down, admitting another exit for the trapped men.

While this was being done more than a hundred men gathered about the door frantically demanding to be released and the floor was believed to have started to give way then. Then Capt. D. H. Howell of the guard, arrived. All of the exits were opened and the men struggled through the narrow openings. Guards and prisoners alike said they believed several were trampled to death in the frenzied stampede.

Those who reached the open air and tried to look through windows into the flaming interior told of seeing their bodies wreathed in flames, falling to and fro, and of seeing men disappear in flame and smoke as the floor fell and the roof crashed in.

## Ex-Kaiser May Visit Africa if Allies Do Not Object

LONDON, Oct. 8.—(AP)—The Daily Mail tomorrow in a Johannesburg, South Africa, dispatch will quote the legal representative of former Kaiser Wilhelm of Germany as saying that the exile will visit southwest Africa for his health unless the allied powers raise objections to it. The lawyer recently succeeded in obtaining restoration of confiscated properties of the former emperor in what was German Southwest Africa.

## DEMOCRATS SAY EMMERSON CAN'T LEGALLY SERVE

Lawyers Cite Constitution  
on Eligibility.

A Democratic coup aimed at the candidacy of Louis L. Emmerson, the Republican nominee for governor, was undertaken yesterday.

Issued by a group of Chicago attorneys, members of the Lawyers' Floyd E. Thompson for Governor club, copies of legal briefs questioning the eligibility of Mr. Emmerson to take office in the event of his election, were mailed to every attorney and to many other voters in Illinois from Democratic headquarters.

The contention that Mr. Emmerson is unqualified to serve as governor hinges on an interpretation of that section of the Illinois constitution of 1870 relating to executive officers. It is argued in the document that Mr. Emmerson as secretary of state is ineligible to seek the governorship during his present term of office. Accompanying this instrument is a circular pointing out that should Mr. Emmerson be elected and declared ineligible

Len Small would remain governor until 1931. There is a further suggestion in the circularized material that Mr. Emmerson withdraw from the race and permit his party to nominate "in his stead some one whose eligibility is beyond question."

### Constitution Is Quoted.

Section 5 of Article V of the constitution is quoted in opening the argument.

"No person," it reads, "shall be eligible to the office of governor, or lieutenant governor, who shall not have attained the age of thirty years, and been, for five years next preceding his election, a citizen of the United States and of this state. Neither the governor, lieutenant governor, auditor of public accounts, secretary of state, superintendent of public instruction nor attorney general shall be eligible to any other office during the period for which he shall have been elected."

Following this quotation of the constitutional provisions, there is a statement of the question of interpretation involved—whether the constitution intends that the secretary of state, in this instance, is ineligible merely to hold the office of governor or whether he is unqualified to seek that position during his present term.

### Claim Favorable Decisions.

A summary of decisions in other states on the same point shows a preponderance of precedent in favor of the contention of the Democrats. Then the proceedings of the constitutional convention are quoted in an effort to demonstrate that it was the intention of the framers that the secretary of state and the other state officers named in the section should not be candidates for other offices during

the period for which they were elected.

Mr. Emmerson has anticipated this move on the part of his opponents. He has consulted the highest legal counsel in the state, he said, and has gone as high as it is possible to go in the nation "for an opinion as to his position. He has been assured that his qualifications are unassailable, he reported, and before the briefs were actually circulated, Mr. Emmerson said that he would welcome their appearance."

"The people of Illinois," he said, "will be revolted at this manner of campaign. Furthermore it will demonstrate that the Democrats have abandoned hope of winning in a clean fought campaign and have resorted to this unfair method in a desperate attempt to win."

### Ask Ruling of Court.

Recommendation has been made to Mr. Emmerson by his advisers that the matter be brought to the Illinois Supreme court for immediate adjudication. It could be brought to the jurisdiction of the highest state court on a writ of mandamus filed by the state's attorney of some county to compel the clerk of that county to certify Mr. Emmerson's name on the ballot, according to Mr. Emmerson's advice.

"There is nothing to this brief," David E. Shanahan, speaker of the house, declared. "The whole thing was settled in 1920 when John G. Oglesby, then lieutenant governor, ran against Small for governor in the primaries. It is merely a campaign document issued for propaganda purposes." Mr. Shanahan added that no steps have been taken to combat the effect of the distribution of the docu-

ments and that no immediate court action is contemplated. "We will let them show their hand, first," he said.

Alexander F. Reichmann is president of the Lawyers' Floyd E. Thompson for Governor club. Among the counsel associated with him in this enterprise are Francis X. Busch, Edward F. Dunne, Colin C. H. Fyffe, Al F. Gorman, MacLay Hoynes, Michael L. Igce, Max M. Korshak, Carl R. Latham, Henry S. Robbins, William H. Sexton, Charles J. Trainor and Russell Whitman.

One application of LADY ESTHER 4-PURPOSE FACE CREAM will convince you like nothing else can that you, too, can have ravishing complexion beauty—the delicate smooth skin you've always desired!

Just rub the one cream gently into the skin, wipe dry with a soft cloth, apply your powder. How superior to other creams—not a trace of any greasy film! LADY ESTHER CREAM does the work of 4 separate creams in one—cleanses, nourishes the skin—tightens flabbiness and lays an excellent powder base.

Read LADY ESTHER'S generous offer! Go to any DRUG STORE—get a 25c proof jar of LADY ESTHER 4-PURPOSE FACE CREAM—FREE—with a purchase of any regular size jar. Use the proof jar first (lasts 10 days). If you don't think it's the most efficient and beautifying cream you ever used—if even the first application doesn't greatly improve your complexion—return the regular size jar and get your money back! Could you ask for any fairer offer?

Regular size jars, 50c-75c. Economy size, \$1.25.

# "WHERE HAVE YOU BEEN ALL MY LIFE?"

"I'm certainly glad to know you—why haven't we met before?"

That's the way Original Manitou Pale Dry is being received all over town—and all because Original Manitou is just its natural self, with a pure, wholesome sparkle caught in the foothills of Pikes Peak.

For never forget Original Manitou is *naturally* carbonated. It owes its long lasting lively effervescence to the *natural* carbonic gases which gush from the world-famous Manitou Springs.

And *natural* carbonation does make a difference. You'll recognize it when you compare Original Manitou Pale Dry with any other ginger ale—domestic or imported. Compare them for flavor, for lasting effervescence, for smoothness, for lively, intriguing sparkle. Then you'll know why Original Manitou has an instant appeal. So don't wait for your introduction. The better dealers now have Original Manitou Pale Dry. They'll recommend it to you because they've tried it themselves—and you'll thank them many times for providing you with this far finer Pale Dry.

What's more, if you don't like Original Manitou as well as or better than any other ginger ale you have ever tasted, your dealer will refund the full purchase price on any pint or quart bottle you buy from him. We pay him. Could you ask more than that?

Bottled by the distributors of the world-famous  
Manitou Sparkling Water  
Be sure you get the ORIGINAL

Warning—Original Manitou Pale Dry bottles (pints and quarts) have a gold label and a cerise foil neck-band. For self protection be sure you do not confuse Original Manitou with any other product of a similar name

## COACH COMPANY TO CUT FARE FOR CHILDREN TO 5¢

South Side Surface Lines  
to Run Feeder Buses.

Fares for children under 12 years of age will be reduced to a nickel by the Chicago Motor Coach company within the next few days, officials of the company announced yesterday through Attorney James G. Condon. The present fare is 10 cents straight for both children and adults.

The five cent fare announcement was the second of two developments regarding buses yesterday. Earlier, Leonard A. Busby, president of the Chicago City Railways company, announced that 7 cent fare feeder buses will be installed by the south side surface lines Thursday on 103d street and Western avenue without Illinois commerce commission permits. This action is expected to bring the motor coach-feeder bus controversy to a new crisis.

**Announced by Moynihan.**

Mr. Condon made known the Motor Coach company's fare reduction plan at a conference with Patrick H. Moynihan, chairman of the commerce commission. He authorized Mr. Moynihan to issue the following statement:

"Recently I took up the matter of reduced fare for children with the Chicago Motor Coach company, stating that in view of the large number of school children depending on that service, in my judgment, as well as the judgment of all the commission, the company should inaugurate a half fare rate for children. Counsel for the company promised me an answer today. His answer was that the company would file within forty-eight hours a new schedule showing the half rate for children."

**Promises Approval.**

Mr. Moynihan promised that the commerce commission will approve the new schedule immediately after it is submitted. It will be effective, he said, on motor coach lines in all parts of the city.

Mr. Busby's announcement that the south side street car company will proceed to operate feeder buses, despite the Illinois commerce commission edicts banning them as illegal, brought surprised comments from experts following the feeder bus dispute. Although rumors have had it for several days that the street car companies would try to get around the commission's decree, no formal statement had been forthcoming from the companies. If the buses are put on the streets and run without interference, it is believed the way will be opened for rival street cars and motor coach buses on the same streets throughout the city.

**Orders Fourteen New Buses.**

Mr. Busby said he had ordered fourteen new, single decked, pneumatic tired buses on the unanimous order of the board of directors of his company. They will arrive Thursday, he said, and four or five will be started at once on 103d street between Vincennes and Western and Ridge avenues and on Western avenue between 74th street and the city limits. The city council has passed ordinances authorizing buses on these streets.

"Can you operate these buses without an Illinois commerce commission permit?" Mr. Busby was asked.

"Well," he replied, "the law, as I understand it, provides that a going public utility needs no further permits to augment or improve its service. We won't clash with the commerce commission until we have to."

Mr. Busby added that the money to buy the buses will come from "surplus funds" which the company has on hand and not from the equipment and renewal fund which the

## HIRAM REED KEEPS EYE OFF BABY OF THE GIRL HE TRIED TO KILL

Ottawa, Ill., Oct. 3.—[Special.]—Hiram Reed, convicted Pleasant Valley schoolhouse bomber, saw Byron Bradford, five months old son of his former fiancée, Iola Bradford, in the La Salle courtroom today at a hearing at which Judge Harry Reck held him to be the father of the child.

Reed placed dynamite in the stove of the schoolhouse. When Miss Bradford, the teacher, started a fire, it exploded, maiming her terribly.

During the hearing Reed neither looked directly at the baby nor took any recognition of the child. The first hitch in the proceedings came when he refused to either plead guilty or not guilty to the charge he is the baby's father.

Miss Bradford testified that Reed is the child's father. After Judge Reck entered the order holding him to be the parent, Mrs. Elizabeth Reed, Hiram's mother, produced a check book and drew a check for \$200, the first payment on the \$1,100 the state laws provide a man must pay for the support of an illegitimate child.

commerce commission held can be spent only for car extensions. He indicated that buses will be put on other south side streets as the council passes the necessary ordinances and the buses arrive. Some \$200,000 in "surplus fund" is available, it was understood.

Coincident with Mr. Busby's statement, Henry A. Blair, head of the Chicago Railways company (north and west side lines), explained that his company, now in a receivership, will not act on the bus matter immediately because of the legal difficulties in-

Quality was  
Imperative

HALF a century ago when Lablache was first used by American women, an almost invisible fineness, a mere suggestion of perfume were imperative.

Today, Lablache quality is still unsurpassed. It is, as a half century ago, the choice of women who understand the unobtrusive part a face powder should play in Milady's toilette.

At toilet goods counters everywhere—in the original 50 cent size, delicately scented; and in the new dollar package, slightly more pronounced in odor.

**Sablacke**

Pronounced LABLASH  
The Face Powder  
of Quality

involved. This was accepted as meaning that there is little likelihood of warfare between 7 and 10 cent fare buses on the northwest side in the near future. The attitude of the Blair company, it was said, will be to watch the outcome of Mr. Busby's experiment.

**Moynihan Is Silent.**

Asked for a comment on the Busby announcement, Mr. Moynihan last night declined to say what the commerce commission will do if the feeder buses start operating. He, however, reiterated his view that the commission has sole jurisdiction over bus operations. Any illegal operations, he said, will be dealt with when they take place.

The whole bus situation is due for

another public airing Wednesday at a special meeting of the city council local transportation committee. At that time the street car officials are expected to report formally on their plans.

The committee also will consider the recommendation of Chairman Joseph McDonough [18th] that special lawyers be employed to replace Corporation Counsel Samuel A. Ettelson and his staff in dealing with bus matters.

**VIOLINIST, OUT OF JOB, KILLS SELF.**

Carl Gumbel, 37 years old, a violinist, killed himself yesterday in his room at 2133 Sedgwick street. He was unable to find employment.

EDDIE CANTOR—America's Foremost Comedian. A Satisfied Thomas Client.

## You too can have the Vigorous Hair of Youth

THE THOMAS' modern, scientific method of preventing baldness and growing hair makes it possible for every person to have a good head of hair. Men appearing daily before the public must have good heads of hair and many of them retain or regain their hair by the Thomas' method and attest to the success of this proved scalp treatment.

One stage favorite says: "Personal appearance means much in any man's business or social success. It means even more to me—appearing daily before thousands of people. I could not afford to lose my hair, nor can any other theatrical man. I don't see how any man in any business can afford to become bald or remain bald! Thomas' treatment has relieved me of that fear and has insured me a good head of hair for life."

## No Person Needs to Become Bald or Remain Bald

The Thomas' method of growing hair and saving hair is scientifically sound and proved by 15 years of success. It is a specialist's treatment adapted to the individual's particular scalp trouble. It ends dandruff, stops falling hair, grows hair and corrects all abnormal conditions such as excessively dry or oily hair.

Over 1500 persons are being treated each day in the 45 Thomas' offices throughout the country for all scalp troubles. Numbered among this large clientele are many well known stage celebrities, doctors, lawyers, officials, business men and persons in all other walks of life who appreciate the value of a good head of hair. What the Thomas' are doing for these persons they can also do for you.

## Thomas' Specialists KNOW How to Grow Hair

Each Thomas' office is in charge of a skilled specialist who does nothing but examine and treat hair and scalp disorders. He knows the symptoms of the various causes of baldness and knows specifically how each should be treated. Come to the nearest Thomas' office today and talk over your hair and scalp problem with him personally. He will gladly examine your scalp without charge or obligation and tell you frankly what Thomas' treatment will do in your particular case.

## Women Treated in Separate Department

In addition to their 5 treatment offices for men in Chicago, The Thomas' now have an office exclusively for women in suite 403, 162 N. State Street. Women need no longer worry about hair that is thin, lifeless, or choked with dandruff. The Thomas' correct all of these disorders and grow hair with their treatment. Scalp examination and consultation free at all times.

Men and women who do not live in a city where there is a Thomas' office may write to The Thomas', 844 Rush St., Dept. T, for an interesting booklet free on the care of the hair and scalp, "How Science Conquers Baldness."

## LONDON POLICE IN SCANDAL WEB AS CHIEFS QUIT

Snoopers Uncover Graft;  
Records Missing.

BY JOHN STEELE.

(Chicago Tribune Press Service.)  
LONDON, Oct. 8.—The resignation of Sir Wyndham Childs as deputy commissioner of the metropolitan police and chief of the detective branch has created a panic at Scotland Yard, the London police headquarters. Desperate efforts are now being made to hush up the scandal which, if exposed, will make London's famous police look just as corrupt as those of New York and Chicago, at which they have frequently sneered.

It is not likely that it will be possible to hush up the affair, for Sir William Joynton-Hicks, home secretary, whose department is responsible for control of all the British police forces, is on the warpath. "Jix," as Joynton-Hicks is called by the police, if he is not very discreet, is honest and will not be deterred by considerations of policy from making a clean sweep.

In addition to Sir William Horwood, chief commissioner, and Sir Wyndham, who will quit next month, eight more high officials are marked down for elimination, it was learned today. They may be allowed to resign, but it is also possible that the scandal may break too soon and they will have to be dismissed.

Caused by "Necking" Arrest.  
The present situation is caused by blundering over the case of Sir Leo Money, prominent politician and economist, and Miss Irene Savidge, arrested for necking in Hyde Park and discharged by a magistrate. A police investigation followed, during which Miss Savidge was taken to Scotland Yard and given the third degree in an effort to get her to admit guilt. Sir William, the chief of police, bungled the case badly and allowed it to become evident that the police were prepared to perjure themselves to support their comrades.

Then came the Helene Adele case, in which a girl was arrested by police after refusing to submit to their attentions. Here again indications of corruption appeared.  
One night "Jix," who had been told something of what was going on, went out himself with a couple of "crawlers" and took a walk around London. He found forty street bookmakers operating openly within a mile of the home office. He found out what they paid for protection and who got the money and demanded an investigation. Sir Wyndham then protested against

"snooping" in his department and "Jix" told him that if his resignation was offered it would be accepted.

Another feature of the scandal is said to concern a large number of documents which might compromise prominent people which are missing at Scotland Yard and for which there has been a frenzied search.

"Jix" also is said to have obtained evidence of payments by prostitutes to the police for protection.

Lord Byng to Clean Up.

Lord Byng, the new police commissioner, who takes charge next month, has received carte blanche to purge the department, and he will be allowed to choose his own chief of detective force and other higher officials. The suspected officials, it is believed, will resign now while the going is good.

Scotland Yard itself is said to be in a panic and none of the officials trust each other. Every telephone conversation is tapped and every one is afraid to talk.

One result of the exposures has been the appointment of a royal commission to investigate the whole police system. When the appointment was made revelations of corruption were not foreseen, but the commission was given wide enough power to make a thorough investigation of all phases of the police situation.

ENTERTAINERS SUBS GAVE OWNER.

Frank Allen, owner of the Beverly Gardens roadhouse at 6141 South Western avenue, was sued for \$25,000 yesterday by Miss Harriette Davis, an entertainer in his cabaret. She alleges he beat her on the night of Sept. 27 just outside the roadhouse.

## LEGION MAKES SAN ANTONIO'S WELKIN RING

Halt All Day Frolic to  
Hear Pershing.

San Antonio, Tex., Oct. 8.—(AP.)

Delegates to the American Legion convention in session here interrupted their frolicking for a time here today to greet their distinguished guests, hear an address from Gen. John J. Pershing, and hold a memorial for their dead.

The official Legion parade does not form until tomorrow morning, but an unofficial parade, spurred on by the music from fifty bands, swept through the business district all afternoon. The musical organizations, practicing for the competitions which start Wednesday, stepped on each other's heels as they marched up and down the street and through hotel lobbies. Several of the delegates, tired of walking from one spectacle to another, purchased

tiny burros which are common and cheap in this part of the state, and ambled about on the patient animals all day.

Sham Battle by Night.

Tonight the Second army division at Fort Sam Houston put on a night battle scene at Camp Travis, the Follies Bergere opened in the convention hall, and the rodeo was going full blast. Housing officials estimate that most of the crowd is now on hand, and that the total is some place between 60,000 and 70,000.

Gen. Pershing's address was devoted, for the most part, to a plea to Legionnaires to create an interest in good government strong enough to impel qualified voters to go to the polls on election day.

The wartime generalissimo received a thunderous welcome from the delegates.

Commander Edward E. Spafford for the most part confined his annual address to a review of his administration and to commendation of his coworkers, but he did come out strongly for a universal draft law and urged the convention to make the passage of such a law a major objective.

Hines Addresses Men.

Maj. Gen. Frank T. Hines of the veterans' bureau, in an address warned the convention that the peak hospitalization load for nervous disorders would not come until 1947. Lord Allen introduced as the "last of the crusaders" because of his feat in capturing the holy city, was given a long ovation when he was presented with the Legion's distinguished service cross.

## REFUSE TO ALTER COURT O. K. GIVEN TO WIRE TAPPING

(Chicago Tribune Press Service.)

Washington, D. C., Oct. 8.—(Special.)—The United States Supreme court today refused to review its five to four decision holding that evidence secured by wire tapping is admissible in federal courts regardless of state laws making wire tapping a crime.

As a result of the court's denial of a rehearing in the prohibition conspiracy case which came up from the state of Washington, it is almost certain that legislation prohibiting the use of evidence obtained by wire tapping or otherwise in violation of state laws will be urged.

In its original opinion last June, the majority of the court upheld the conviction of Roy Olmstead, Charles S. Green, Edward H. McInnis, and others in a Seattle, Wash., federal district court, and held, in the decision written by Chief Justice Taft, that tapping wires to secure evidence of the Volstead law violation had not violated the constitutional guarantee against unlawful search and seizure. Justice Holmes, in a dissenting opinion, denounced the government for

willfully breaking one law to enforce another and declared that wire tapping was "a dirty business." Justice Butler, who also dissented from the majority finding in his opinion, contended that when the dry agents resorted to wire tapping they violated the fourth amendment to the federal constitution, and Justice Brandeis declared that "if the government be-

comes a lawbreaker it breeds contempt for law." In another order entered today, the court declined to review a lower court's ruling in habeas corpus proceedings by which James A. Jordan of Lock Haven, Pa., and three others, alleged leaders in a beer running ring, sought to escape removal from Pennsylvania to Cleveland, O., for trial.

## Eatmor Cranberries

Serve Mock Cherry Pie

Recipe—Pie crust: 3 cups cranberries, 1 cup seeded raisins, 1 1/2 cups sugar, 3/4 cup water, 2 tablespoons flour, 1/2 teaspoon salt, 1/2 teaspoon almond or vanilla extract. Chop cranberries; add other ingredients. Line a deep pie plate with pie crust; add filling; cover with

an upper crust. Slit or perforate with fork to permit steam to escape, and press the edges closely together. Bake in a moderate oven 30 to 45 minutes.

Ask for Eatmor—the name is on the box.

Recipe book mailed free, address: American Cranberry Exchange, 90 West Broadway, New York

# AERO

THE FIRST  
COMPLETE LINE  
OF BEAUTIFUL  
RADIATION

Aero—the National Radiator—was designed for efficiency, and through it, achieved beauty also. The slender tubes made possible high efficiency and conferred grace and attractiveness.

The Only  
Proved Tube Type  
Radiation

Aero, the first to point the way to a blending of beauty and warmth in heating, was soon imitated. But none has equalled the Aero record of dependable, efficient performance made through the years when it was the only complete line of modern tube-type radiation on the market.

Aero will be obtained and installed for you by any reliable Heating Contractor. Once installed, you will have radiators whose dependability has been conclusively demonstrated, whose attractiveness will never fade—whose effectiveness, year after year, will add to your comfort.

# WANTED—A Square Deal From Chicago

## 2509 STOCKHOLDER-DRIVERS OF THE CHECKER TAXI FAMILY ASK FOR THAT AND NOTHING MORE

This is a plain statement of plain facts, from plain people, addressed to you, the public of Chicago—and we know you are fair. Our business, our livelihood, the welfare of our families, depends upon the way you receive these facts, so bear with us briefly. We, the committee signing this public announcement, speak for the 2,509 stockholders making up the Checker "family." We like you to think of us as a family, for that's what we are—a business family banded together to serve you, the public. Our Checker family says this to your family:

### There Is No "Taxi War"

Please let us register this big fact first, last and always. There is no "taxi war." What fools we would be, as stockholder-drivers of these cabs of ours, to engage in a "war" with the cabs operated by a mammoth corporation. What chance would we have as individuals if we made the foolish, insane mistake of fighting the opposition? Wars are built on fighting by individuals.

This talk of a "taxi war" is, in our opinion, propaganda engineered to hurt our business. And you, the public, may have been misled into accepting the term "taxi war" as a fact.

Not one of the twenty-five hundred and nine drivers of the Checker Taxi Company, nor any of its officers, have been arrested or even charged with an act of violence against anyone.

Just another fact for your consideration. You should have this brief outline of what has really happened since September Twenty-second.

### One of Our Family Was Killed

According to the coroner's jury, on the night of September 22, Eugene Thivierge, one of our beloved fellow stockholder-drivers, was cold-bloodedly assassinated. Testimony presented showed that Thivierge, unarmed and defenseless, running away from his assailants, was brutally shot down in the back.

That the two thugs who killed him were seen and identified. One was arrested. The other escaped.

And, on October 5, the grand jury of Cook county indicted both for murder.

One of them is still walking the streets of Chicago, un molested despite the blood of an honest workingman's life that stains his hands!

### There Have Been No 'Reprisals' by Us

Why should we commit business suicide by fighting murder with murder? Is it even sensible to think of? Is it what you would do if a member of your family had been murdered in cold blood. We do not think so. Law is law—and we again submitted patiently to the workings of that law, but you have just read what has happened in the particular murder case above described.

However, we know justice will be done eventually, although its wheels move slowly their wonders to perform. In the meantime we take care of that dead boy's family; pension them; rest secure in our own conscience that you, the thinking public, will respond to our lawful acceptance of justice by continuing that patronage which is our only way of making a living.

Justice? Fair dealing? A square, even break? What about such facts as these:

### 2 Judges Say Our Offices Were Robbed

While one of Thivierge's murderers was still at large, with all the accompaniments of a Wild West movie, a literal posse descended upon our offices with shotguns and a "subpoena duces tecum," whatever that is, but signed with a rubber stamp, and forcibly took away every single record on file in those offices.

Two Judges of your courts have pronounced this a legal outrage.

Judge Harry M. Fisher, Chancellor of the Circuit Court, criticizing the seizure of our company's records by the State's Attorney's office, said: "The State's Attorney is never authorized to employ lawless methods in the name of the law."

Superior Judge Frank Comerford of the Criminal Court said: "This subpoena is not a legal subpoena and anything taken under it from the Checker Taxi Company must be returned immediately. And when this Court says 'forthwith' he means immediately at once."

### We Have More Interest in the Passenger's Safety Than a Paid Employee

We stockholders drive our own cabs. Each and every Checker taxi driver is a stockholder in his company. He owns the equivalent value of his taxicab in stock of this \$2,000,000 company. We have a personal interest in keeping them clean, in perfect running order, a private car you are glad to ride in.

Doesn't it stand to reason that we, as individual stockholder-drivers of these cabs, have everything at stake in protecting your safety? We believe you will agree with this.

Have you ever received gruff, discourteous treatment from a Checker chauffeur? We hope not. If you ever do, please report it immediately, as we have a Conduct Committee which acts promptly on any justified complaint by you, the passenger.

Have you ever complained of reckless driving by a Checker Cab driver? We do not believe you have. Such cases are rare, indeed.

We must protect you. When we do, we protect ourselves, our life savings, our entire income.

We will always protect you; we bespeak your patronage because of our past good record in serving the public, because of our constant improvement of the service itself—the family which lives upon the patronage of your family.

### And You Are Protected by a Bond of Over Four Million Dollars

The 1,656 cabs owned and operated by the Checker Taxi Company are bonded against accident liability by THE NATIONAL SURETY COMPANY of New York—the world's largest liability insurance corporation! The sum of \$2,500 per cab—more than \$4,000,000—represents our guaranty of responsibility to the taxi-riding public!

Checker Taxi Company is a mutual organization of 2,500 little business men—each driving his own place of business about the streets of Chicago!

Checker Taxi Company has few accidents because every driver has a direct, financial interest in his cab. It is an organization of careful, cautious, experienced men, whose own money is invested in the automobiles they are driving!

### Our Family Thanks Your Family for Our Present Prosperity

Thanks to you, Mr. and Mrs. Public, and your children—we have grown in the last nine years from a mere handful of independently owned and driven cabs to the largest co-operative taxicab company in the world. You have been responsible for this growth from six cabs to sixteen hundred and fifty-six in the few short years of our development.

You have patronized us well and loyally even though you have not always found it easy to get our cabs at certain "public" stands.

Now, sir and madam, we trust you who have read thus far will accept our word for it that we are grateful to you for all the patronage you have given us in the past—and will continue doing all in our power to merit a continuance of that patronage. We thank you.

# IN PHILADELPHIA VIRTUALLY A WHOLE PEOPLE READ ONE NEWSPAPER

**THESE** are advertising conditions that are most unusual:

—A definite market! Great in population; great in wealth and buying power.

—One advertising medium! A fine newspaper, with a circulation which alone covers the market.

They mean concentration of advertising energy; and that, in turn, means power—

Power for the advertiser to make sales and to save costs in making them!

Philadelphia is unique among great markets in the opportunity it offers.

For in the Philadelphia market, one news-

*The Largest Newspaper by Far in Philadelphia:  
One of the Greatest in America*

By avoiding sensational methods and taking care to protect the confidence of its readers, The Evening Bulletin has grown, through the years, from a few thousand to a net paid average sale of 549,148 copies.

*America's Third Largest Market—  
One Newspaper—One Advertising Cost*

Within the retail trading area of Philadelphia are six hundred thousand homes of as prosperous a people as exist on the earth. Selling costs in this great market are conserved by concentrating in The Evening Bulletin, the newspaper read in nearly every home.

paper, The Evening Bulletin, is read in nearly every home.

The Evening Bulletin expresses Philadelphia; reflects the standards of its people.

In news, editorials, in all features, The Bulletin follows the example of care and moderation set by this people.

The people give The Bulletin their confidence.

It has had no part in sensational journalism.

It has used no circulation contests, coupons, prizes, premiums, or other artificial means of stimulating circulation.

But has built its circulation solidly—on its merits as a newspaper, judged by the home standards of this city famous for fine homes.

Today, in this territory, you find a market of six hundred thousand homes,—

AND—a newspaper with more than a half million circulation daily.

In Philadelphia, advertising coverage is simplified... waste and duplication eliminated... for the advertiser. Here alone, of all metropolitan markets in the country, you see virtually a whole people reading one newspaper.

## QUEENS SEWERS LINED WITH GOLD, TRIAL BRINGS OUT

Witnesses Tell of Toll  
Exacted by Phillips.

BY TOM PETTEY.

(Chicago Tribune Press Service.)  
New York, Oct. 8.—[Special.]—Additional evidence that the sewers in the borough of Queens are lined with fourteen karat gold was brought out today at the Connolly-Seely conspiracy trial in Long Island city court-house.

The late John M. Phillips, sewer pipe king, exacted a toll of \$397,000, Special Prosecutor Emory Buckner brought out, for the use of his pipes in three jobs with a total contract price of \$1,019,014. Phillips' toll, therefore, was almost 39 per cent.

Little Fingers in Pie.

Through the testimony of a dozen witnesses ran a trail of minor fingers in the Lock-Joint pipe pie.

It was clearly developed that when a contractor wanted a job he did not go to former Borough President Maurice Connolly or former City Engineer Frederick Seely, defendants in the present trial. He went to Phillips or one of the pipe czar's lieutenants.

Contracts bid in by the Riverdale Construction company furnished the day's fireworks, but Riverdale did not build the sewers. The company resigned the jobs. The Everett Construction company paid "Pete" Campbell, Phillips' clerk, \$21,000 for one of them and Carmine Petracca, another contractor, put up \$22,533 for a second. Phillips' assistant, "Andy" Kern, took care of this transfer. There the record of the payments ended. Later, the cash, the state tried to show, might have found its way into Phillips' fund.

Gets \$5,000 for His Share.

The third job was taken over by the Awixa corporation, and one of the partners of the Riverdale company, Joseph Elkins, got \$5,000 for his share, according to the records. Whether he succeeded in keeping it or not was the subject of much debate.

The Awixa job was done for \$399,089 and the contractor paid Phillips \$17,000 for their pipe. The Everett Construction company got a \$377,332 job and paid \$190,000 for pipe. Petracca did a \$233,553 job and his pipe cost him only \$40,000.

A light touch came toward the close of the session when John S. Faber, Long Island jeweler, was called. Just why Faber was called was not explained. Max Steuer, attorney for Connolly, succeeded in ending the interrogation on the ground that the jury had been sufficiently instructed regarding the gold plate dinner set gift to Phillips from his admiring contractors. Steuer drew a laugh from the bench when he questioned the statement the plates were "solid gold."

"Did you test them?" asked Steuer. "No, I sold them," said the witness.

## WEALTHY YOUTH HAS GOVERNESS AS HIS BRIDE

New York, Oct. 8.—[Special.]—Samuel Thorne III, son of Samuel Thorne, a partner of the law firm of DeLoe, Thorne & Burleigh, and a prominent Episcopal layman, married his sister's governess, Mme. Vera Sokoloff Dabrowsky, 27, last Saturday night at Rye. Edwin C. Thomas, a Rye Justice of the peace, performed the ceremony shortly before midnight. Saturday's night wedding was the second during the day which affected the Thorne household. In the afternoon at the big Thorne home in Harrison, near Rye, Mrs. Thorne's secretary, Miss Anna Elizabeth Wimmer Schwarz married Dr. Robert Patch of New York. The elder Mr. Thorne gave the bride away, and Samuel Thorne III was best man.

Mme. Dabrowsky was born in Moscow. She was divorced from her former husband in Russia in 1924.

## HOCKADAY

Washable Interior Enamel

Consider not only the low initial cost of this famous WASHABLE enamel (less than 1c a square foot) but also its amazing economy after it is on the walls. Heat, cold or dampness will not affect it. Lasts two or three times longer than ordinary enamel. Retains its newness and brightness for years even with repeated washings and scrubbing.

Washes Clean of All Stains!

Ordinary soap and water saves the expense and bother of redecorating if your walls are HOCKADAY enameled. Dirt, match scratches, finger marks, grease, unsightly stains of all kinds can be washed off again and again without dulling or scratching HOCKADAY's original beauty. Cleans as easily as a china dish.

Easy to Apply—Comes Ready-Mixed

HOCKADAY WASHABLE ENAMEL is now offered for home use in all popular shades and colors—ready mixed—ready to apply. Now you can enamel your own kitchen, hall or bathroom with the genuine HOCKADAY that is specified and used in the country's largest buildings.

Anyone can apply it easily and quickly. No undercoat, no sizing necessary. Brushes smoothly and evenly and the soft egg-shell finish will thoroughly cover any surface.

## See It Demonstrated

Drop into the paint or hardware store in your neighborhood and see the most remarkable demonstration ever made on enamel. See for yourself match scratches, grease, yes, even iodine smeared on a HOCKADAY enameled surface. Then watch the enamel made new and clean again—see the stains washed off. No obligation to buy—just ask your dealer today for the free Hockaday demonstration.

# Investment Value Depends on Returns

THE investment value of 250,000 shares of anything is determined by the dividend return from each share of stock.

The investment value of 250,000 readers of any publication is determined by the profit per reader.

Circulations, like stock issues, vary in size; readers, like shares of stock, vary in value.

100 shares of some stocks earn larger dividends than 150 shares of others. That makes their investment value greater.

Likewise, some newspaper circulations are better investment values than others because of the greater return per reader they bring the advertiser. Larger profits from such circulations justify larger advertising investments in them.

During the year 1927 the retail merchants of Boston invested more money in the readers of some papers than they did in the readers of others. Responsiveness was what they sought in each unit of circulation. With experience of many years guiding their investing judgment, these merchants placed a per reader valuation on the *Herald-Traveler* circulation greater than that of any other large circulation in the city.

19.6% higher

than the second daily paper

21.3% higher

than the third daily paper

110.7% higher

than the fourth daily paper

Thus the merchants of Boston, large and small, retailers of

merchandise of every description, have, by their advertising investments, set the per reader valuation on each circulation. They have by this appropriation of their advertising expenditure established the *Herald-Traveler* reader as the most responsive and most profitable investment of any unit of large circulation in the city of Boston.

The total advertising appearing in Boston newspapers during the first eight months of 1928 was divided as follows:

Traveler . . . . .	8,272,815 lines
Herald . . . . .	7,288,862 lines
Post . . . . .	6,379,042 lines
Globe . . . . .	6,065,881 lines
Transcript . . . . .	4,937,104 lines
American . . . . .	3,220,742 lines
Advertiser . . . . .	1,036,692 lines

(From report of Media Records, Inc.)

## Face Powder HOUBIGANT

The compact of Houbigant combines a case that is ultra-smart, with solid face powder and rouge of the superb Houbigant quality. Q Designed in Paris by a jeweler noted for the chic of his achievements, the Houbigant compact is presented in a wafer-thin hexagonal gold case, charmingly embellished. Q The double compact is sold for \$2.50, the single with face powder only and extra refill for \$1.50. With rouge only in four marvelously becoming shades, Pour Brune, Pour Blonde, Carnation and Orange, at \$1.

There is packaged . . . and exquisitely . . . in each box of Face Powder Houbigant, a magic that endows one's complexion with a radiant clarity, beautifully blended with a seductive softness. It conceals—but quite unnoticeably—that which were better left concealed, while deftly and delicately emphasizing those features fortunately attractive.

In shades that are undetectably natural (each a special Houbigant creation)—which blend with and beautify the flesh tones—Face Powder Houbigant is an essential adjunct to

the toilette of those who seek the perfection of makeup that can result only from its apparent absence. Each box is subtly fragrant with the incomparable perfumes of Houbigant, the very use of which denotes an understanding smartness.

Face Powder Houbigant may be had in *Naturelle, Rachel, Ocre, Rosée, Ocre-Rosée* and *Blanche*. And in such superb fragrances as *Quelques Fleurs, Parfum Ideal, Mon Boudoir, Subtilité* and *Le Temps des Lilas*. (That you may achieve even more fascinating results, Houbigant suggests, as a powder base that is marvelously effective, *Quelques Fleurs Skin Lotion*. Dainty to use, exquisitely fragrant—\$1 the bottle.

## SOX THE CITY SERIES: TRIM CUBS, 7-1

RAIN REPRIEVES  
CARDS; SHERDEL  
TODAY'S CHOICEYanks Pick Hoyt to  
End Series.

## Money Record

St. Louis, Mo., Oct. 8.—[U. P.]—The total receipts and attendance for the first three world series games follow:

	Box Office	Total
St. Louis	\$615,388.00	\$615,388.00
Yankees	335,309.00	335,309.00
Cardinals	61,538.00	61,538.00
St. Louis	116,769.24	116,769.24
Yankees	116,769.24	116,769.24

BY IRVING VAUGHAN.

(Chicago Tribune Press Service.)

St. Louis, Mo., Oct. 8.—In keeping

with the spirit of the entire world's

series, there was no conflict today

between the New York Yankees and the

St. Louis Cardinals in what was

supposed to be the fourth

annual fall classic for a title and

whatever loot can be gathered.

At the minute on which the two

teams should have set forth on the

journey that will end as soon as the

Yankees win another

decision over their gimp-legged opponents, a

mid-summer sun was beating down and the

field was in better shape than fields

in which hundreds of other battles

have been waged, but there was no

action because the scheduled affair

had been canceled several hours

previously on the word of a self-appointed

weather prognosticator. The latter

insisted it would continue to rain as

it had rained all morning and part of

the night.

Landis Calls Off Game.

The final word as to whether there

should be action or a truce rested, of

course, with Commissioner Landis,

the high king of the entire work.

Mr. Landis remained in his head-

quarters all morning and was besieged

by excited correspondents with queries

as to whether he knew it was rain-

ing.

Finally Mr. Landis listened to the

baseball official who credits himself

with knowing more about weather

than the Smith brothers know about

pickers. Assured that there was no

chance for a break, the high boss of

the job consented to delay the fourth

and what may be the final game until

tomorrow. Then before the noon

hour Mr. Landis was rudely surprised

to see the skies clear and sun come

beating down with summer enthu-

siasm.

Johnson Loses Chance.

The delay of 24 hours makes it a

certainty that Sherdel, the luckless

southpaw, and Waite Hoyt, the bud-

ding mornician, will perform tomorrow

just as they performed in Sherdel's

discomfiture in the opening battle at

New York last Thursday.

Had there been some postponing this

afternoon Huggins might have slipped

in young Henry Johnson and taken

a chance. He could easily have allied

himself by insisting Hoyt needed one

more day of rest. Now Hoyt has had

more rest than he usually enjoys, so

if he doesn't work there might be sug-

gestions from the skeptics that the

Yankees officials were more interested

in gate receipts than in four straight.

Those who have witnessed the three

straight Yank triumphs wonder how

the Cards were able to win a pennant

in a league in which there are sup-

posed to be about four fair to mid-

dle entries. The problem is just

ified by what has happened. The Cards

have been both weak with their bats

and shaky in the field, and their ac-

tions in Sunday's game indicated that

the last speck of light had been driven

from their systems.

If the Cards should happen to revive

tomorrow and win it will mean that a

25th game necessary here on

Wednesday. If the Cards should win

that one the two teams would move

back to New York to resume activi-

ties on Friday.

Kiley Resigns  
as Coach of  
Loyola Team

BY WESTBROOK PEGLER.

(Chicago Tribune Press Service.)

St. Louis, Mo., Oct. 8.—The fourth

game of the world series between the

Yankees and the Cardinals having

been postponed today, the members of

the Yankee baseball club applied them-

selves to innocent diversions and

pleasures.

It appears that after they had won

their third game yesterday, Mr. Miller

Huggins, their manager, convened

them in the locker room under the

grandstand and adjured them not to

look upon the wine or other stimulat-

ing refreshments when they were red

until after they had won four games.

Perhaps it was a good thing he men-

tioned this because the young men of

his command were greatly elated and

in a mood to solemnize a complete

victory prematurely.

Recalls Britton's Mistake.

Being a reading and remembering

man, he may have had in mind the

instance of the British soldiers at

Trenton who put in an evening tell-

ing each other how good they were

on the pitchers of rum and then lost four

straight. Of course, that was an in-

significant occasion as compared with

a world series but it will do as an

analogy unless it should happen that

the place was Yorktown instead of

Trenton in which case you may ad-

just the situation accordingly. Or Mr.

Huggins may have been thinking of

the case of a club of clear-eyed, eager-

young athletes in a world series of re-

cent memory who won the first three

ball games and on the fourth day went

straight from their various parties to

the baseball grounds to play the fourth

NAVY DRILLS ON  
NEW FORMATIONS  
TO FOOL N. DAMECastree, Reserve Back,  
May Start Game.

120,000 to Attend

SOUTH BEND, Ind., Oct. 8.—

[Special.]—Hundreds of late

applicants for tickets to the

Notre Dame-Navy game are

being disappointed this week, ac-

cording to J. Arthur Haley, busi-

ness manager of athletics at Notre

Dame.

Haley announced tonight

that the ticket sale for the game

had been closed and that orders

now being received cannot be

filled.

More than 104,000 tickets have

been sold. This exceeds by 6,000

the number sold for the Southern

California game last year, but as

117,000 persons saw that battle it

is estimated that at least 120,000

persons will see the Navy-Notre

Dame game.

Annapolis, Md., Oct. 8.—[Special.]—

The Naval academy football team be-

gan preparations this afternoon for

the game against Notre Dame in Chi-

cago next Saturday. A short session

was devoted to a talk on Saturday's

game, which the Navy lost to Boston

college. The coaches outlined the

work for the week and put the squad

to work on some special formations.

The team came through Saturday's

game without casualties. Harold

Bauer, who was knocked out during

the first half, was in the practice to-

day.

The squad will miss only one school

day by the trip to Chicago. It will

leave Thursday night, and start on

the return trip immediately after the

game, so as to be ready for class Mon-

day morning.

Several of the second string players

attracted attention by their work

against Boston and may appear in the

starting lineup Saturday. Castree,

half back, who gained more ground

than other Navy backs, although play-

ing only part of the second half, is

sure to start against Notre Dame.

Of the other backs, Kohlbas did

well while several second string line-

men did better work than the regu-

lars.

Curtis Wilbur to Attend.

Mayor James Walker of New York

and Curtis Wilbur, secretary of the

navy, will be guests of Chicago while

here to attend the Notre Dame-Navy

football game on Saturday. It was an-

nounced yesterday by Norman C.

Barry of the Notre Dame Chicago

club.

In honor of the many notables who

will attend the game the day has been

named "Football day" by order of the

city council, and a delegation of alder-

men, headed by George M. Maypole,

has been appointed to receive the city's

guests. Loop merchants are urged to

cooperate with the south park board

in arranging suitable decorations.

Mr. Walker and Secretary Wilbur

will address a gathering of Naval

officers and the Stevens hotel.

The search for a full back was con-

tinued today. Shay's work against the

Badgers was all that could be ex-

pected of a 150 pound man, but it

wasn't good enough. Williams, who

replaced Shay, plainly demonstrated

his inexperience. Savoldi, another

youngster, didn't get a chance to show

what he could do.

In the WAKE

against Michigan, and Albion against

Michigan State crashed through our

defense. The first two of these con-

tests looked about even in advance,

the last two were distinct surprises.

But when Notre Dame,

which seldom loses more than one

game a season, is bowled over and

Ohio Wesleyan, which has not been as

strong as it once was for several

years, reverses a 23 to 0 trimming by

the Wolverines of 1927, it shows that

upsets can occur even in early season

affairs.

Big Ten interest naturally focused

on Wisconsin's triumph over Notre

Dame because of reports from Mad-

ison that the Badgers have been

material in years. Resulting prestige

now makes Thistlethwaite's men a

menace to all opponents. That Wis-

consin could win with so few first

downs shows strength of its line and

alertness in recovering fumbles. In

1926 we saw alert Badgers lead the

strong Minnesota team of that year

10 to 0 until the last few minutes of

and going higher**

LEECH PREDICTS  
LISTING OF MORE  
FOREIGN STOCKS

BY HARPER LEECH.

Very few—probably less than a dozen—issues of European corporate stocks have been marketed in whole or in part in American investment markets since the New York stock exchange provided for listing such issues, but it is very likely that many will be marketed here in time.

The sale of participating debentures of Krupp & Tull company evidenced the American desire to get into European industry on something like a stockholder's basis. But the Krupp companies are of course a vast complex of mining, industrial, and governmental issues with extensive American connections. American capital is in matches and in European chemicals to such an extent that such issues are in a class by themselves.

**Financial Structure Simpler.**  
La Salle street students familiar with the listings of the London stock exchange, which at last accounts were about two and a half times as numerous as the listings on the big New York board, are of the opinion that on the whole capital structures of European corporations are simpler than ours. Not long ago a La Salle street house received from the German representative a letter in which he said his German friends were much interested in our A. and C. stocks and other such arrangements and wanted all available information, as they might find such issues useful in Germany.

It is said here that where European capital structures, with which the American investment public have come in contact, have proved to be complicated, it is because of American financiers who was the cause.

**Capital Structures of Corporations with Securities Listed in London** display a trend toward this normal type—one or two issues of debentures and the common shares.

**Debentures Like Yankee Bonds.**  
The debentures really are the equivalent of bonds in our setup, and there is not so much preferred. This is a general statement and of course there are a multitude of exceptions.

But there is a reason in financial history for the different trends in capitalization.

This was a country of extractive and productive industries long after Europe had passed that stage. The European corporate setups logically could be predicted on earning power before us. We were shy of capital but rich in assets—hence our great reliance on bonds. The same necessity of purely capital naturally would lead to complexity and variety in capital structures in order to attract as many types of investors as possible into any given operation.

Now that the tables are somewhat turned, it is natural that European capitalizations may become a bit more like ours.

In addition to the flotation of new European stock issues in this country, which now is under way, there is a healthy movement to list seasoned European stocks on our exchanges.

**OFFICIAL WEATHER FORECAST.**  
The official forecast for today and tomorrow is as follows:

Monday—Mostly fair Tuesday and Wednesday; Tuesday in extreme northwest part.

Monday—Partly cloudy Tuesday, probably showers in extreme southeast part in early morning; somewhat cooler; mostly cloudy Wednesday.

Monday—Mostly fair Tuesday and Wednesday; slightly cooler Tuesday in northwest part.

Monday—Fair, somewhat cooler in east central portion Tuesday; Wednesday mostly fair, rising temperature in west and north portions.

Monday—Fair Tuesday, cooler at night; Wednesday fair.

Monday—Generally fair Tuesday and Wednesday; somewhat cooler Tuesday in north and east central portions.

Tuesday, October 9, 1928.  
(Copyright: 1928, by The Chicago Tribune.)  
Keystone Steel and Wire.

H. E. J.—Keystone Steel and Wire company reported net income of \$1,388,184 for the fiscal year ended June 30, 1928, as compared with \$1,018,591 for the preceding fiscal year.

This is equal to \$6.16 a share earned on the 262,284 shares of common stock in the latest fiscal year, against \$4.32 a share on the common in the preceding year.

After payment of preferred and common dividends, surplus for the latest year was \$948,729.

Profit and loss surplus stood at \$2,544,489 on June 30, 1928, compared with \$1,586,476 on June 30, 1927.

Current assets were \$4,971,561 and current liabilities \$925,271 as of June 30, 1928.

This left net working capital of \$4,046,290, which compares with \$3,457,900 as of June 30, 1927.

It was reported on Sept. 12, 1928, that operations were at capacity and that contracts on government work would keep the plants going at a high rate until the first of 1929.

Dividends at the annual rate of \$3 a share are being paid on the common stock.

The preferred is fairly high grade. The common deserves a fairly good rating at present.

**Allied Utilities (Bonds Called).**  
S. D. A.—All of the outstanding Allied Utilities corporation first lien and refunding 6 per cent bonds, series A, due Nov. 1, 1931, have been called for redemption on Nov. 1, 1928, at 105 and interest at Pennsylvania company for

insurance on lives and Granting Annuities, Philadelphia, trustee.

**Brief Answers.**  
P. D. R. Haverford, Pa.—Pennsylvania Water and Power company first sinking fund 7's of 1940 are a sound investment.

T. M., Oak Park, Ill.—The Schuydell and Lehigh railroad first mortgage 4's of 1948 are a sound investment.

## MICHIGAN BOULEVARD AT WASHINGTON STREET

Radio shares featured Chicago stock trading yesterday with some of the automotive group close behind.

Zenith Radio jumped more than 29 points to a new top of 163. The movement was attributed to the understanding that a statement will be issued later this week which will have a favorable effect on earnings and a possible dividend of 3 cents and Grigsby-Grunow advanced 3 points. Eria was up 3½ on rumors of an impending merger with several allied lines. Utah Radio gained 1 point.

Pines Waterfront led the upward movement in the automotive list with a gain of 21 points due to the small supply of stock outstanding. Henney Motors was up 19½ points. The group also closed 5½ higher on reports that the company will soon take over another concern in a different line which will add substantially to the net earnings.

Warrior advanced 5 points.

Nashua Spring climbed 6 points and J. R. Thompson jumped into the active column with a gain of 5½. The Thompson company's stock for September, 1923, amount of \$10,854,551, was \$11,077,000 for the same month last year. For the nine months ended Sept. 30, 1923, sales were \$10,854,551, compared with \$10,677,661 for a similar period in 1922. Advances of the point to point type published by Western Auto Products "A" and "B." Coleman Lamp, Atlas Stores, Baxter Laboratories and Art Metal Works.

Sonneten Tube sold ex-rights and the stock finished 7½ lower. Bendix was hesitant to produce a dividend of 1½ cents and declined 8 points and the "A" stock ended 5½. Auburn Automobile was down 5 points. Super Mail was

1,147,583 gross tons produced at 2,358,481 in the same month in 1927. Production was 8.01 per cent of capacity against 68.32 per cent in 1927. Output for the last nine months was 43,020,000 tons against 37,778,952 gross tons in the corresponding period in 1927.

M. L. Molan, president of Purty Bakers corporation, announced that arrangements have been completed for the acquisition of control of all the outstanding stock of Tip Top Baking company, Inc., of Louisville, Ky. "Payment is to be made in cash and no new financing is involved."

Marconi Wireless Telegraph company, Ltd., through an agreement with the Halesite company has obtained British empire rights to all Halesite triodyne radio patents with the exception of Australia and Canada, where licensees have already been granted.

The Mahoning valley steel operations were reported at 85 per cent of capacity, with 49 of 53 independent open hearth furnaces under power. Rolling mills are operating at 84 per cent of capacity, with 14 of 20 independent. Independent plate operations are at 90 per cent.

Stockholders of the United States Cast Iron Pipe and Foundry company have

Superior Oil corporation has purchased 90 per cent of the stock of the Moody corporation for approximately \$4,000,000, gaining control of the oil producing company of the Moody Seagraves interests.

Undelivered orders at the American plants of R. Hox & Co., makers of 1½ machinery, represent nearly 8 months normal business, and for the British subsidiary more than a year's normal business.

Stockholders of W. F. Hall Print company ratified an increase in the capital stock to 400,000 shares from 300,000 of \$10 par.

Sale of a controlling interest in P. Pligsky corporation, operators of 2½ Baking company of Cincinnati, has been announced by the Kroger Grocery and Baking company of Cincinnati, as disclosed by J. E. Maury, president Pligsky Wigvis.

The Atlas Plywood corporation, which has in operation double the number of assembling plants it had a year ago, meeting with unprecedented demand for its products in new territories and from old customers, which have adopted Atlas packing methods, according to Ralph Buck, president.

The writing banks on October 3, 1928 had:

Combined Deposits	\$874,209,900
Combined Resources	\$1,078,790,400

# TO KEEP and ENJOY

what you accumulate!

GOOD BONDS, carefully diversified and selected with the help of an old and successful institution such as this, enable you to keep the money you accumulate, and enjoy a sure, dependable SECOND INCOME from it. At the same time you have a substantial, marketable reserve.

Generations of conservative investors have been provided with safe and remunerative securities by this institution which is distinguished, in the field of banking, for its caution in safeguarding investment funds.

A wide range of choice is offered—including high grade public utility, industrial, railroad, real estate, investment trust, municipal and government securities.

Our current list includes a number of particularly attractive offerings which combine strong security backed by substantial earnings, with good yield and marketability. The convenient coupon will bring you literature describing outstanding offerings. No obligation.

Investment Advice  
-all the time  
-in time

EVERY investor requires  
dependable and con-  
sistent advice on the affairs  
of companies in which he  
is financially interested.

One of the most important  
measures for safety and profit-  
able investment can be pro-  
vided by delegating the invest-  
ment of your funds to  
Moody's—unbiased and  
objective—of investment spe-  
cialists with a background of  
more than 20 years' experi-  
ence.

# "MARKET FAVORS "MERCANTILES" OTHERS ERRATIC

YESTERDAY'S AVERAGES

New York, Oct. 8.—(Special.)—Stock  
market tendencies were mixed today,  
taken as a whole, however, the list  
drifted toward lower levels in the  
opening session of the new week.  
Early in the close, with the motor shares  
particularly, a reactionary movement  
developed, but the majority of the  
merchandising issues were distinctly  
strong all day, and elsewhere there  
was a series of fresh bullish demon-  
strations in selected stocks.  
Trading was on a rather active basis,  
shares, and net advances topped 2,800,  
41 points, the maximum being in Allied  
Chemical and Dye, while net losses ex-  
ceeded as far, with the airplane issue,  
Warren Bros. and Case Threshing the  
most conspicuous on the down side.

Money Rate Is Easier.

The money situation was easier both  
as regarded the demand and time money  
funds, with the volume of day to day  
trading at 6 1/2 per cent throughout the day,  
and with money reported available in  
good quantity as low as 5 per cent out-  
standing. So far as the credit situation  
concerned, sentiment was helped by  
absence of the customary Monday draw-  
downs by banks to adjust their reserve  
balances.

The higher interest rate fixed on the  
treasury loan for which subscriptions  
are now open, served, however, to  
complicate the situation somewhat. The  
4 1/2 per cent on the September issue  
raised the contention that the treasury  
department apparently sees little to  
condemn any far reaching change in the  
conditions over the balance of the year.

Motor Shares Decline.

The automobile shares were inclined  
to reaction from the outset. Chrysler  
dropped 2 points. Hudson lost  
3/4 point. Hupp, 2; Reo, 1; Packard, 1 1/2;  
Studebaker, 1 1/2; Nash, 1 1/2, and so on.  
Motor Products, however, quit 3/4 to  
the good and Dodge Brothers A and  
Murray corporation gained more than a  
point.

Case Threshing sold 5 1/2 points under its  
last previous transaction. Warren  
Brothers dropped 3 points to the year's  
low level and finished 12 1/2 points to the  
bad. Wright Aeroplane lost 2 points  
and Curtis 7/8. Other outstanding  
declines included Universal Paper's 5 1/2;  
Russia Insurance, 4 1/2; Pierce Oil, 4 1/2;  
International Silver, 4; Commercial  
Solvents, 4 1/2; Chicago Pneumatic Tool  
4 1/2; Radio Corporation, 3 1/2; Keith-Albee  
Orpheum, 3 1/2; Midland Steel  
Products, 3 1/2; Byers, 3 1/2; and  
Warner Brothers, 2 1/2.

Merchandise Shares Rise.

On the other side of the picture were  
Montgomery Ward, which gained 1 1/2  
points on the day and at one stage was  
up 3 points; Best & Co., which attained  
a new peak and closed 4 1/2 points up;  
United Cigar Stores, up 3/4; Schulte Re-  
frigerators, Park and Tilford, and  
Stores, Savings Arms and some more.  
Elsewhere big gainers included Indian  
Refining, Houston Oil, Archer Daniel  
Midland, By-products Coke, Victor Talk-  
ing Machine, Western Union, and Gil-  
lette Safety Razor.

Anaconda was the center of consider-  
able buying among the copper, and  
American Smelter, with a 4 point im-  
provement. Granby Mining and Green-  
Canada also were in active demand.  
Tobacco showed an easier tendency and  
the rails also inclined to lower levels.

Monday, Oct. 8, 1928.

Telephone FRANKLIN 5873  
CHICAGO

## Chicago's New Suburban Center on the North Western —Planned with a Purpose

The old order changeth! No longer do successful communities start by accident and then, Topsy-like, just grow. Now they are planned—their growth and progress is charted—their future is accurately forecast.

CUMBERLAND is of the new order! Experts weighed the factors necessary for civic growth . . . studied the facts about Chicago, past, present and future . . . then pointed to this spot close to the city and said, "Here is the ideal location for a new community."

Civic planners set to work—and CUMBERLAND began to grow. "Here," they said, "should be a theater, here a drug store, there a filling station and there a garage." On scientific basis were allotted sites for groceries, shoe dealers, jewelers, dry goods stores, and all the other commercial activities of a lively community.

CUMBERLAND is a community planned with a purpose; from its business center at the new station, and on the three super-highways that meet here, radiate broad streets tapping a residential district of decided charm. CUMBERLAND is planned to fill superlatively the needs of today, and to be ready to take its destined place among the finer communities of tomorrow.

## Over a Million Dollars Being Spent in Improvements

Rapid progress is being made. Immense sums of money are being invested in high grade improvements. Construction crews are delving into the earth to install every modern convenience . . . miles of paving and sidewalks are being laid . . . trees and shrubs are being planted in the parks, protected playgrounds and parkways . . . attractive homes are to be built . . . in every way the plan of CUMBERLAND is being perfected.

## New Station 29 Minutes from the Loop

Fast, comfortable train service of the C. & N. W. Ry.—a steam suburban service that, with its zealously kept promise of a seat for every rider, is unrivaled—available to CUMBERLAND residents from the new station that is now under construction. With this 29-minute service you can enjoy the pure air and wholesome advantages of country life that belong to this district, and yet be closer to the Loop in minutes than you would in many of the city's populous districts.

## Where 3 Great Highways Meet

Three of Chicago's chief motor routes meet at CUMBERLAND. This means more than convenient accessibility by auto—it is an assurance of increasing commercial importance and continuing property-value increase—for the history of Chicago's outlying territory proves the truth of the saying that "value grows where traffic goes."

## Unexcelled Recreation Spots

Close to CUMBERLAND are some of Chicago's greatest outdoor playgrounds—forest preserves, with golf courses, bathing beaches, bridle paths, tennis courts, and other sports facilities are here. Within a ten-minute motor ride are a dozen golf courses. Within CUMBERLAND itself are unique parks and protected playgrounds, to be handsomely landscaped. Residents of this community will lack for none of the recreational opportunities so essential to health and happiness.

## For the Home Builder and for the Investor

In CUMBERLAND are found six great factors that assure increasing value. Any one alone would make every site in the development a highly promising investment—every one is of proven value in creating huge realty profits. Combined as they are in CUMBERLAND they mark this an outstanding opportunity for the investor and the home builder.

## Advance Information Ready!

Preparations for the public opening of CUMBERLAND are going forward rapidly—soon it will be ready. Before that time thinking folks will want to investigate—they will want to learn of the six sensational factors of growth that are present here. We have prepared an outline of the SIX FACTORS that will be of great interest to everyone who wants to know the "how" and "why" of real estate values anywhere. Send for this information TODAY. It will come to you, together with plan showing business and home locations, price list showing the unusually low cost and easy terms on which you can buy here, and directions for motoring to this new community, without cost or obligation.

## Mail This Coupon at Once

The H. M. Cornell Co.  
176 W. Adams St., Chicago, Ill.

Without any obligation or cost please send me particulars regarding the factors of growth that mark CUMBERLAND as an extraordinary investment opportunity, and the six points of value that can be applied to any property.

Then it is true that in the sea of less good work cast up on our gallery walls, there are high lights; and these are the artists to be entered in the list. From England, Spencer Pryse; from France, Jean d'Ylen; from Germany, Ludwig Holwein; from Austria, Julius Klinger; from the United States, Blumenthal, Krasner, and Schuchman. From Russia, Kozlov. Chicago is represented by four important names, Charles Morgan, Park Phipps, Ben Franklin Olson and R. Fayerweather Babcock. It is granted that the prize awards are not made on the basis of the artistic interest of our greatest illustrators. Had the money been divided into two prizes, one of \$3,000 and one of \$1,000, the number of posters might have been increased and the quality might have been greater. Still, all is not lost.

From the chairman of the committee

**AR. Member, Sunday School Teacher, Says Letter Strangled Her Friend**

Morristown, N. J., Oct. 3.—(Special.)—The Society folk of Boonton and Newburgh, N. J., are expected to meet in Council on the 10th inst. and to discuss the letter they are today to see a woman again, legal duel with a minister.

The woman is Mrs. Helen Brumfield, widow of the late Charles Brumfield, of the Deacons of the American Revolution and the minister is the Rev. William H. Bridge, rector of St. John's Episcopal church of Boonton.

Right after the letter was received, Baldwin said that she had been "mugged" by a number of persons who had been extremely friendly" before the publication in a local newspaper of a letter in which she had charged the church with making "lying imputations."

Judge Lawrence suggested that Mrs. Baldwin might be more specific, and she said that "two women passed in the street and I overheard one say that there goes the woman that said the church called a liar."

Frequently when she entered a room where several persons were congregated, she noticed that the conversation ceased and she noticed "a dim light over of cooless." All this she laid upon her mind, she declared, and her blood pressure rose alarmingly.

Last January the Rev. Mr. Bridge, of the Church of Ames Mead, pacified her by saying that the letter was a forgery. Then Mrs. Baldwin wrote a letter to the Boonton Times, and in it she quoted Capt. G. L. Darr, of the Military Order of the World War, as saying that the letter was "a forgery" and that she was "playing the card of the woman."

tee, Chauncey McCormick, comes the

## WESTERN ROADS PLEAD POVERTY IN WAGE DISPUTE

Present Figures to Show  
Slender Income.

The financial position of the western railroads is unfavorable as compared with southern and eastern carriers, according to figures presented yesterday to the federal fact-finding commission by L. E. Wetling, manager of the statistical bureau of the western lines.

With reduction in freight rates, Mr. Wetling said there has been a decrease in earnings as compared with the test period of three years ending June 30, 1917. From that period to 1927, he pointed out, net earnings per mile of eastern roads gained 27 per cent; earnings of southern roads gained 48 per cent, while western railroads decreased 4 per cent.

**Commission Holds Hearing.**  
The federal fact-finding commission is holding a series of hearings over the deadlock over demands of the western roads' trainmen and conductors for a 7 1/2 per cent wage increase without change of working rules.

Representatives of western roads agreed to a 4 1/2 per cent wage boost, but insisted on elimination of the double header rule (two engines on forty car trains on branch lines) if they grant a 7 1/2 per cent increase.

Charles Donnelly, president of the Northern Pacific railroad, testified that most of the lines in the west would be in the hands of receivers if they could not haul more than forty cars to the train.

**Reduction in Income.**  
Mr. Donnelly said the income of the western railroads in 1926 amounted to \$440,000,000 and in 1927 to \$389,000,000. In the east and south, he said, there is no rule against double headers, adding that the cost of living of employees has declined while the earnings have been reduced.

Mr. Donnelly said the only factor now justifying an increase was the fact that engineers and firemen had been given a 4 1/2 per cent increase, and that the railroads were willing to give the same increase to the train service men but they would not accept it.

## ROBBERY VICTIMS FREE RICH YOUTH HELD AS SUSPECT

Capt. Patrick Harding admitted yesterday that an injustice had been done in the arrest of a rich youth, who was held on Oct. 1 at a Parwell avenue and Sheridan road.

Yesterday morning he was brought face to face with the victims of a robbery, Paul Shea, Julian Frey, Dr. Henry Frey, Aaron Levitas and Martha Levitas, all of 1114 Pratt boulevard.

"Why, he's not the robber. He's one of my patients," said Dr. Frey, a dentist, and the others agreed that Michaelson was not the youth who held them up on Oct. 1 at Parwell avenue and Sheridan road.

According to Capt. Harding, one of the robbery victims saw a man in an automobile a few days after the robbery and being unable to cause his arrest at the time, noted the automobile license number. The number furnished the police was for a car owned by Michaelson and detectives were waiting for him Sunday night when he and his father returned from Madison, Wis.

## WRIGHT BACK AT TALIESEN THANKS FRIENDS

Madison, Wis., Oct. 8.—(AP)—The Frank Lloyd Wright corporation, formed under the laws of Wisconsin and capitalized at \$75,000, enabled the famous architect to repurchase Taliesin, his "model home," pay his debts, and start again at his profession, he said today.

Voluntarily his friends came to his assistance, formed the corporation, and bought shares in it, he said, and from the security of his beautiful country estate he expressed his appreciation.

Under the articles of corporation, Mr. Wright is to have complete use of the estate and the remainder of the company's capital to finance his office.

Among the stockholders in the corporation are Alexander Woolcott, dramatic critic of the New York World; Charles McCarthy, a former Chicago newspaperman and author, and Albert, Charles, and Warren MacArthur of Phoenix, Ariz.

**WIND SPREADS BURN FIRE.**  
ST. LOUIS, Oct. 8.—(AP)—A fire started by a wind machine in a New South Wales hotel. A six-three mile per hour wind, blowing out of the west, spread the fire, causing great destruction of property.

## Radio Offerings Impinge Lightly on Elmer's Ears

But in a Mild Way He  
Finds 'Em Satisfying.

BY ELMER DOUGLASS.

Light entertainment was the order of the evening among the radio programs. Most any listener can keep cheerful and hopeful, and perhaps conversational, while the Gypsies' orchestra is on the air, New York, through W-G-N, 720 to 830. A new listener would get a big kick out of this.

Limiting qualifications may be discarded when speaking of the Family Party program, New York, through W-G-N, 830 to 930, for every listener could get a kick out of their entertainment. The reason was that Arthur Pryor and his band stirred the air more energetically and far more musically than did the electrical storm going on at the same hour. Besides, Merle Alcock, mezzo-soprano, was the soloist, and though she sang but a few solos it was apparent that she could easily sustain one's interest in a half hour recital.

One of the features of the evening was Fannie Brice, from New York, through WMAQ, 830 to 9. This story-teller character singer and variety teller is always entertaining.

Any one would have been justified in high expectations for a first class violin recital by Henry Selinger, W-G-N, 930 to 10, but the station's transmitter turned recalcitrant and only gave us the final portion of the program.

Les Sims, pianist, WBBM, 10 to 1015, is often puzzling in his maneuvers, but his manipulations and improvisations on the ebony and ivory hold not only one ear but both ears.

At odd intervals I rather enjoyed picking up a New York broadcast of "Pagliacci" from New York through WSAI, Cincinnati, 930 to 11.

Any night is an ideal night to hear W-G-N's 11 to 1115 "Dream Ship" and its orchestra pass by. The only regret is that some one doesn't drop the anchor when the ship is directly off shore, so that it might stay within hearing for twenty or thirty minutes longer.

## 2 Youths, Girl Are Killed as Auto Crashes Truck

Plymouth, Ind., Oct. 8.—(Special.)—Ester Lason, 16; Harry Wooster, 20; Lloyd Schultz, 19, all of Lakeview, were killed last night when their automobile sidwheeled a truck near Lapas, Ind. Mrs. Wooster, a bride of one day, was slightly injured.

10-11—Stimulus music. NBC system, including W-G-N (410.4m-720k).  
11-12—Great American. NBC system, including W-G-N (410.4m-720k).

## Woman's Second Offense in Running Still Costs Child

(Picture on back page.)  
Last May Mrs. Mabel Lyndahl, 28 years old, was arrested when a still was found in her home at 2809 North Monticello avenue. She pleaded for her release on the ground that she knew nothing about the still, adding that her 3 year old son needed her attention. The federal authorities, touched by her appeal, freed her.

Yesterday she was taken to the federal building. Another still had been found in her home. She made the same plea. Assistant District Attorney E. A. Fisher, refusing to show sympathy on the second offense, held her in jail and ordered the boy turned over to the juvenile court.

## Former Judge Clifford Will Be Buried Today

A committee of thirty-five judges and attorneys representing the Chicago Bar association will attend the funeral of former Judge Richard W. Clifford, at 10 o'clock this morning at Holy Name cathedral. Former Judge Clifford was a member of the Circuit court bench from 1877 to 1899. He died Saturday at his home, 1249 North State parkway, after a brief illness.

ANDREW ERIKSON, 92 years old, died yesterday at his home, 4872 North Paulina street, of the infirmities of age. Mr. Erikson, a native of Sweden, came to Chicago sixty-three years ago. He was a cabinet maker until his retirement. Three daughters survive. Funeral services will be held at the residence Thursday at 2 p. m.

**KILLED BY WINDOW WEIGHT.**  
Joseph Rockett, 35 years old, a machinist living at 6711 Ohio avenue, was killed yesterday when struck by a window weight which fell from the hands of Peter Baruch, 3815 North Home avenue, was repairing windows on the third floor at 215 West Madison street.

**SEE AND HEAR THE NEW EVEREADY RADIO SETS**

Medium Size Eveready Layerbilt "B" Battery No. 485.  
45 cells—3 1/4 in. thick.

## The Eveready Layerbilt is now made in two sizes

THERE is now a new Eveready Layerbilt "B" Battery made in medium size. It bears the number 485 and the label is also marked "Medium Size" to distinguish it from the Heavy Duty Eveready Layerbilt No. 486. The new medium sized Eveready Layerbilt has the same dimensions as the corresponding cylindrical Eveready No. 772. Tests have proved, beyond question, that just as the famous big Eveready Layerbilt No. 486 is the superior Eveready in the heavy duty size, so is the new medium sized No. 485 the longest lasting battery of its size.

The addition of the medium sized No. 485 to the Eveready line makes it possible for everyone to take advantage of the remarkable economy of Layerbilt construction. There is scarcely a modern battery-operated radio receiver that cannot satisfy most economically its battery needs in either of the two Eveready Layerbilt "B" Batteries. Those who use the heavy duty size will need No. 486. Those who use the medium size should buy the No. 485.

**New low prices**  
Eveready Layerbilt Medium Size No. 485 NOW \$2.95  
Eveready Layerbilt Heavy Duty No. 486 NOW \$4.25

## JURIST PRAISES U.S. CONTRIBUTION TO WORLD COURT

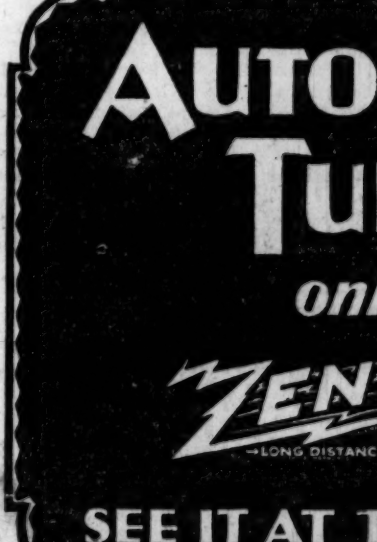

(Picture on back page.)  
Dr. Antonio Sanchez de Bustamante of Havana, one of the judges of the permanent court of international justice, yesterday explained to law students at McKinlock campus of Northwestern university some of the workings of that court, and credited representatives of this country with at least one important contribution to the operation of the court. That was the system of electing judges, worked out by Elihu Root and James Brown Scott.

Dr. De Bustamante expressed approval of the Kellogg peace treaties, predicting that in future years they will come to be looked upon as masterpieces, and Kellogg as deserving of an honored place in history for having negotiated them.

Last night he gave another lecture on the Evanston campus. His visit in Chicago is to give the Julius Roessenthal Foundation lectures for 1928.

## LARRY SEMON, FILM COMEDIAN, LOSES HIS BATTLE WITH DEATH

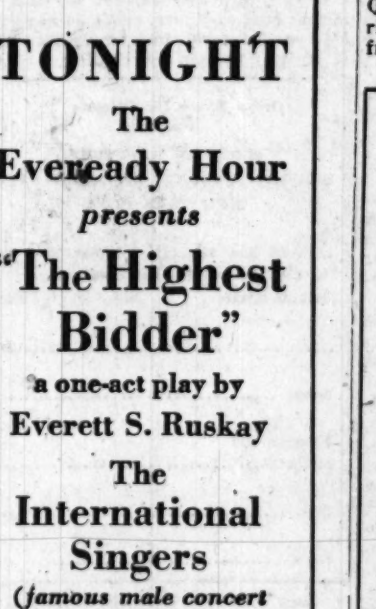

Victorville, Cal., Oct. 8.—(AP)—Larry Semon, motion picture comedian, died here today. He had been waging a losing battle against death since last Friday, when he was stricken with double pneumonia. He sank rapidly and his life was despaired of Saturday.

Semon went to a ranch near Victorville about six weeks ago in an attempt to recover from a nervous breakdown, which came several months ago after a series of financial reverses incurred in the motion picture business. Never of robust health, he seemed unable to rally from the depression and illness. His wife, Dorothy Dwan, screen actress, and her mother, Mrs. Nancy Smith, attended him during his illness.

Semon was born in West Point, Miss., thirty-nine years ago. He claimed his early life in juvenile roles and then became a magician. Later he worked as a newspaper cartoonist, but the stage called him again, and he toured in vaudeville as a tumbler.

WANTED—MALE HELP.  
Salesmen, Collectors, Etc.  
A. A. A.

**REAL ESTATE SALESMAN.**  
Your present earnings and your future in the real estate business depends on your clientele. Your clients can be relied to become your friends when you sell to them properties which can be an asset rather than a liability.

Krenn & Dato Suedfeld Terrace is an opportunity of the year both to salesmen and to buyers.

1. 24 blocks from Demarest-st. Elevated Terminal.  
2. All improvements included in purchase price. Sewer, water, gas, electric, telephone, sidewalk, trees and shrubs, etc.  
3. Absolutely restricted to moderate prices and unusually low terms.

Your future and your clientele demands that you sell the finest market offers.

COME, let us talk it over. Investigate for yourself and you will find that money can be made when you have something worth while to offer. For personal interview call on

Head of Subd. Sales Dept.,  
1009 N. STATE-ST.  
KRENN & DATO, Inc.,  
Exclusive Agent

# New York Woman Sues Thorne Estate for \$3,000—Kay Wood, Lawyer and Commission Man, Killed in Auto

**KILLED IN AUTO.** Kay Wood, lawyer and commission man, victim of accident. (Story on page 7.)

**BOOTLEGGING MAY COST WOMAN HER CHILD.** Mrs. Mabel Lysdahl, arrested for second time as Volstead law violator, and Edward A. Fisher, assistant United States district attorney. (Story on page 44.)

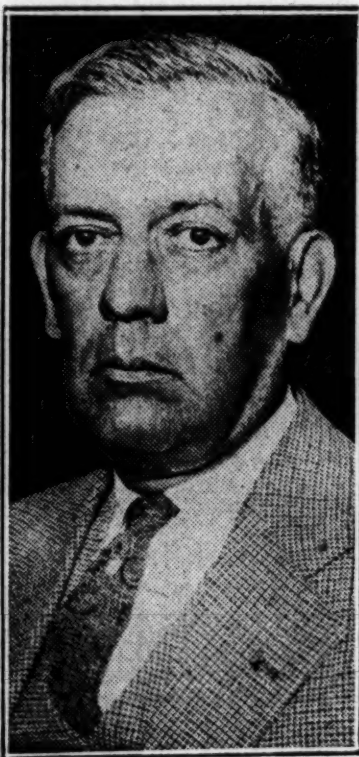

**BERWYN FAMILY WHICH WAS WIPED OUT BY DOMESTIC TRAGEDY.** Left to right: Jean Adelaide Ryker, 8; Mrs. Clyde Ryker holding Helen, 5, and Phyllis, 6. Mrs. Ryker turned on the gas and sealed her home, killing the children and herself. (Story on page 14.)

**SUES GEORGE A. THORNE ESTATE FOR \$3,000.** Miss Pearl Baremore, who claims she lent late broker money after he had lost on races and that he never repaid her. (Story on page 5.)

**ONE OF THE EXHIBITS AT THE RADIO SHOW.** Miss Louise Wallace of 8054 Yates avenue operating a combination radio and phonograph at the Coliseum. (Story on page 9.)

**HEADS NEW JURY.** Gustav A. Cassavant, foreman of fifth special investigating body. (Story on page 5.)

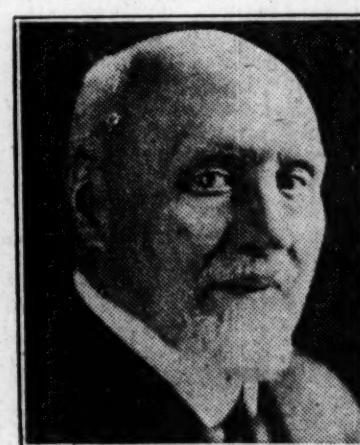

**LOSES FAMILY.** Clyde Ryker, whose wife killed her three children and herself. (Story on page 14.)

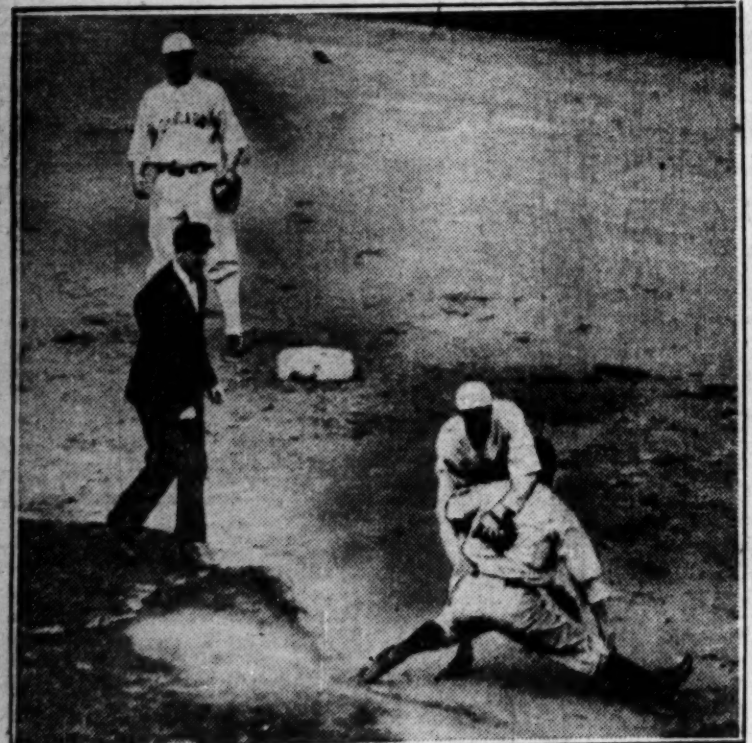

**LOOP CROWD HELPS CATCH A ROBBER.** George McCormick (left) and Policeman George D. Perry, who arrested him after robbery of hosiery store at 159 West Randolph street. (Story on page 1.)

**NAVY SIGNS CONTRACT FOR WORLD'S TWO LARGEST DIRIGIBLES.** Left to right, seated: P. W. Litchfield, president Goodyear company; Secretary of Navy Wilbur. Back row: W. C. Young, Dr. K. Arnstin, J. S. Hunsareo, E. P. Warner, J. R. Wahl.

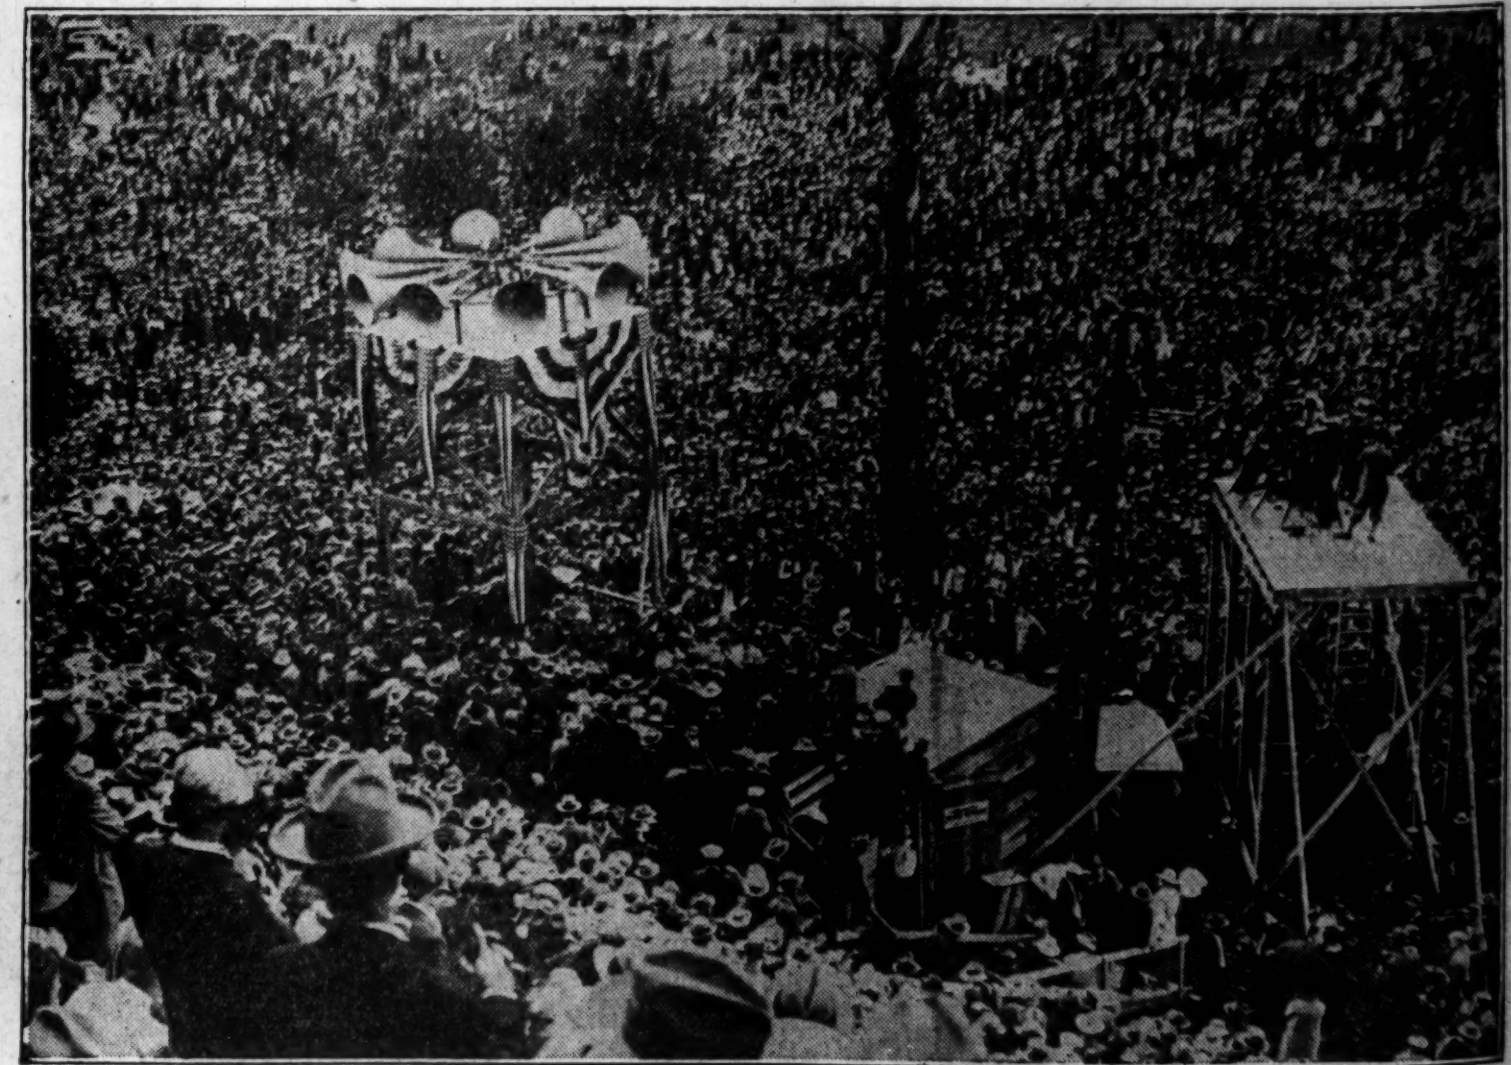

**NOTED LAWYER HERE.** Antonio Sanchez de Bustamante of Cuba lectures at Northwestern university. (Story on page 44.)

**SOX WIN, 7 TO 1, AND EVEN UP THE SERIES.** Stephenson, Cubs' left fielder, being tagged out by Swanson, Sox second baseman, when forced by Grimm in second inning. (Story on page 25.)

**DID JOKER OR BOMBER HURL THIS MISSILE?** Sergt. Oscar Giese of Rogers Park station holding capped steel pipe thrown at Yellow cab. It will be examined today, but cab company officials believe it is harmless.

**WHEN REPUBLICAN PRESIDENTIAL CANDIDATE ADDRESSED 50,000 AT MEETING IN DIXIE.** General view of Herbert Hoover addressing throng at Elizabethton, Tenn., last Saturday. Voters from four states listened to the nominee make a plea for more rigid enforcement of the laws against liquor. (Story on page 3.)
